STEWART LYONS

Accounting Wiley Financial Accounting 6th edition continues the strong reputation established by this leading Australian text as the most comprehensive book for students studying introductory accounting at either undergraduate or postgraduate programs. The new edition is ideal for accounting and non-accounting majors alike

illustrating the applications of accounting and its role in making business decisions. Accordingly, material on the accounting process and the regulatory environment has been thoroughly updated in line with the new IFRSs and the equivalent Australian accounting standards. The previous editions were renowned for the number of exercises and problems, and the new edition builds upon this superior teaching feature. The aim of the exercise material is to encourage

student confidence in using accounting through the development of skills in decision-making, critical thinking, ethical thinking, analysis and communication. NEW TO THIS EDITION IASs referenced before equivalent AAS. New improved design for student ease and readability Financial Accounting 6th edition contains a unique chapter on the dissolution of partnerships that is not found in Accounting 6th edition. All content has been updated to accord to

the latest accounting standards and terminology. Income Statement, formerly known as the Statement of Financial Performance or Profit and Loss Statement, and Balance Sheet, formerly known as the Statement of Financial Position are used throughout. End of chapter exercises and problems are clearly identified as service, retail or manufacturing through the use of a margin icon. And all questions and problems can be GST non-compliant or compliant.

End of chapter problems have been coded according to the level of difficulty and time they take to complete. Questions for Review have been integrated into the body of the text to promote mastery of the concept before progressing on to the next learning objective. Clear, thorough description of GST is supported with clear and correct worked examples. A GST icon appears on the end of chapter exercises and problems that require the student to account for

it. Additionally, the GST is covered in the Appendix to Chapter 3 to provide further detail on terminology, how the GST operates, and reference to relevant legislation. Chapter 7 Accounting Systems uses MYOB Accounting Plus version 14 for illustration. The role of AIS is integrated throughout the text where appropriate. Scene Setter vignette highlights a business experience that will be developed and explained through the chapter. They make an ideal lecture starter. Link

to Business vignette profiles the role and impact of accounting information in various business settings. Activities Boxes ask students to apply the information they have just read to their own business experiences. Career Profiles highlight the diversity of professional roles for graduates with an accounting qualification. Expanded and enhanced ancillary package for both students and instructors including practice tests, extra activities and eFlashcards

on the text website. FEATURES Learning Checks are positioned throughout the chapters and summarise the key learning outcomes for each chapter. Clear, comprehensive and easy to follow explanations of accounting processes. Concepts for Review start every chapter. Students can see what content they must master before proceeding. Extensive problem set at the end of each chapter including discussion questions, exercises, problems and many case studies. The

end of chapter material has a strong decision making emphasis to help students understand how accounting information is used to make business decisions. End of chapter case studies have been thoroughly updated and almost all are based on real data and real firms. The case studies include Decision making Critical thinking Communication/Group activity Ethical issues Financial reporting End of chapter glossary is page referenced back to where the terms was defined

The most comprehensive supplements package for both students and instructors of any introductory Australian accounting text on the market
Financial Accounting 6th Edition with Student Study Guide and Excel CD Working Papers Set Wiley
Financial Accounting, 6th Edition presents accounting in a cutting-edge interactive digital format designed to motivate students by taking the road blocks out of self-study and to facilitate mastery though

drill-and-skill practice. Available as a full-colour printed textbook with an interactive eBook code, this text enables every student to master concepts and succeed in assessment, and supports lecturers with an extensive and easy-to-use teaching and learning package.

Financial Accounting
 McGraw-Hill/Irwin
 Deep coverage and rigorous examination of international corporate finance
 Multinational

Finance offers an advanced exploration of international corporate finance concepts and operations. Despite its status as one of the most rigorous texts on the topic, this book remains accessible and readable without sacrificing depth of coverage. Sidebars, key terms, essays, conceptual questions, and problems with solutions help aid in the learning process, while suggested readings and PowerPoint handouts reinforce the material and offer avenues for further exploration. This new

sixth edition includes Excel templates that allow students to use real-world tools in a learning environment, and the modular structure facilitates course customization to individual objectives, interests, and preparatory level. The emphasis is on the basics of financial management, but coverage includes unique chapters on treasury management, asset pricing, hedging, options, and portfolio management in addition to traditional finance

topics. International finance is a diverse field with myriad specialties and a vast array of possible interests. This book allows students to view the field through the lens of a financial manager with investment or financial options in more than one country to give them a practical feel for real-world application. Understand the nature and operations of international corporate finance Evaluate opportunities, costs, and risks of multinational operations See beyond

the numbers and terminology to the general principles at work Learn the markets, currencies, taxation, capital structure, governance, and more Comprehensive, adaptable, and rigorously focused, this book gives students a solid foundation in international corporate finance, as well as a sound understanding of the tools and mechanics of the field. Designed for MBA and advanced undergraduate courses, Multinational Finance provides the deep

coverage so essential to a solid education in finance. Managerial Accounting PHI Learning Pvt. Ltd. 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis,

University of the West of England, Bristol Financial Accounting is the ideal book for anyone with little prior knowledge or who is new to this subject area. The book retains the clear writing style and unique international focus which led to the success of previous editions. This approach enables the teaching of financial accounting in a way that is not country-specific. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key

concepts and practices while linking them with contemporary real-life examples from around the world. What's new! Fully updated to reflect the extensive changes that have occurred in the three years since writing the fifth edition; Expanded discussion of accounting by SMEs and partnerships (Chapter 4); New discussion on capital maintenance (Chapter 8); Added material on integrated reporting and sustainability (Chapter 6); Expanded discussion of revenue recognition,

including reference to IFRS 15 (Chapter 8). The text is ideal for undergraduates and MBA students worldwide taking a first course in financial accounting. Visit www.pearsoned.co.uk/alexander to find valuable online resources for both students and lecturers, including an instructor's manual and full set of power point slides. David Alexander is Professor Emeritus of Accounting at the University of Birmingham Business School, England. Christopher Nobes is

Professor of Accounting at Royal Holloway, University of London, England. He is also Professor at the University of Sydney, and Adjunct Professor at the Norwegian Business School. From 1993 to 2001 he was a member of the board of the International Accounting Standards Committee. *Financial & Managerial Accounting for MBAs* Wiley-Blackwell Wild's Managerial Accounting presents the managerial accounting course content using a corporate approach. In

features the same student-friendly writing style and learning tools that have enjoyed consistent success with students and instructors using other texts in the Wild series. Also consistent with this series is Managerial Accounting's focus on the "Three C's":

- Clear presentation of accounting concepts,
- Concise coverage to help students focus on important material,
- Cutting edge technology to engage students and improve their chances for

success. The author provides a balance of small and large business examples, integration of new computerized learning tools, superior end-of-chapter materials, and highly engaging pedagogical learning structures. Technology tools such as Connect Accounting provide students with further advantages as they learn as well as apply key accounting concepts and methods.
