"I'll Get You!" Drugs, Lies, and the Terrorizing of a PTA Mom Business Plus From the author of the critically acclaimed, award-winning bestseller *Ishmael* and its sequel, *My Ishmael*, comes a powerful novel with one of the most profound spiritual testaments of our time "A compelling 'humantale' that will unglue, stun, shock, and rearrange everything you've learned and assume about Western civilization and our future."—Paul Hawken, author of *The Ecology of Commerce* Father Jared Osborne has received an extraordinary assignment

from his superiors: Investigate an itinerant preacher stirring up deep trouble in central Europe. His followers call him B, but his enemies say he's something else: the Antichrist. However, the man Osborne tracks across a landscape of bars, cabarets, and seedy meeting halls is no blasphemous monster—though an earlier era would undoubtedly have rushed him to the burning stake. For B claims to be enunciating a gospel written not on any stone or parchment but in our very genes, opening up a spiritual direction for humanity that would have been unimaginable to any of the prophets or saviors of traditional religion. Pressed by his superiors for a judgement, Osborne is driven to penetrate B's inner circle, where he soon finds himself an anguished collaborator in the dismantling of his own religious foundations. More than a masterful novel of adventure and suspense, *The Story of B* is a rich source of compelling ideas from an author who challenges us to rethink our most cherished beliefs. CB Hoyo: I Didn't Know How to Name This Business Plus

An epic cultural journey that reveals how Venetian ingenuity and inventions—from sunglasses and forks to bonds and currency—shaped modernity. How did a small, isolated city—with a population that never exceeded 100,000, even in its heyday—come to transform western civilization? Acclaimed anthropologist Meredith Small, the author of the groundbreaking *Our Babies, Ourselves* examines the the unique Venetian social structure that was key to their explosion of creativity and invention that ranged from the material to social. Whether it was boats or money, medicine or face cream, opera, semicolons, tiramisu or child-labor laws, these all originated in Venice and have shaped contemporary notions of institutions and conventions ever since. The foundation of how we now think about community, health care, money, consumerism, and

globalization all sprung forth from the Laguna Veneta. But Venice is far from a historic relic or a life-sized museum. It is a living city that still embraces its innovative roots. As climate change effects sea-level rises, Venice is on the front lines of preserving its legacy and cultural history to inspire a new generation of innovators.

Words about masterpieces, on masterpieces: the irreverent pop art of an emerging Cuban painter Since he first burst onto the scene in 2017, the prolific, self-taught Cuban painter CB Hoyo (born 1995) has enjoyed an enormous popularity both online and in the art industry: he has more than 500,000 Instagram followers and has held multiple solo shows throughout the world. Hoyo's work comprises "fakes" of works by canonical artists such as Warhol, Banksy, Matisse and Rothko, which he

paints over with his own irreverent commentary. In one painting, titled *It's a Fake Magritte*, Hoyó depicts Magritte's famous *The Treachery of Images* complete with its well-known pronouncement, "Ceci n'est pas une pipe." Above this, Hoyó has painted in red, "This is not a Magritte." Hoyó's art, relying on blunt humor and Dada-esque irreverence, embraces the new chaotic normality in which we live. This hardcover volume, the artist's first monograph, contains 170 reproductions.

"Brando's Smile returns us to the power of his greatest performances."

—Dan Chiasson, New York Review of Books
When people think about Marlon Brando they think of the movie star, the hunk, the scandals. Here, Susan L. Mizruchi—who gained unprecedented access to Brando's letters, audiotapes, revised screenplays, and books—reveals the complex man whose intelligence belies the high-school dropout. She shows how Brando's embrace of foreign cultures and social

outsiders led to his brilliant performances in unusual roles to test himself and to foster empathy in his audience.

The story begins, as stories do in all good thrillers, with a botched robbery and a police chase. Eight Apuleian vases of the fourth century B.C. are discovered in the swimming pool of a German-based art smuggler. More valuable than the recovery of the vases, however, is the discovery of the smuggler's card index detailing his deals and dealers. It reveals the existence of a web of tombaroli -- tomb raiders - - who steal classical artifacts, and a network of dealers and smugglers who spirit them out of Italy and into the hands of wealthy collectors and museums. Peter Watson, a former investigative journalist for the London Sunday Times and author of two previous exposés of art world scandals, names the key figures in this network that has depleted Europe's classical artifacts. Among the loot

are the irreplaceable and highly collectable vases of Euphronius, the equivalent in their field of the sculpture of Bernini or the painting of Michelangelo. The narrative leads to the doors of some major institutions: Sothebys, the Getty Museum in L.A., the Museum of Fine Arts in Boston, and the Metropolitan Museum of Art in New York among them. Filled with great characters and human drama, *The Medici Conspiracy* authoritatively exposes another shameful round in one of the oldest games in the world: theft, smuggling and duplicitous dealing, all in the name of art.

The Ancestor's Tale W.

W. Norton & Company

In comparison with Literary Studies and Media and Film Studies, the disciplines of Theatre and Performance, with their strong anthropocentric heritage, have been relatively slow in responding to such things as climate change, species extinction, or pollution and toxicity etc. However, in the wake of recent work on animals, cyborgs, and objects, as well as publications with a specific focus on ecology and environment, there are real signs that theatre

and performance scholars are beginning to make their own contribution to the Environmental Humanities. But if theatre critics are engaged in new forms of ecocritical analysis, it is worth posing a pertinent question from the outset: namely, what can theatre do ecologically? In this book, leading researchers and practitioners seek to answer that question from a number of perspectives and with diverse methodologies. Topics include: reflections on rehearsal processes,

scores for performance, site-based interventions, ideas of conflict, investigations of temporality and time ecology, ecospectating, and the experience of disappointment. Taken together, these essays make an important intervention in the emergent (inter)disciplines of the Environmental Humanities and further our understanding of the ecological potential of Theatre and Performance in ways that are cautious, tentative but also

generative. This book was originally published as a special issue of *Green Letters: Studies in Ecocriticism*.
