THE NATIONAL

BESTSELLER Love him or loathe him, Ned Kelly has been at the heart of Australian culture and

identity since he and his gang were tracked down in bushland by the Victorian police and came out fighting, dressed in bulletproof iron armour made from farmers' ploughs. Historians still disagree over virtually every aspect of the eldest Kelly boy's brushes with the law. Did he or did he not shoot Constable Fitzpatrick at their family home? Was he a lawless thug or a noble Robin Hood, a remorseless killer or a crusader against oppression and discrimination? Was he

even a political revolutionary, an Australian republican channelling the spirit of Eureka? Peter FitzSimons, bestselling chronicler of many of the great defining moments and people of this nation's history, is the perfect person to tell this most iconic of all Australian stories. From Kelly's early days in Beveridge, Victoria, in the mid-1800s, to the Felons' Apprehension Act, which made it possible for anyone to shoot the Kelly gang, to Ned's

appearance in his now-famous armour, prompting the shocked and bewildered police to exclaim 'He is the devil!' and 'He is the bunyip!', FitzSimons brings the history of Ned Kelly and his gang exuberantly to life, weighing in on all of the myths, legends and controversies generated by this compelling and divisive Irish-Australian rebel. No one knows why dragons have appeared in this world of heroes, but their very presence is re-shaping reality. Their influence destroys everything, transforming men and beasts into monsters: a curse known as the Veill. Only virgin women are free of this curse and can get close

enough to these terrors to kill them. And so, the Order of the Dragon Knights was created. Trained from childhood, they fight against all odds, including a world that refuses to accept them as women of power - the very same society they swore to protect. They fight to the death - because if they don't, their entire world is doomed. *Collecting: Tales of the Dragon Guard #1-3 Myths, Memories and Futures* Riverhead Books Discusses the nature, origins, and development

L' illustration BoD - Books on Demand Bold, headstrong, and fabulously wealthy, Dutch traveller Alexine Tinne (1834-1869) made several excursions into the African interior, often accompanied by her mother, at a time when very few European women traveled. The *Fateful Journey* follows her trip with German zoologist Theodor von Heuglin, which took them through Egypt and Sudan in search of adventure and unknown regions in Central Africa.. Drawing

upon four years of research in the Tinne archives, and including never before published correspondence, photographs, and other documents, Robert Joost Willink presents a compelling account of their journey and its tragic ending. This exciting volume not only sheds light on Tinne's life and times, it also offers captivating insights into the world of European adventurers in the 19th century. An enthralling mix of adventure and careful scholarship, The

Fateful Journey creates a powerful portrait of Alexine Tinne throughout her life, from her start as a rich heiress in the Netherlands to her end as the intrepid explorer who risked—and lost—everything on a daring, doomed quest. *Jacobite Memoirs of the Rebellion of 1745* Xlibris Corporation Over the course of more than three centuries of Romanov rule in Russia, foreign visitors and residents produced a vast corpus of literature conveying their

experiences and impressions of the country. The product of years of painstaking research by one of the world's foremost authorities on Anglo-Russian relations, *In the Lands of the Romanovs* is the realization of a major bibliographical project that records the details of over 1200 English-language accounts of the Russian Empire. Ranging chronologically from the accession of Mikhail Fedorovich in 1613 to the abdication of Nicholas II in 1917, this is the most

comprehensive bibliography of first-hand accounts of Russia ever to be published. Far more than an inventory of accounts by travellers and tourists, Anthony Cross's ambitious and wide-ranging work includes personal records of residence in or visits to Russia by writers ranging from diplomats to merchants, physicians to clergymen, gardeners to governesses, as well as by participants in the French invasion of 1812 and in the Crimean War of 1854-56. Providing full

bibliographical details and concise but informative annotation for each entry, this substantial bibliography will be an invaluable tool for anyone with an interest in contacts between Russia and the West during the centuries of Romanov rule.

Petroleum Geoscience is a comprehensive introduction to the application of geology and geophysics to the search for and production of oil

and gas. Uniquely, this book is structured to reflect the sequential and cyclical processes of exploration, appraisal, development and production. Chapters dedicated to each of these aspects are further illustrated by case histories drawn from the authors' experiences. Petroleum Geoscience has a global and 'geo-temporal' backdrop, drawing examples and case histories from around the world and from petroleum systems ranging in age from late-

Pre-Cambrian to Pliocene. In order to show how geoscience is integrated at all levels within the industry, the authors stress throughout the links between geology and geophysics on the one hand, and drilling, reservoir engineering, petrophysics, petroleum engineering, facilities design, and health, safety and the environment on the other. Petroleum Geoscience is designed as a practical guide, with the basic theory augmented by case studies from a wide spread of

geographical locations. Covers all the key aspects of the origin of petroleum, exploration, and production. It takes account of the modern emphasis on the efficient utilisation of reserves, on new methods in exploration (such as 3-D seismics). Book takes 'value-chain' approach to Petroleum Geoscience. First new text on petroleum geology for geology undergraduates to be published in the last ten years. Packed full of real-life case studies from Petroleum industry.

 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a

cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other

senses—smell, touch, and sound—be aroused when we see a product?

Buyology is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.
