Years in the making, this is the true story of writer Peter Calloway's grandfather, Nathaniel Calloway, a Black man who graduated from medical school in the early 1930s. Unable to get work at any Chicago hospital (because he was Black) and unable to secure a loan from a bank to start his own practice (because he

was Black), Nathaniel turned to the only other source of money in Prohibition-era Chicago: the Mafia, run by none other than Al Capone. One of the most profoundly fascinating, startling and significant stories AfterShock has ever published, SHADOW DOCTOR features the artwork of Eisner Award-winner Georges Jeanty (*The American Way*, *X-Tremists*) with a cover illustrated by comics legend Mark Chiarello!

Discusses the history of the final century of the Jewish community of Monastir (now Bitola) in Macedonia, which originated in the Ottoman Empire and ended its days under occupation by Nazi-allied Bulgaria. Ch. 9 (pp. 169-189), "The Holocaust", recounts the

nazification of policies toward the Jews in Bulgarian-occupied Macedonia, where Nuremberg-like laws and ghettoization were introduced, followed by Aryanization of businesses and robbery by taxation. Registration of all Jewish adults in Bulgaria facilitated deportation which, due to protests by prominent Bulgarian non-Jews, was limited to stateless residents of Bulgarian-occupied territories. Almost all of Monastir's Jews were deported to Treblinka, where 3,276 of them were gassed. The small number who escaped deportation were spared as doctors or foreign nationals. Some Jews managed to flee and join partisan groups. Pp. 203-250 contain a list of names (with addresses, ages, and occupations) of the Jews from Monastir who were killed in Treblinka.

Floods are of increasing public concern world-wide due to increasing damages and unacceptably high numbers of injuries. Previous approaches of flood protection led to limited success especially during recent extreme events. Therefore, an integrated flood risk management is required which takes

into consideration both the hydrometeorological and the societal processes. Moreover, real effects of risk mitigation measures have to be critically assessed. The book draws a comprehensive picture of all these aspects and their interrelations. It furthermore provides a lot of detail on earth observation, flood hazard modelling, climate change, flood forecasting, modelling vulnerability, mitigation measures and the various dimensions of management strategies. In addition to local and regional results of science, engineering and social science investigations on modelling and management, transboundary co-operation of large river catchments are of interest. Based on this, the book is a valuable source of the state of the art in

flood risk management but also covers future demands for research and practice in terms of flood issues. *Social Identity, Intergroup Conflict, and Conflict Reduction* Dark Horse Comics Chito and Yuuri have arrived at the highest stratum, but their journey will not be over until they reach the very top of the city.
