*The Obscurity of
Scripture: Disputing Sola
Scriptura and the
Protestant Notion of
Biblical Perspicuity* BRILL
Turn on Christian radio
anywhere in the United
States and see how long it

takes before someone declares that “Scripture clearly teaches [fill in the blank].” There’s a reason for that, and it has to do with the very origins of Protestant Christianity more than five hundred years ago. The Protestant Reformation coalesced around five core doctrines: sola scriptura, sola fide, sola gratia, solus Christus, and soli Deo

gloria. But another founding principle served as bedrock for all of them: the doctrine of clarity, or perspicuity. According to this doctrine, which was upheld in various forms by all the major Reformers and remains central to Protestantism today, the Bible is clear enough so that any Christian, relying on the Holy Spirit, will be able to

determine at least what is necessary for salvation, if not much more. The *Obscurity of Scripture: Disputing Sola Scriptura and the Protestant Notion of Biblical Perspicuity* catalogues and analyzes the historical, theological, and philosophical dimensions of perspicuity and finds the doctrine not only confused but erroneous, destructive, and self-defeating. The *Obscurity of Scripture* exposes the hopeless dead ends of clarity and, through a consideration of Catholic teaching on the

Bible, offers the only way out.

Paul, the Law, and the Jewish People Vintage

This work takes up two related questions with regard to Jesus: his intention and his relationship to his contemporaries in Judaism. These questions immediately lead to two others: the reason for his death (did his intention involve an opposition to Judaism which led to death?) and the motivating force behind the rise of Christianity (did the split between the

Christian movement and Judaism originate in opposition during Jesus' lifetime?).

Christ Among the Messiahs Wm. B.

Eerdmans Publishing

This five-views work brings together an all-star lineup of Pauline scholars to offer a constructive, interdenominational, up-to-date conversation on key issues of Pauline theology. The editors begin with an informative recent history of biblical tradition related to the perspectives on Paul. John M. G. Barclay, A. Andrew

Das, James D. G. Dunn, Brant Pitre, and Magnus Zetterholm then discuss how to interpret Paul's writings and theology, especially the apostle's view of salvation. The book concludes with an assessment of the perspectives from a pastoral point of view by Dennis Edwards.

Jesus and Judaism Wipf and Stock Publishers
Paula Fredriksen, renowned historian and author of *From Christ to Jesus*, begins this inquiry into the historic Jesus with a fact that may be the

only undisputed thing we know about him: his crucifixion. Rome reserved this means of execution particularly for political insurrectionists; and the Roman charge posted at the head of the cross indicted Jesus for claiming to be King of the Jews. To reconstruct the Jesus who provoked this punishment, Fredriksen takes us into the religious worlds, Jewish and pagan, of Mediterranean antiquity, through the labyrinth of Galilean and Judean politics, and on into the ancient narratives

of Paul's letters, the gospels, the Dead Sea Scrolls, and Josephus' histories. The result is a profound contribution both to our understanding of the social and religious contexts within which Jesus of Nazareth moved, and to our appreciation of the mission and message that ended in the proclamation of Jesus as Messiah.

Paul: A Very Short Introduction SCM Press
He then traces the rise and fall of "the messianic idea" in Jewish studies and gives an alternative

account of early Jewish messiah language: the convention worked because there existed both an accessible pool of linguistic resources and a community of competent language users. Whereas it is commonly objected that the normal rules for understanding "christos" do not apply in the case of Paul since he uses the word as a name rather than a title, Novenson shows that "christos" in Paul is neither a name nor a title but rather a Greek honorific, like Epiphanes or Augustus. Focusing on

several set phrases that have been taken as evidence that Paul either did or did not use "christos" in its conventional sense, Novenson concludes that the question cannot be settled at the level of formal grammar. Examining nine passages in which Paul comments on how he means the word "christos", Novenson shows that they do all that we normally expect any text to do to count as a messiah text. Paul Barnes & Noble Publishing

Investigates whether differences between the OG translation and the Hebrew/Aramaic parent text of Daniel 7—12 are due to intentional theological Tendenz, as has been predominantly proposed in the past, or to errors or the unintentional cross-linguistic mechanics of translation, or to a combination of these reasons. Jeanson's investigation proceeds in five stages.

Jesus, Paul, and the Law Baker Books

In every generation, the study of Paul evolves with

new insights and questions. This enigmatic ancient figure continues to ignite interesting conversations and vigorous debates. Complementing the successful *The State of New Testament Studies*, this book surveys the current landscape of Pauline studies, offering readers a concise guide to contemporary discussions in Pauline scholarship. It brings together a diverse team of leading scholars, providing up-to-date, expert analysis on important issues in

Pauline studies, such as Christology, salvation, the Spirit, gender, and empire. In addition, each of the Pauline letters is examined in detail. This book will serve as an ideal supplemental textbook for Paul courses. Contributors include Ben Blackwell, Dennis Edwards, Timothy Gombis, John Goodrich, Nijay K. Gupta, Erin Heim, Chris Hoklotubbe, Joshua Jipp, Scot McKnight, Peter Oakes, B. J. Oropeza, Angela Parker, Kris Song, Jennifer Strawbridge, Sydney Tooth, Cynthia Long Westfall, and Kent

Yinger. *The State of Pauline Studies* Wm. B. Eerdmans Publishing
The author presents new arguments which support the view that Paul, not Jesus, was the founder of Christianity. He argues that Jesus and also his immediate disciples James and Peter were life-long adherents of Pharisaic Judaism. Paul, however, was not, as he claimed, a native-born Jew of Pharisee upbringing, but came in fact from a Gentile background. He maintains that it was Paul

alone who created a new religion by his vision of Jesus as a Divine Saviour who died to save humanity. This concept, which went far beyond the messianic claims of Jesus, was an amalgamation of ideas derived from Hellenistic religion, especially from Gnosticism and the mystery cults. Paul played a devious and adventurous political game with Jesus' followers of the so-called Jerusalem Church, who eventually disowned him. The conclusions of this

historical and psychological study will come as a shock to many readers, but it is nevertheless a book which cannot be ignored by anyone concerned with the foundations of our culture and society. -- Book jacket.

The Letter to the Ephesians Oxford University Press, USA
 Many introductions to the New Testament focus on historical-critical issues with only cursory discussions of the text. In *Engaging the New Testament*, Miguel

Echevarría overviews the New Testament writings in their canonical order, showing how each book has a purposeful function within the larger context of Scripture. He provides streamlined and accessible background discussions related to the New Testament writings to enable students to focus on interpretive issues. The book is informed by the latest scholarship yet accessible to those with no prior theological education. This concise introduction to the New Testament is

well-suited to one-semester survey courses. It addresses the needs and questions of students in multicultural classrooms who are studying for ministry. Sidebars encourage readers to think about applying the Bible to various ministry contexts, such as the pastorate, missions, and counseling.

Esther in Ancient Jewish Thought

Philadelphia : Fortress Press

World-renowned scholar Michael Gorman examines the important Pauline

theme of participation in Christ and explores its contemporary significance for Christian life and ministry. One of the themes Gorman explores is what he calls "resurrectional cruciformity"--that participating in Christ is simultaneously dying and rising with him and that cross-shaped living, infused with the life of the resurrected Lord, is life giving. Throughout the book, Gorman demonstrates the centrality of participating in Christ for Paul's

theology and spirituality. Paul, a New Covenant Jew Yale University Press In this thoroughly revised and updated edition of a classic reference work, topics like Christology, justification, and hermeneutics receive careful treatment by trusted specialists. New topics like politics, patronage, and different cultural perspectives expand the volume's breadth and usefulness for scholars, pastors, and students today. The Mythmaker Paul and Palestinian Judaism

After the landmark work of E. P. Sanders, the task of rightly accounting for Paul's relationship to Judaism has dominated the last forty years of Pauline scholarship. Pitre, Barber, and Kincaid argue that Paul is best viewed as a new covenant Jew, a designation that allows the apostle to be fully Jewish, yet in a manner centered on the person and work of Jesus the Messiah. This new covenant Judaism provides the key that unlocks the door to many of the difficult aspects of

Pauline theology. Paul, a New Covenant Jew is a rigorous, yet accessible overview of Pauline theology intended for ecumenical audiences. In particular, it aims to be the most useful and up to date text on Paul for Catholic Seminarians. The book engages the best recent scholarship on Paul from both Protestant and Catholic interpreters and serves as a launching point for ongoing Protestant-Catholic dialogue.

Paul Westminster John Knox Press

E. P. Sanders offers an expansive introduction to the apostle, navigating some of the thorniest issues in scholarship using language accessible to the novice and seasoned scholar alike. Always careful to distinguish what we can know historically from what we may only conjecture, and these from dogmatically driven misrepresentations, Sanders sketches a fresh picture of the apostle as an ardent defender of his own convictions, ever ready to craft the sorts of arguments that now fill

his letters. E. P. Sanders has for many years been one of the leading scholars of Paul's life and work. His book is a key text for scholars and students alike.

Paul and Palestinian Judaism Cambridge University Press

Some of the most heated contests around the apostle Paul today concern the effort to understand him wholly "within Judaism," and the effort to interpret him over against the culture and ideology of the early Roman Empire. Here, Neil

Elliott argues that these two conversations belong together and must be resolved together, by understanding Paul as a Jew living out Israel's ancient hopes under the pressures of Roman imperial power.

Engaging the New Testament Fortress Press
Ranks the Apostle Paul as "one of the most powerful and seminal minds of the first or any century," and argues that we can now sketch with confidence a new and more nuanced picture of Paul and the radical way in which his

encounter with Jesus redefined his life, his mission and his expectations for a world made new in Christ.

Reprint.

Baker Books

This book situates the book of Esther in the intellectual history of Ancient Judaism and provides a new understanding of its purpose.

Paul and Palestinian Judaism Penguin UK

In this now-classic work, E. P. Sanders argues against prevailing views regarding the Judaism of

the Second Temple period, for example, that the Pharisees dominated Jewish Palestine or that the Mishnah offers a description of general practice. In contrast, Sanders carefully shows that what was important was the "common Judaism" of the people with their observances of regular practices and the beliefs that informed them. Sanders discusses early rabbinic legal material not as rules, but as debates within the context of real life. He sets Pharisees,

Sadducees, and Essenes in relation to the Judaism of ordinary priests and people. Here then is a remarkably comprehensive presentation of Judaism as a functioning religion: the temple and its routine and festivals; questions of purity, sacrifices, tithes, and taxes; common theology and hopes for the future; and descriptions of the various parties and groups culminating in an examination of the question "who ran what?" Sanders offers a detailed,

clear, and well-argued account of all aspects of Jewish religion of the time.

Paul and the Power of Grace Yale University Press

John Barclay explores Pauline theology anew from the perspective of grace. Arguing that Paul's theology of grace is best approached in light of ancient notions of "gift," Barclay describes Paul's relationship to Judaism in a fresh way. Barclay focuses on divine gift-giving, which for Paul, he says, is focused and fulfilled in the gift of

Christ. He both offers a new appraisal of Paul's theology of the Christ-event as gift as it comes to expression in Galatians and Romans and presents a nuanced and detailed consideration of the history of reception of Paul, including Augustine, Luther, Calvin, and Barth.

Judaism Fortress Press
This book is devoted both to the problem of Paul's view of the law as a whole, and to his thought about and relation to his fellow Jews. Building upon his previous study, the critically acclaimed Paul

and Palestinian Judaism, E.P. Sanders explores Paul's Jewishness by concentrating on his overall relationship to Jewish tradition and thought. Sanders addresses such topics as Paul's use of scripture, the degree to which he was a practicing Jew during his career as apostle to the Gentiles, and his thoughts about his "kin by race" who did not accept Jesus as the messiah. In short, Paul's thoughts about the law and his own people are re-examined with new awareness and great

care. Sanders addresses an important chapter in the history of the emergence of Christianity. Paul's role in that development -- specially in light of Galatians and Romans -- is now re-evaluated in a major way. This book is in fact a significant contribution to the study of the emergent normative self-definition in Judaism and Christianity during the first centuries of the common era.
40 Questions About the Apostle Paul OUP USA
Paul the Apostle has

traditionally been viewed as a thinker and theologian, and scholars have focused almost exclusively on his ideas rather than on his religious experience. In this book, a leading New Testament scholar challenges this view of Paul. John Ashton demonstrates how closely Paul's own career resembles that of a typical shaman, and he shows how every important aspect of Paul's

life and ministry may be illuminated by focusing on his experience. Drawing not only on Paul's letters but also on contemporary writings in the Jewish and Hellenistic worlds, Ashton discusses a number of important issues relevant to the understanding of Paul and to the origins of Christianity: whether Paul is properly described as a convert, a mystic, an apostle, a prophet, or a charismatic; what his attitude was to the Jewish

traditions he inherited; why he felt called upon to preach, not to his fellow Jews, but to the Gentiles; what accounts for the remarkable success of his strange new Gospel; and how we can explain his language of spirit-possession ("Christ lives in me"). In addressing these issues, Ashton demonstrates that to regard Christianity simply as a religion of the word is to ignore a vital truth about its origins.
