Tea gowns, bleached damask, and yards of flannel and pillow-case lace, stereoscopes, books of gospel hymns and ballroom gems, the New Improved Singer Sewing Machine, side saddles, anti-freezing well pumps, Windsor Stoves, milk skimmers, straight-edged razors, high-button shoes, woven cane carpet beaters, spittoons, the Studebaker Road Cart, commodes and washstands, the "Fire Fly" single wheel hoe, cultivator, and plow combined, flat irons, and ice cream freezers. What man, woman, or child of the 1890s could resist these offerings of the Montgomery Ward catalogue, the one book that was read avidly, year after year, by millions of Americans on farms and in small towns across the nation? The Montgomery Ward catalogue provides one of the few irrefutably accurate pictures of what life was "really like" in the gay nineties, for it described and illustrated almost anything that anybody could possibly need or want in the way of "store-bought" goods. In

fact, in that pre-department store era, it was usually the only source for such goods. Imagine if Montgomery Ward had issued an illustrated catalogue in the days of Louis XIV, or Elizabeth I, or Charlemagne: what insights would we have into the daily life of the "common folk," the farmers and shopkeeper, housewives and schoolchildren . . . what sources of information for historians and scholars, collectors and dealers, what models for artists and designers. In 1895, Montgomery Ward was the oldest, largest, and most representative mail-order house in the country. The brainchild of a former traveling salesman, it issued its first catalogue in 1872, a one-page listing of items. By 1895, the catalogue, reprinted here, had grown to 624 pages and listed some 25,000 items, almost all of them illustrated with live drawings. Montgomery Ward was by then a multi-million dollar business that profoundly affected the American economy; and since it reached the most isolated farms and backwoods cabins, its effect on American culture was almost as great. Now once again available, it is our truest, most unbiased record of the spirit of the 1890s. An introduction on the history of the Montgomery Ward Company and its catalogue has been prepared especially for this edition by Boris Emmet, Ph.D. (Johns Hopkins), a foremost expert on retail merchandising. His monumental work Catalogues and Counters has long been recognized as a landmark in the study of American economic history.

LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

[Telemachos](#)

There has been a recent resurgence of interest in wood energy as part of a sustainable range of renewable energy options. This book addresses the current gap in the energy and public policy

literature for a reference book that compiles the most-recent wood energy assessments, and evaluates current and potential future wood energy uses and the role for public policy to foster efficient use of the most-widely consumed renewable energy in the world. It brings together a group of expert authors covering topics from forest management, operations and engineering, to socio-economics and energy policy perspectives. It thus covers practical issues such as silviculture, harvesting, processing, comparative cost estimates, public policy tools and market effects. As such the book provides a comprehensive review of the complex dimensions of wood energy as well as practical guidance for professionals, researchers and advanced students. It will also provide invaluable guidance for economic development agencies, practitioners and policy-makers, when evaluating the impacts of wider wood energy adoption as part of a strategy for sustainable energy generation. The main focus is on industrialised production and developed economies, particularly the USA and Europe.

Environmental Control & Safety Management

Provides detailed drawings and patterns, parts lists, construction photographs, and step-by-step instructions for making twenty-two wooden toys

*Popular Mechanics*

Telemachos – son of Odysseus in the classical epic *The Odyssey* by Homer – grew up in Ithaca in ancient Greece with his mother Penelope. Meanwhile, for twenty years, his father fought at Troy and struggled through his famous adventures. Once home, Telemachos helped his father kill the invasive suitors who pillaged the family estate and sought to force the faithful Penelope into an unwanted marriage. In the modern story, the protagonist wandered through the second half of the 20th century on a spiritual journey to search for his soul. Michael Barrent encountered his own version of the Cyclops, Lotus Eaters, Circe, Scylla and Charybdis. He survived childhood, religious indoctrination, education, the Vietnam war, drugs, spiritual gurus and communities, and various unstable sexual relationships. Finally, he exiled the demon-entity belief-system (suitors) which controlled his memory, personality, and essence. Eventually, he found his soul mate and personal calling. The book was also inspired by the fictional journey taken by Leopold Bloom through Dublin, Ireland, on June 16th, 1904. Described in *Ulysses* by James Joyce, Bloom met equivalent Homeric characters, accepted the affair of his estranged wife Molly, and eventually befriended Stephen Dedalus as a substitute son.
