Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates "the infinitesimal, incomplete, imperfect, yet exquisitely human details of life," in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. Dear Data reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their

lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

History shapes those who travel through it Following the unexplained disappearance of her parents, and in a last ditch attempt to save the antique store she has inherited from financial ruin,

Sarah Lester takes on a deceased estate. Amongst the estate is a collection of vintage postcards which lead Sarah on a journey through time. Sarah is unprepared for what these postcards hint at about their reclusive former owner, and soon they complicate her life in unimaginable ways, transporting her to Victorian London, colonial New Zealand and to the British Raj in India. Sarah has to fight her twenty-first century instincts, and a century of emancipation, to survive. Traversing three continents and two centuries, where tiger hunts and ruby necklaces are irrevocably entwined with murders and mysteries, auction houses and antiquities, Sarah is drawn into the enigma that could solve her parents' disappearance, and the question of should she stay or should she go, gets harder and harder to answer, the deeper she delves into the past. Perfect for fans of the Outlander series and lovers of The Time Travelers Wife. What people are saying about Fifteen Postcards: "If history lessons had been this entertaining, I would have scored an A+!" -Andrene Low, author of the Excess Baggage series "This story is one for devotees of adventurous historical fiction and tales of plucky young women finding their feet." -Stephanie Jones, CoastFM Book Reviewer "I think the author has done a commendable job in bringing the story to life and it's obvious that she has used extensive historical research to ensure that the story always feels authentic and that's not an easy feat to pull off." -JaffaReadsToo, Book Blogger "Kirsten McKenzie has written a very unusual novel: part time travel, part historical, and part antique review. Sarah's adventures in other times and other continents, linked together by the postcards and the antiques, are well researched and entertainingly written." -Historical Novel Society What reviewers are saying about Kirsten McKenzie: "McKenzie has done a spectacular job of combining well-researched history with a hint of mysterious intrigue." -Anxious Canadian Blog "Kirsten Mckenzie has written an excellent foray into historical fiction. I'm honestly not quite sure how she was able to keep up with and integrate the different settings, time periods, and characters without losing her place. But she managed it magnificently." -Author Sean Whittaker "McKenzie's descriptions of the shop are well drawn and wonderfully evoke the jumbled chaos of layers of leftovers from centuries of everyday life." -
