Read on your PC, Mac, smart phone, tablet or Kindle device. You're about to discover how to... Having a well-formed body with the right amount of body fat takes a lot of hard work and commitment; this is something none can dispute. What we can dispute, however, is the fact that to get that nice toned body you need to spend thousands of hours in the gym 'hitting' weights as if your life depended on it. We live in a world where to make ends meet, the conventional person has to work a 9-5 job-sometimes even multiple jobs-not to mention the many hours we spend in transit or stuck in traffic jams-the average person loses 42 hours a year to traffic jams. As such, making time for the gym may not be feasible. Does this mean that just because you cannot make your way to the gym, you should let the fat accumulate and the

muscles waste away? Definitely NO! While strength training is an ideal way to sculpt your body and you should schedule some consistent gym time into your schedule, if you cannot make it to the gym, there are exercises you can practice to enjoy the benefits of strength training without having to go to the gym. Calisthenics is one such type of exercise. But what are calisthenics and how can you get started on the practice? That is the purpose of this guide: to show you how to use calisthenics to sculpt a beach-worthy body that you are proud of. Here Is A Preview Of What You'll Learn... Imagine watching pounds of fat melt away without ever feeling like you're on a diet. Imagine adding lean muscle to all the right places by doing just a few workouts per week that make you strong. And imagine realizing that your health and fitness goals—even the ones you've all but given up on—are finally within your reach. Muscle for Life will show you how. From the bestselling fitness author of Bigger Leaner Stronger and The Shredded Chef, Muscle for Life reveals a science-based blueprint for eating and exercising that anyone can follow at any age and fitness level. Based on time-proven principles produced by decades of hands-on experience and thousands of hours of scientific research, Muscle for Life will give you a plan for transforming your body faster than you ever thought possible, including:

- Conquering the "mental game" of fitness. Learn to hack your habits, willpower, and mindset so your fitness regimen feels like it's on autopilot.
- Harnessing the science of "flexible dieting." A whole new paradigm for eating that empowers you to forever break free of fad dieting, crash dieting, and yo-yo dieting.
- Unlocking the power of strength training. The "secret" to optimizing your body composition, which is far more important for your health and image than your body weight. Whether you're a beginner looking for a lifestyle change, a lifelong athlete looking to reach the next level, or somewhere in between, Muscle for Life will show you how to look, feel, and perform your best. And frankly, it may be the last fitness book you'll ever need to read.

Fitness expert Adam Zickerman presents a revolutionary exercise program—slow strength training—that will forever change the way Americans work out. Power of 10 seems to contradict nearly everything we're accustomed to hearing about exercise. Forget hours on the treadmill, and forget daily visits to the gym. Power of 10 is based on a remarkably advanced yet simple discovery: By lifting weights in a series of ultra-slow movements that last 10 seconds each, you can stimulate lean muscle formation far more efficiently and safely than regular weight lifting or aerobics. Together with a healthy nutrition plan, Power of 10 is so powerfully effective that as little as one 20-minute workout per week is enough to build muscle, burn fat, and improve cardiovascular health at any age.
