The major part of this work is an alphabetically arranged and cross-indexed list of some 20,000 Maryland families with references to the sources and locations of the records in which they appear. In addition, there is a research record guide

arranged by county and type of record, and it identifies all genealogical manuscripts, books, and articles known to exist up to 1940, when this book was first published. Included are church and county courthouse records, deeds, marriages, rent rolls, wills, land records, tombstone inscriptions, censuses, directories, and other data sources.

The Freemason and Masonic Illustrated. A Weekly Record of Progress in Freemasonry

Leaving the City is a visionary book about health and happiness in the 'other' America - the places outside of the intense urban centers like NYC and LA. The urban world is known for its harried pace, mutual alienation and distance from the rhythms of nature and of human nature. He focuses not merely on contagion, pollutants, violence and innumerable other sources - both natural and human - of illness, disability and premature death that one finds in

urban America, but also addresses the inherent unhappiness and threats to mental health that life in the urban world typically brings.
