Laugh-Out-Loud Awesome Jokes for Kids
Wednesday Books

This is a collection of 150 fun, challenging, and satisfying wordplay riddles! A drastically different yet essential counterpart to my first collection of riddles, "Of Course!", these are easy-to-remember and fun-to-share word riddles that describe some object, thing, or place. Typically they follow a limerick-inspired rhyming structure and sometimes have pretty out-of-the-box answers. This book is filled with the classics that many riddle-loving people will be familiar with, and also filled with many new and original riddles that you can be sure you've never heard before. The difficulty ranges from easy to quite difficult, but never are these riddles so cryptic and "tricky" that you won't be able to figure out the answer with enough thought. Even the simple ones feel good to solve. They are designed to be satisfying, tight, and fulfilling. In case you are unfamiliar with this style of riddle, here are a few classic examples from the "Classic Riddles" section of the book that display the range of wordplay and styles. I don't want to spoil anything so the solution to these riddles can be found in the book! ----- 1) The more I dry, the wetter I get. What am I? 2) Forwards I am heavy, backwards I am not. What am I? 3) The poor have me; the rich need me; and you will die if you eat me. What am I? 4) You can crack me; you can make me; you can tell me; you can play me. What am I? ----- This book should give you many hours of enjoyment and a nice workout for your brain! Enjoy!

"Wild Ideas" looks deep into the forests, skies and oceans to explore how animals solve problems. Whether it's weaving a safe place to rest and reflect, blowing a fine net of bubbles to trap fish, or leaping boldly into a new situation, the animals featured (including the orangutan, humpback whale and gibbon) can teach us a lot about creative problem solving tools and strategies. This book uses lyrical text grounded in current science alongside

wonderfully detailed art to present problems as doorways to creative thinking. "Wild Ideas" encourages an inquiry-based approach to learning, inviting readers to indulge their sense of wonder and curiosity by observing the natural world, engaging with big ideas and asking questions

The Lost Words Capstone

The Lost Words by composer James Burton takes its inspiration and text from the award-winning 'cultural phenomenon' and book of the same name by Robert Macfarlane and Jackie Morris: a book that was, in turn, a creative response to the removal of everyday nature words like acorn, newt and otter from a new edition of a widely used children's dictionary. Both the book and Burton's 32-minute work, which is written in 12 short movements for upper-voice choir in up to 3 voice parts (with either orchestral or piano accompaniment), celebrates each lost word with a beautiful poem or 'spell', magically brought to life in Burton's music. At its heart, the work delivers a powerful message about the need to close the gap between childhood and the natural world. Burton's piece was co-commissioned by the Hallé Concerts Society for the Hallé Children's Choir and the Boston Symphony Orchestra. The piano accompaniment version was premiered at the Tanglewood Festival in 2019 by the Boston Symphony Children's Choir, of which Burton is founder and director. The Hallé Children's Choir will premiere the orchestral version of the full work in Manchester, UK, post-pandemic. Vocal Score Co-commission by Boston Symphony and Hallé Concerts Society for their respective Children's Choirs. Two versions - with orchestral or with piano accompaniment. The vocal score is the same for both versions. James Burton is a composer but also a conductor. He is conductor of the Tanglewood Festival Chorus and choral director of the Boston Symphony. The book *The Lost Words*, exquisitely designed, has won multiple awards and is an international best-seller. The vocal score includes Jackie Morris's beautiful imagery in its cover design.
