Challenge and inspire your teenage learners to think beyond language. Think is a vibrant course designed to engage teenage learners and make them think. As well as building students' language skills, it offers a holistic approach to learning: developing their thinking skills, encouraging them to reflect on values and building their self-confidence. Topics are chosen to appeal to and challenge teenagers, firing their imagination and ensuring effective learning. Exam-style exercises and tips help students prepare for Cambridge English Key, Preliminary, First and Advanced. Informed by the Cambridge English Corpus, the course reflects real language usage and 'Get it right' sections help students avoid common mistakes.

### 1865 TO THE PRESENT A UNITED STATES HISTORY FOR HIGH SCHOOLS

Princeton Review

How the search for power defines the American presidential office. All American presidents, past and present, have cared deeply about power—acquiring, protecting, and expanding it. While individual presidents obviously have other concerns, such as shaping policy or building a legacy, the primacy of power considerations—exacerbated by expectations of the presidency and the inadequacy of explicit powers in the Constitution—sets presidents apart from other political actors. Thinking about the Presidency explores presidents' preoccupation with power. Distinguished presidential scholar William Howell looks at the key aspects of executive power—political and constitutional origins, philosophical underpinnings, manifestations in contemporary political life, implications for political reform, and looming influences over the standards to which we hold those individuals elected to America's highest office. Howell shows that an appetite for power may not inform the original motivations of those who seek to become president. Rather, this need is built into the office of the presidency itself—and quickly takes hold of whoever bears the title of Chief Executive. In order to understand the modern

presidency, and the degrees to which a president succeeds or fails, the acquisition, protection, and expansion of power in a president's political life must be recognized—in policy tools and legislative strategies, the posture taken before the American public, and the disregard shown to those who would counsel modesty and deference within the White House. Thinking about the Presidency assesses how the search for and defense of presidential powers informs nearly every decision made by the leader of the nation. In a new preface, Howell reflects on presidential power during the presidency of Barack Obama.

5 GEd Practice Tests Cambridge University Press  
PDF eBook Reading Level 10.0-11.0 Ignite the interest of your reluctant reader and rekindle the enthusiasm of your accomplished one with these high-interest reading comprehension eBooks with STUDENT ACTIVITY LESSONS. Each book includes 10 original, exciting and informative short stories that cover a broad range of topics such as Tales of Adventure, Science, Biographies, Tales of Fantasy, and Interpersonal Relationships. Multi-cultural and non-sexist guidelines have been observed to provide reading material for a wide population. New vocabulary is defined and used in context. Pronunciation entries are provided. Students learn how to preview and survey through a preview question by focusing on key sentences and/or paragraphs designed to teach essential skills. Each lesson illustration is intended to add interest to the story and to assist the reader in understanding the selections, plot, and character development. Each of the 27 eBooks; Is divided into 10 short stories; Was written using McGraw-Hill's Core Vocabulary; Has been measured by the Fry Readability Formula; Includes 100 comprehension questions that test for main idea, critical thinking, inference, recalling details and sequencing; Has 60 vocabulary exercises in modified Cloze format; contains complete answer keys for comprehension and vocabulary exercises and Includes illustrations.

Contains 100 easy-to-use practice vocabulary tests with a clear marking system on each page so that progress can be easily checked. It can be used on its own, for self-study or in the

classroom, or to reinforce the vocabulary covered in English Vocabulary in Use Upper-intermediate Third edition, available separately. CEF: B2.

### Introduction to Probability IGI Global

Who controls American immigration policy? The biggest immigration controversies of the last decade have all involved policies produced by the President policies such as President Obama's decision to protect Dreamers from deportation and President Trump's proclamation banning immigrants from several majority-Muslim nations. While critics of these policies have been separated by a vast ideological chasm, their broadsides have embodied the same widely shared belief: that Congress, not the President, ought to dictate who may come to the United States and who will be forced to leave. This belief is a myth. In The President and Immigration Law, Adam B. Cox and Cristina M. Rodríguez chronicle the untold story of how, over the course of two centuries, the President became our immigration policymaker-in-chief. Diving deep into the history of American immigration policy from founding-era disputes over deporting sympathizers with France to contemporary debates about asylum-seekers at the Southern border they show how migration crises, real or imagined, have empowered presidents. Far more importantly, they also uncover how the Executive's ordinary power to decide when to enforce the law, and against whom, has become an extraordinarily powerful vehicle for making immigration policy. This pathbreaking account helps us understand how the United States has come to run an enormous shadow immigration system—one in which nearly half of all noncitizens in the country are living in violation of the law. It also provides a blueprint for reform, one that accepts rather than laments the role the President plays in shaping the national community, while also outlining strategies to curb the abuse of law enforcement authority in immigration and beyond.

### 180 Days: Spelling and Word Study for Sixth Grade

Vintage

Provide students in grades 3-5 with a clear understanding of government and politics while teaching the voting process and democracy concepts. Teachers will appreciate the flexibility of the

lessons, activities, and interactive opportunities that integrate key literacy skills and overall knowledge of the election process through engaging activities that include analyzing and evaluating primary sources, participating in a mock election and debates, evaluating the electoral college, making connections between paired fiction and nonfiction texts, and solving engaging mazes and puzzles. Encourage civic discourse with this essential social studies resource!

**Machiavelli in Contemporary Media** EDCON Publishing Group  
" Winner of the 2003 Ray and Pat Browne Book Award, given by the Popular Culture Association The contributors to Hollywood's White House examine the historical accuracy of these presidential depictions, illuminate their influence, and uncover how they reflect the concerns of their times and the social and political visions of the filmmakers. The volume, which includes a comprehensive filmography and a bibliography, is ideal for historians and film enthusiasts.

**The President and Immigration Law** Cambridge University Press

Building Vocabulary from Word Roots provides a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Over 90% of English words of two or more syllables are of Greek or Latin origin. Instead of learning words and definitions in isolation, students learn key roots and strategies for deciphering words and their meanings across all content areas. Building Vocabulary from Word Roots: Level 9 kit includes: Teacher's Guide; Student Guided Practice Book (Each kit includes a single copy; additional copies may be ordered in quantities of 10 or more); Assessments to support data-driven instruction; and Digital resources including modeled lessons, 50 bonus activities, and more.

Understanding Elections Levels 3-5 CRC Press

Developed from celebrated Harvard statistics lectures, Introduction to Probability provides essential language and tools for understanding statistics, randomness, and uncertainty. The book explores a wide variety of applications and examples, ranging from coincidences and paradoxes to Google PageRank and Markov chain Monte Carlo (MCMC). Additional application areas explored include genetics, medicine, computer science, and information theory. The print book version includes a code that provides free access to an eBook version. The authors present the

material in an accessible style and motivate concepts using real-world examples. Throughout, they use stories to uncover connections between the fundamental distributions in statistics and conditioning to reduce complicated problems to manageable pieces. The book includes many intuitive explanations, diagrams, and practice problems. Each chapter ends with a section showing how to perform relevant simulations and calculations in R, a free statistical software environment.

*Haunting Legacy* Princeton University Press

Modern presidents regularly appeal over the heads of Congress to the people at large to generate support for public policies. The Rhetorical Presidency makes the case that this development, born at the outset of the twentieth century, is the product of conscious political choices that fundamentally transformed the presidency and the meaning of American governance. Now with a new foreword by Russell Muirhead and a new afterword by the author, this landmark work probes political pathologies and analyzes the dilemmas of presidential statecraft. Extending a tradition of American political writing that begins with *The Federalist* and continues with Woodrow Wilson's *Congressional Government*, *The Rhetorical Presidency* remains a pivotal work in its field.

*Spectrum Language Arts, Grade 8* Teacher Created Materials

How should we govern? and What should government do? Professors Edwards, Wattenberg, and Lineberry evaluate how well the American system lives up to citizens' expectations of democratic government and discuss alternative views concerning the proper scope of American government. In doing so they help students answer the critical question, "What difference does politics make?"

Thinking About the Presidency Princeton University Press

"Learn About the United States" is intended to help permanent residents gain a deeper understanding of U.S. history and government as they prepare to become citizens. The product presents 96 short lessons, based on the sample questions from which the civics portion of the naturalization test is drawn. An audio CD that allows students to listen to the questions, answers, and civics lessons read aloud is also included. For immigrants preparing to naturalize, the chance to learn more about the

history and government of the United States will make their journey toward citizenship a more meaningful one.

*Women and Social Reform in Modern India* Brookings Institution Press

Adaptive hypermedia listening software enables materials writers to combine and deliver a wide range of digital elements on the same digital computer platform more efficiently. Such a combination and delivery provides a multidimensional, multi-sensory digital environment in which rich, efficient, instant, comprehensible, optimum, and meaningful input and feedback can be presented effectively and efficiently. Moreover, language learners' attention can be drawn to forms and meanings in input. Such aspects correspond with different theories and hypotheses of language learning and teaching. This presents users/learners with an environment that is easy to use, tension-free, and optimal during self-study. However, to be able to design and develop cost effective and professional adaptive hypermedia listening software, there are certain scientific educational findings and implications that need to be implemented at every single stage. To have access to such vital findings is not so easy, and research must address this area. Design Solutions for Adaptive Hypermedia Listening Software explores how to design and create technically and pedagogically sound and efficient interactive adaptive hypermedia listening software for language learners in any language. The chapters will cover learner strategy tools, the effectiveness of this technology, best practices in adaptive hypermedia listening software, and the benefits and challenges of this technology for language learning. It is ideal for companies, institutions, teachers, policymakers, academicians, researchers, advanced-level students, technology developers, and decision-making pertinent government officials interested in designing and developing multimedia listening environments for language learners.

**Think Level 4 Student's Book** McGraw Hill Professional  
Providing complete practice exams as well as accompanying answer explanations, a guide for prospective GED test-takers is complemented by strategies from test-preparation experts. Original.

Solution to Social Science Success Book for class 8 Oxford University Press

Has the imperial presidency returned? "Well written and, while

indispensable for college courses, should appeal beyond academic audiences to anyone interested in how well we govern ourselves. . . . I cannot help regarding it as a grand sequel for my own *The Imperial Presidency*." ---Arthur Schlesinger, Jr. Has the imperial presidency returned? This question has been on the minds of many contemporary political observers, as recent American administrations have aimed to consolidate power. In *The New Imperial Presidency*, Andrew Rudalevige suggests that the congressional framework meant to advise and constrain presidential conduct since Watergate has slowly eroded. Rudalevige describes the evolution of executive power in our separated system of governance. He discusses the abuse of power that prompted what he calls the "resurgence regime" against the imperial presidency and inquires as to how and why--- over the three decades that followed Watergate---presidents have regained their standing. Chief executives have always sought to interpret constitutional powers broadly. The ambitious president can choose from an array of strategies for pushing against congressional authority; finding scant resistance, he will attempt to expand executive control. Rudalevige's important and timely work reminds us that the freedoms secured by our system of checks and balances do not proceed automatically but depend on the exertions of public servants and the citizens they serve. His story confirms the importance of the "living Constitution," a tradition of historical experiences overlaying the text of the Constitution itself.

Examines the president's leadership of public opinion, analyzes the factors influencing public approval of the president, and discusses the relationship between the president and the press  
**They Called Us Enemy - Expanded Edition** Longman Publishing Group

The New York Times bestselling graphic memoir from actor/author/activist George Takei returns in a deluxe edition with 16 pages of bonus material! Experience the forces that shaped an American icon -- and America itself -- in this gripping tale of courage, country, loyalty, and love. George Takei has captured hearts and minds worldwide with his magnetic performances, sharp wit, and outspoken commitment to equal rights. But long before he braved new frontiers in STAR TREK, he woke up as a four-year-old boy to find his own birth country at war with his father's -- and their entire family forced from their home into an uncertain future. In 1942, at the order of President Franklin D. Roosevelt, every person of Japanese descent on the west coast was rounded up and shipped to one of ten "relocation centers," hundreds or thousands of miles from home, where they would be held for years under armed guard. THEY CALLED US ENEMY is Takei's firsthand account of those years behind barbed wire, the terrors and small joys of childhood in the shadow of legalized racism, his mother's hard choices, his father's tested faith in democracy, and the way those experiences planted the seeds for his astonishing future. What does it mean to be American? Who gets to decide? George Takei joins cowriters Justin Eisinger & Steven Scott and artist Harmony Becker for the journey of a lifetime.
