Another hilarious picture book from actor Max Greenfield, author of *I Don't Want To Read This Book* and *This Book Is Not a Present*, dedicated to introverts of all ages, about the horrors of reading aloud. Nobody in the world actually enjoys reading aloud, do they? Impossible! After all, any number of terrible things could happen: you might come across a word you don't know how to pronounce. Or get distracted by a volcano eruption and lose your place. Even worse, you might accidentally hear the sound of your own voice! Actor Max Greenfield (*New Girl*, *The Neighborhood*) and New York Times bestselling illustrator Mike Lowery, the duo behind *I Don't Want To Read This Book* and *This Book Is Not a Present*, are back with another side-splitting picture book that's sure to have kids shouting for repeat read-alouds.

Strong writing skills are essential for success in school, college, and on the job. In *99 Ways to Get Kids to Love Writing*, educator Mary Leonhardt provides parents with practical, easy-to-follow tips on how to teach their children the fundamentals of writing and make it fun for them at the same time. Here are just a few of her nuggets of advice: , Always be encouraging about your children's writing. , Don't worry about teaching grammar to kids when they are

just beginning to write. Most grammar knowledge is acquired rather than directly learned. , Provide plenty of writing material. , Encourage your preschool children to dictate stories to you. Leonhardt follows up with *10 Easy Ways to Teach Them Grammar*, essential tools for all budding writers.

It's time to change the way we see babies. Drawing on principles developed by the educator Dr Maria Montessori, *The Montessori Baby* shows how to raise your baby from birth to age one with love, respect, insight, and a surprising sense of calm. Cowritten by Simone Davies, author of the bestselling *The Montessori Toddler*, and Junnifa Uzodike, it's a book filled with hundreds of practical ideas for understanding what is actually happening with your baby, and how you can mindfully assist in their learning and development. Including how to: Prepare yourself for parenthood—physically, emotionally, intellectually, and spiritually. Become an active observer to understand what your baby is really telling you. Create Montessori spaces in your home, including “yes” spaces where nothing is off-limits. Set up activities that encourage baby's movement and language development at their own pace. Raise a secure baby who's ready to explore the world with confidence.

THE KEY TO DISCIPLINE IS NOT PUNISHMENT, BUT MUTUAL RESPECT ALL parents try to do their best--but the best

of intentions don't always produce the best results. Dr. Jane Nelsen, an experienced psychologist, educator, and mother, believes that children misbehave when they feel thwarted in their need to belong and in their need for love and attention. An authoritative approach, using phrases like " Because I said so!" , will only lead to rebellious behavior. Instead, parents need basic principles that bring them and their children closer. They need Positive Discipline. Dr. Nelsen explains that parents who use kindness and firmness to teach life skills will encourage self-respect, self-discipline, cooperation, good behavior, and problem-solving skills in their children. In Positive Discipline, revised and updated for the '90s, she shows all of us, parents and teachers alike, exactly how her practical program works--answering, step-by-step, such important questions as: *What works better than punishment to teach children positive, good behavior? *What mistakes do most parents make " in the name of love" ? *How can parents turn their mistakes into assets? *How can praise be dangerous? *What are the dangers of trying to be " Super Mom" ? *How can teachers avoid discipline problems in the classroom? " It is positive! It works! It saves your sanity! And it is easy to share with others." -- Julie Pope, Parent Sacramento, CA " As a parent and psychotherapist, I have found enormous value and practical wisdom in Positive Discipline. It conveys a win/win atmosphere for parents and children. The techniques are so easy to learn and fun to use...Anyone following these concepts will see almost instant results and big smiles on the faces of their children." --Katherine Dusay, Psychotherapist San Francisco, CA

Why Can't I Get My Kids to Behave?

Penguin

The truth is... life is full of trials that threaten to consume us. The little things. The big things. The kid things. The relationship things. Little by little we are consuming ourselves with these "things" and we don't even know it. In fact, we are too busy trying to make it look better (ya know- on social media) and pretending that our lives look like everyone else's to even notice the truth about it all. But our negligence doesn't change the facts. We are consumed. Burned out. Stressed out. Unhealthy. And most of all unhappy. Day after day we get back on the hamster wheel chasing some "perfect life" that we are certain has to be out there. We keep pushing forward, doing more and more, and feeling disappointed that we can't seem to get there. But all of that is about to change. If you are willing to let it, that is. You see, there is a secret to not letting life consume you. There is a way to do it all and have it all. The trouble is, we are just a little confused about the definition of "all." We need to do a little re-defining and a little truth-claiming if we are going to fix this. So what do you say? Are you ready to become #NOTCONSUMED?

"Instead of trusting kids with choices . . . many parents insist on micromanaging everything from homework to friendships. For these parents, Stixrud and Johnson have a simple message: Stop." —NPR "This humane, thoughtful book turns the latest brain science into valuable practical advice for parents." —Paul Tough, New York Times bestselling author of *How Children Succeed* A few years ago, Bill Stixrud and Ned Johnson started noticing the same problem from different angles: Even high-performing kids were coming

to them acutely stressed and lacking motivation. Many complained they had no control over their lives. Some stumbled in high school or hit college and unraveled. Bill is a clinical neuropsychologist who helps kids gripped by anxiety or struggling to learn. Ned is a motivational coach who runs an elite tutoring service. Together they discovered that the best antidote to stress is to give kids more of a sense of control over their lives. But this doesn't mean giving up your authority as a parent. In this groundbreaking book they reveal how you can actively help your child to sculpt a brain that is resilient, and ready to take on new challenges. The Self-Driven Child offers a combination of cutting-edge brain science, the latest discoveries in behavioral therapy, and case studies drawn from the thousands of kids and teens Bill and Ned have helped over the years to teach you how to set your child on the real road to success. As parents, we can only drive our kids so far. At some point, they will have to take the wheel and map out their own path. But there is a lot you can do before then to help them tackle the road ahead with resilience and imagination.

Cure your kids of the entitlement epidemic so they develop happier, more productive attitudes that will carry them into a successful adulthood. Whenever Amy McCready mentions the "entitlement epidemic" to a group of parents, she is inevitably met with eye rolls, nodding heads, and loaded comments about affected children. It seems everywhere one looks, there are preschoolers who only behave in the grocery store for a treat, narcissistic teenagers posting selfies across all

forms of social media, and adult children living off their parents. Parenting expert McCready reveals in this book that the solution is to help kids develop healthy attitudes in life. By setting up limits with consequences and training them in responsible behavior and decision making, parents can rid their homes of the entitlement epidemic and raise confident, resilient, and successful children. Whether parents are starting from scratch with a young toddler or navigating the teen years, they will find in this book proven strategies to effectively quell entitled attitudes in their children.

It's positive, a lot of fun, and written for young minds aged 8 - 12. Written by Michelle Mitchell with the help of medical experts and illustrated by Steph Cooper.

How to Get Kids to Do What You Want
Rowman & Littlefield

Can you teach a child to be kind? This vital question is taking on a new urgency as our culture grows ever more abrasive and divided. We all want our kids to be kind. But that is not the same as knowing what to do when you catch your son being unkind. A world-renowned developmental psychologist, Dr. Thomas Lickona has led the character education movement in schools for forty years. Now he shares with parents the vital tools they need to bring peace and

foster cooperation at home. Kindness doesn't stand on its own. It needs a supporting cast of other essential virtues—like courage, self-control, respect, and gratitude. With concrete examples drawn from the many families Dr. Lickona has worked with over the years and clear tips you can act on tonight, *How to Raise Kind Kids* will help you give and get respect, hold family meetings to tackle persistent problems, discipline in a way that builds character, and improve the dynamic of your relationship with your children while putting them on the path to a happier and more fulfilling life.

How to Parent Your Anxious Toddler

Workman Publishing Company

What is 'solution-focused' parenting, and how can it help you get your kids to do what you want? In other words, why should you read this book? The purpose of this book is simply to help you become more powerful and influential in the life of your child. Sound appealing? The approach is designed to help you focus your time and energy on teaching your kids what you want them to learn. In addition to helping you conserve and best utilize your time and energy, the solution-focused approach is also designed to minimize your child's resistance to hearing and learning from what you have to say. This book isn't about a miracle cure or magic potion that will turn your kids into little beings that hang on your every word, and live to do your bidding. It is simply a model for interacting with them in a way that: - Keeps you from getting caught in a power struggle that puts you at odds with children -Shows you how to tap into your children's internal motivation to hear what you have to say as valuable - Reinforces the values and qualities that you want them to have as adults This

book goes a long way to establishing the sort of relationship where children actually hear what their parents are saying, and even look to them for help and guidance!

Want to get kids to say "Yes" ... instead of begging, negotiating, and pleading? Turn discipline and frustration into instant cooperation. Kids love to say "yes" when they hear their own color-coded language. What color personality are your children? Quickly identify their color personality and then talk to them using the words they understand. Instant communication that works. Instead of our words bouncing off their foreheads and scattering to the floor, we can use secret words that help them listen and understand. We don't have to be a psychologist, psychic, or super-parent. We just have to meet kids "where they are." Once we see the world the way they do, communicating is easy. No more stress, arguing, and frustration. Now that is a win-win! It is up to us to meet our kids where they are. After all, they are just learning about their world. We can do this and have great fun while we get our kids to say "Yes" ... instead of "No." Make talking to kids an awesome experience. Order your copy now!

500 Things to Do with Your Children Before They Grow Up

A hands-on, application-based introduction to machine learning and artificial intelligence (AI) that guides young readers through creating compelling AI-powered games and applications using the Scratch programming language. Machine

learning (also known as ML) is one of the building blocks of AI, or artificial intelligence. AI is based on the idea that computers can learn on their own, with your help. Machine Learning for Kids will introduce you to machine learning, painlessly. With this book and its free, Scratch-based, award-winning companion website, you'll see how easy it is to add machine learning to your own projects. You don't even need to know how to code! As you work through the book you'll discover how machine learning systems can be taught to recognize text, images, numbers, and sounds, and how to train your models to improve their accuracy. You'll turn your models into fun computer games and apps, and see what happens when they get confused by bad data. You'll build 13 projects step-by-step from the ground up, including:

- Rock, Paper, Scissors game that recognizes your hand shapes
- An app that recommends movies based on other movies that you like
- A computer character that reacts to insults and compliments
- An interactive virtual assistant (like Siri or Alexa) that obeys commands
- An AI version of Pac-Man, with a smart character that knows how to avoid ghosts

NOTE: This book includes a Scratch tutorial for beginners, and step-by-step instructions for every project. Ages 12+

A Guy's Guide to Puberty Harper Collins

Why does your toddler get upset when his or her routine is disrupted? Why do they follow you from room to room and refuse to play on their own? Why are daily routines such as mealtimes, bath time, and bed time such a struggle? This accessible guide demystifies the difficult behaviors of anxious toddlers, offering tried-and-tested practical solutions to common parenting dilemmas. Each

chapter begins with a real life example, clearly illustrating the behavior from the parent's and the toddler's perspective. Once the toddler's anxious behavior has been demystified and explained, new and effective parenting approaches are introduced to help parents tackle everyday difficulties and build up their child's resilience, independence, and coping mechanisms. Common difficulties with bath time, toileting, sleep, eating, transitions, social anxiety, separation anxiety, and sensory issues are solved, along with specific fears and phobias, and more extreme behaviors such as skin picking and hair pulling. A must-read for all parents of anxious toddlers, as well as for the professionals involved in supporting them.

Announcing that rare parenting book that will not only help you become a

more effective parent but actually change how you see your children. Written by Montessori educator Simone Davies, this book shows you how to bring the educational values of a Montessori classroom into your home—while turning the whole idea of the “terrible twos” on its head. Here is how to set up Montessori-friendly spaces in your home. Principles for fostering curiosity in your child—and in yourself. Specific Montessori skills—the winter coat flip; getting your toddler to pour his or her own water and clean up whatever spills might occur. And it goes much deeper, showing how a parent can really be present, be the child’s guide, and handle tantrums and problematic behavior without resorting to bribes, threats, or punishment and truly celebrate every stage. It’s also that rare parenting book that’s beautiful to look at, with a bright, airy design and simple color illustrations and photographs.
