Over 1,000 New York-based technology startups are currently hiring. This may come as a surprise to many who thought of New York as the capital of traditional industries such as financial services, media, advertising and fashion, but not necessarily as a high-tech hub. Yet, it is true: over the past several years the level of startup activity in the city of New York has increased at an exponential rate, reaching and surpassing Boston in number of tech companies formed and money invested. It is good news for the Bloomberg administration that has made the creation of a high-tech industry a strategic priority after the financial collapse of 2008. It is also good news for the many investors in the city (both "angels" and venture capitalists) who have seen the number of opportunities created increase at a fast rate. And it is good news for the entrepreneurs who can finally benefit from a working ecosystem and from an influx of capital not seen since the internet bubble of the late '90s. "Tech and the City" is the first book telling the story of how and why this is happening: from the birth of Silicon Alley in the '90s to today's level of activity and important milestones, such as the building of the Cornell NYC Tech campus. Based on over 50 interviews with entrepreneurs, angel investors, venture capitalists, university professors, members of the Bloomberg administration and other stakeholders, this book's objective is to inform and inspire the current generation of entrepreneurs. Fred Wilson, the best known venture capitalists in New York and one of the most important in the US, wrote in his foreword: "I hope this book will be an inspiration to New Yorkers to embrace the technology revolution that has taken hold in our city. I also hope it will be an inspiration to other cities, countries, and cultures who may have missed out on the initial wave of the technology revolution." "Tech and the City" takes us on a historical and geographical tour of New York, while addressing the hot themes for entrepreneurs and investors. It is also a guide to help navigate the NYC community: how to network and become part of the community; what to read to understand and keep informed; where to raise capital; what help is available for any professional, entrepreneur, student, researcher seeking to settle in the city. And this is just the basis for an ongoing conversation, which we hope will continue on our blog, <http://www.tech-and-the-city.com>. The authors, Alessandro Piol and Maria Teresa Cometto, know the story and the industry well. Alessandro has been a New Yorker for 35 years and a venture capitalist for 20, during which he has seen firsthand the evolution of the New York entrepreneurial ecosystem. He has a deep knowledge of the tech industry and a passionate involvement in the NYC community, where he invests in, and mentors, a number of young entrepreneurs. Maria Teresa Cometto is a journalist and award-winning

author based in New York since 2000, covering business and high-tech for the largest Italian daily, *Corriere della Sera*, and for other important publications.

In the tradition of *Kitchen Confidential* and *Waiter Rant*, a rollicking, eye-opening, fantastically indiscreet memoir of a life spent (and misspent) in the hotel industry. "Highly amusing."—New York Times Jacob Tomsy never intended to go into the hotel business. As a new college graduate, armed only with a philosophy degree and a singular lack of career direction, he became a valet parker for a large luxury hotel in New Orleans. Yet, rising fast through the ranks, he ended up working in "hospitality" for more than a decade, doing everything from supervising the housekeeping department to manning the front desk at an upscale Manhattan hotel. He's checked you in, checked you out, separated your white panties from the white bed sheets, parked your car, tasted your room-service meals, cleaned your toilet, denied you a late checkout, given you a wake-up call, eaten M&Ms out of your minibar, laughed at your jokes, and taken your money. In *Heads in Beds* he pulls back the curtain to expose the crazy and compelling reality of a multi-billion-dollar industry we think we know. *Heads in Beds* is a funny, authentic, and irreverent chronicle of the highs and lows of hotel life, told by a keenly observant insider who's seen it all. Prepare to be amused, shocked, and amazed as he spills the unwritten code of the bellhops, the antics that go on in the valet parking garage, the housekeeping department's dirty little secrets—not to mention the shameless activities of the guests, who are rarely on their best behavior. Prepare to be moved, too, by his candor about what it's like to toil in a highly demanding service industry at the luxury level, where people expect to get what they pay for (and often a whole lot more). Employees are poorly paid and frequently abused by coworkers and guests alike, and maintaining a semblance of sanity is a daily challenge. Along his journey Tomsy also reveals the secrets of the industry, offering easy ways to get what you need from your hotel without any hassle. This book (and a timely proffered twenty-dollar bill) will help you score late checkouts and upgrades, get free stuff galore, and make that pay-per-view charge magically disappear. Thanks to him you'll know how to get the very best service from any business that makes its money from putting heads in beds. Or, at the very least, you will keep the bellmen from taking your luggage into the camera-free back office and bashing it against the wall repeatedly.

Building on Fossungu's earlier works, and essentially providing Africa with original, critical, and multi-level analyses of the trio of globalization, democracy, and national determination, this book theorizes that African states have to unite in order to have any impact in the global economy. Using the failure of the Cameroon Goodwill Association of Montreal (CGAM) as a case study, the book urges Africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy (that is, the science of straightforwardness, necessitating the fearless looking at truth straight in the eye). The questions of the book are many but do all boil down to whether or not Africans fear the truth and do not therefore do politics. It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other; but they are incapable of looking their so-called friends in the eye and saying, for example: "Man, I think you've totally gotten it wrong this time." Such comportment defines politickerization or negative competition. While attempting some possible responses to the numerous queries it raises, this book basically proffers the science of Four-Eyesism as a discipline that all African schools need to institute and make a compulsory subject: if the vandalized continent would have to be awakened to its realities. This book is rich in Fossungu's dazzling capacity to invent, define and use a multitude of new terminological constructs informed by African experiences.

Bestselling authors Mindy Starns Clark and Leslie Gould provide an unexpected surprise in *The Amish Seamstress*, Book 4 in the *Women of Lancaster County* series, which tells the stories of young Amish women as they explore their roots, connect with family, and discover true love. Izzy Mueller is an exceptional listener and gifted caregiver. She's also a talented seamstress. As the young woman sits with her elderly patients, she quietly sews as they share their stories. She's content with her life until circumstances reconnect her with someone she once loved. Zed Bayer, a Mennonite, is not what her family is hoping for in a spouse, and his creative interest in filmmaking is definitely at odds with her Amish upbringing. As Izzy is swept up again in Zed and renews her friendship with his sister, Ella, she begins to ask questions about her own life—her creative longings and historical interests, her relationships and desire for romance, and most importantly, her faith. What is the path God has for her? Can she learn from the past of both her family's and Zed's—or must she forge a completely different future of her own?

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. *Salt Sugar Fat* is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). *Salt Sugar Fat* is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

Riki Anne Wilchins has written the book that may take the discussion of gender over the top. *Read My Lips: Sexual Subversion and the Tense of Gender*, a frontal assault on both the status quo in academic studies and the full spectrum of single-issue identity politics, will change the way you think about bodies, sex, and gender. Yours and everyone else's. Combining the theoretical breakthroughs of Judith Butler's *Gender Trouble* and the performance revelations of Kate Bornstein's *Gender Outlaw*, Wilchins -- cofounder of the *Transsexual Menace* -- moves the dialogue to a new level. In a voice that is by turns outraged, outrageous, sad, and hilarious, the author weaves theory and personal experience into a compelling story of self-discovery. She redefines what it means to be "gendered", both by the way she lives and the accessible theoretical narrative she constructs. *Read My Lips*, with its unique mix of theory and application, anecdote and affront, will appeal to feminists, queer academics, activists, transpeople, "the-queer-on-the-street", and the increasing audience of mainstream readers hungry for writing that pushes the absolute edge of the gender envelope. *OUT Magazine* says that the author "has surfaced as the Superhero of this burgeoning (transgender)

movement". Wilchins, herself, signs off on her email as follows: "Just your average straight white guy with a cunt who really digs lezzie chicks like me". Rarely have smarts and chutzpah produced such good effect.
