Edition of The
American
Promise is the
ideal solution
for instructors
and students
who want a

full-length narrative at a low price. A clear political framework supports a dynamic social and cultural story enlivened by the voices of hundreds of Americans who help students connect with history and grasp important concepts. With the complete supplements package from the full text, the Value Edition offers everything cost-conscious instructors and students want and need for their

U.S. history courses. **Understanding the American Promise, Combined Volume U** of Nebraska Press The American Promise, Value Edition, has long been a favorite with students who value the text's readability, clear chronology, and lively voices of ordinary Americans, all in a portable format. Instructors have long valued the full narrative accompanied

by a 2-color map program and the rich instructor resources of the parent text made available at an affordable price. "Section 8" and the Fate of an American Neighborhood Macmillan Higher Education An essential American dream—equal access to higher education—was becoming a reality with the GI Bill and civil rights movements after World War II. But this vital American

promise has been broken. Christopher Newfield argues that the financial and political crises of public universities are not the result of economic downturns or of ultimately valuable restructuring, but of a conservative campaign to end public education's democratizing influence on American society. *Unmaking the Public University* is the story of how conservatives

have maligned and restructured public universities, deceiving the public to serve their own ends. It is a deep and revealing analysis that is long overdue. Newfield carefully describes how this campaign operated, using extensive research into public university archives. He launches the story with the expansive vision of an equitable and creative America that

emerged from the post-war boom in college access, and traces the gradual emergence of the anti-egalitarian "corporate university," practices that ranged from racial policies to research budgeting. Newfield shows that the culture wars have actually been an economic war that a conservative coalition in business, government, and academia have waged on that economically

necessary but often independent group, the college-educated middle class. Newfield's research exposes the crucial fact that the culture wars have functioned as a kind of neutron bomb, one that pulverizes the social and culture claims of college grads while leaving their technical expertise untouched. Unmaking the Public University incisively sets the record

straight, describing a forty-year economic war waged on the college-educated public, and awakening us to a vision of social development shared by scientists and humanists alike. A History of the United States Macmillan Higher Education "This book examines the Housing Voucher Choice Program, colloquially known as "Section 8," and the effect

of the program on low-income families living in Park Heights in Baltimore. In a new era of housing policy that hopes to solve poverty with opportunity in the form of jobs, social networks, education, and safety, the program offers the poor access to a new world: safe streets, good schools, and well-paying jobs through housing vouchers. The system should, in theory, give

recipients access to housing in a wide range of neighborhoods, but in *The Voucher Promise*, Rosen examines how the housing policy, while showing great promise, faces critical limitations. Rosen spent over a year living in a Park Heights neighborhood, getting to know families, accompanying them on housing searches, spending time on front stoops, and learning about the history of

the neighborhood and the homeowners who had settled there decades ago. She examines why, when low-income renters are given the opportunity to afford a home in a more resource-rich neighborhood, they do not relocate to one, observing where they instead end up and other opportunities housing vouchers may offer them"--

Spreading democracy abroad or protecting business at home: this book offers a new look at the history of the contest between isolationism and internationalism that is as current as the wars in Iraq and Afghanistan and as old as America itself, with profiles of the people, policies, and events that shaped the debate.

Education
The events of
the American
Revolution
signified by
Lexington,
Bunker Hill,
Valley Forge,
Saratoga, and
Yorktown are
familiar to
American
readers. Far
less familiar is
the fact that,
for the British,
the American
colonies were
only one front
in a world war.
England was
also pitted
against France
and Spain. Not
always in
command of
the seas and
threatened
with invasion,
England tried

grimly for
eight years to
subdue its
rebellious
colonies; to
hold Canada,
the West
Indies, India,
and Gibraltar;
and to divide
its European
enemies. In
this vivid
history Piers
Mackesy
views the
American
Revolution
from the
standpoint of
the British
government
and the British
military
leaders as
they
attempted to
execute an
overseas war
of great
complexity.
Their tactical

response to
the American
Revolution is
now
comprehensibl
e, seen as
part of a
grand imperial
strategy.

Macmillan
The average American is nothing if not patriotic. "The Americans are filled," says Mr. Emil Reich in his "Success among the Nations," "with such an implicit and absolute confidence in their Union and in their future success that any remark other than laudatory is unacceptable to the majority of them. We have had many opportunities of hearing public speakers in

America cast doubts upon the very existence of God and of Providence, question the historic nature or veracity of the whole fabric of Christianity; but never has it been our fortune to catch the slightest whisper of doubt, the slightest want of faith, in the chief God of America-unlimited belief in the future of America." Mr. Reich's method of emphasis may not be very happy, but the

substance of what he says is true. The faith of Americans in their own country is religious, if not in its intensity, at any rate in its almost absolute and universal authority. It pervades the air we breathe. As children we hear it asserted or implied in the conversation of our elders. Every new stage of our educational training provides some additional testimony on its behalf.

Newspapers and novelists, orators and playwrights, even if they are little else, are at least loyal preachers of the Truth. The skeptic is not controverted; he is overlooked. Harper Collins A resource for all who teach and study history, this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history. The nineteen essays

gathered in this collaboratively produced volume, written by leading scholars in the field of Native American history, reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey. Contributors reassess major events, themes, groups of historical actors, and approaches--social, cultural, military, and

political-- consistently demonstrating how Native American people, and questions of Native American sovereignty, have animated all the ways we consider the nation's past. The uniqueness of Indigenous history, as interwoven more fully in the American story, will challenge students to think in new ways about larger themes in U.S. history, such as settlement and

colonization, economic and political power, citizenship and movements for equality, and the fundamental question of what it means to be an American. Contributors are Chris Andersen, Juliana Barr, David R. M. Beck, Jacob Betz, Paul T. Conrad, Mikal Brotnov, Eckstrom, Margaret D. Jacobs, Adam Jortner, Rosalyn R. LaPier, John J. Laukaitis, K. Tsianina Lomawaima,

Robert J. Miller, Mindy J. Morgan, Andrew Needham, Jean M. O'Brien, Jeffrey Ostler, Sarah M. S. Pearsall, James D. Rice, Phillip H. Round, Susan Sleeper-Smith, and Scott Manning Stevens. *A History of the United States* Macmillan Higher Education The American Promise: A Concise History is a brief, inexpensive narrative with a clear political,

chronological narrative that makes teaching and learning American history a snap. Streamlined by the authors themselves to create a truly concise book, the fifth edition is nearly 15 percent shorter than the fourth compact edition, yet it includes more primary sources than ever—including a new visual sources feature. It is also enhanced by LearningCurve, our easy-to-assign

adaptive learning system that will ensure students come to class prepared. The American Promise, Value Edition, Volume 1 Macmillan A sweeping and original work of economic history by Michael Lind, one of America's leading intellectuals, Land of Promise recounts the epic story of America's rise to become the world's dominant economy. As ideological

free marketers continue to square off against Keynesians in Congress and the press, economic policy remains at the center of political debate. Land of Promise: An Economic History of the United States offers a much-needed historical framework that sheds new light on our past—wisdom that offers lessons essential to our future. Building upon the strength and lucidity of his New York

Times Notable Books The Next American Nation and Hamilton's Republic, Lind delivers a necessary and revelatory examination of the roots of American prosperity—in sight that will prove invaluable to anyone interested in exploring how we can move forward.

Overcoming Racism and Renewing the Promise of America

Hill and Wang Thomas Paine was one of the most remarkable political

writers of the modern world and the greatest radical of a radical age.

Through writings like Common Sense—and words such as "The sun never shined on a cause of greater worth," "We have it in our power to begin the world over again," and "These are the times that try men's souls"—he not only turned America's colonial rebellion into a revolutionary war but, as

Harvey J. Kaye demonstrates, articulated an American identity charged with exceptional purpose and promise.

To 1877

Princeton University Press Understanding the American Promise, Second Edition, features a brief, question-driven narrative that models for students the inquiry-based methods used by historians and features innovative active learning

pedagogy to help students understand what's really important to know about U.S. history. This affordable text comes integrated with LearningCurve, an adaptive learning tool that helps students retain what they've read and come to class prepared.

A History of the United States

Princeton University Press The American Promise, Value Edition, has long been

a favorite with students who value the text's readability, clear chronology, and lively voices of ordinary Americans, all in a portable format. Instructors have long valued the full narrative accompanied by a 2-color map program and the rich instructor resources of the parent text made available at an affordable price. The sixth edition introduces a breakthrough in teaching

and learning through the addition of LaunchPad, which combines carefully-curated new assignments and assessments integrated with the full-length parent text e-book—the same narrative in the Value Edition but with full color art and maps and more features for analysis—in its own intuitive course space. The American Promise Value Edition with LaunchPad

now provides the best formats for every activity—the print book allows for a seamless reading experience while LaunchPad provides the right space for active learning assignments and dynamic course management tools that measure and analyze student progress. LaunchPad comes with a wealth of primary sources and special critical thinking

activities to help students progress toward learning outcomes; LearningCurve, the adaptive learning tool that students love to use to cement their understanding of the text and instructors love to assign to prepare students for class; and a suite of instructor resources from videos to test banks that make teaching simpler and more effective. What's in the LaunchPad **The**

American Promise Value Edition, Volume I: To 1877 Harvard University Press
The new two-color Value Edition of The American Promise is the ideal solution for instructors and students who want a full-length narrative at a low price. A clear political framework supports a dynamic social and cultural story enlivened by the voices of hundreds of Americans who help students

connect with history and grasp important concepts. With the complete supplements package from the full text, the Value Edition offers everything cost-conscious instructors and students want and need for their U.S. history courses. *The Voucher Promise* Harvard University Press The Model Rules of Professional Conduct provides an up-to-date resource for information on

legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its

practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. **U.S. History** The American Promise, Volume I: To 1877A History of the United States Published by

OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). **1775-1783** Macmillan Understanding the American Promise, Second Edition, features a brief, question-driven narrative that models for students the inquiry-based methods used by historians and features innovative active learning pedagogy to help students understand what's really important to know about U.S. history. This affordable text comes integrated with LearningCurve, an adaptive

learning tool that helps students retain what they've read and come to class prepared. *Why You Can't Teach United States History without American Indians* Bedford/St. Martin's A timely defense of religious diversity and its centrality to American identity America is the most religiously diverse nation on the planet. In today's volatile climate of religious

conflict and distrust, how do we affirm that the American promise is deeply intertwined with how each of us engages with people of different beliefs? Eboo Patel, former faith adviser to Barack Obama, provides answers to this timely question. In this thought-provoking book, Patel draws on his personal experience as a Muslim in America to examine the importance of religious

diversity in the nation's cultural, political, and economic life. He explores how religious language has given the United States some of its most enduring symbols and inspired its most vital civic institutions—and demonstrates how the genius of the American experiment lies in its empowerment of all people. [The Known Citizen](#) Bedford/St. Martin's America's Promise is a

concise, highly readable introduction to American History. Designed to clearly explain major themes and events, it also captures the rich and often amusing character of the American people. The strong narrative emphasizes public life and how individuals constructed public structures in which they lived and worked. Including the latest scholarship in social, cultural, and

political history, the work integrates the history and importance of women and minorities. To aid students in learning and reviewing, each chapter begins with a preview of the main ideas that will be discussed and ends with a conclusion that reinforces the key concepts. Rather than being simply declaratory signposts, section headings highlight main ideas and help carry along the narrative. A glossary

defines main terms, and a timeline helps students keep track of events. Selected readings are also included to encourage further reading and study. Finally, carefully selected illustrations and maps portray, pinpoint, and illuminate important episodes in American history. The most concise and competitively priced book available, America's Promise is a breath of fresh

air in the introductory market.
