Se il mondo ti crolla

addosso B Jain

Publishers Pvt Limited

A dieci anni dalla prima edizione, Se il mondo ti crolla addosso torna in una versione completamente aggiornata, con nuovi suggerimenti e strategie per resistere agli urti della vita: un modo appagante di vivere la realtà, un insegnamento per gestire il dolore. Quando il mondo ci crolla addosso può farlo in modi molto diversi. A volte accade con una tale violenza che sembra annientarci: è il caso della morte di una persona amata, di una malattia grave, un incidente inaspettato, la perdita del lavoro... Altre volte, invece, la realtà ci colpisce in modo meno devastante ma altrettanto diretto, come quando ci sentiamo sopraffatti

dall'invidia verso qualcuno che ha quello che desidereremmo avere, dalla solitudine nei momenti in cui misuriamo la distanza fra noi e gli altri, dal risentimento tutte le volte che ci sentiamo trattati ingiustamente, dalla frustrazione per aver fallito un traguardo... Ma in qualsiasi modo avvenga, una cosa è certa: fa male! E spesso non si è preparati a gestire il dolore, soprattutto se imprevisto. Imparare a resistere agli urti della vita. Se il mondo ti crolla addosso, scritto dall'autore del bestseller La trappola della felicità, adotta un approccio basato sulla mindfulness e scientificamente dimostrato: l'ACT (Acceptance and Commitment Therapy);

leggendolo imparerete a resistere agli urti della vita trovando un modo appagante di vivere la realtà anche quando fra questa e i vostri desideri esiste uno scarto difficile da colmare. Utilizzando i principi dell'ACT scoprirete come trovare la pace in mezzo alla sofferenza, conquistare la calma nonostante il caos, orientarvi nelle tempeste emotive, aumentare il senso di connessione con voi stessi e con gli altri, utilizzare le vostre emozioni dolorose.

Futura è incinta per la seconda volta e a Patrick sembra che il loro mondo sia perfetto, ma una notizia dal passato potrebbe scombinare tutto. Patrick infatti viene contattato da una sua ex, Arlene, che gli confessa di avere una figlia quasi adolescente, che potrebbe essere sua. Lui però, appreso ciò, non ha il coraggio di rivelarlo alla moglie. Inoltre anche una seconda notizia è destinata a portare dolore. Futura e Patrick sono da anni gli amici di penna di Luis,

incarcerato in Alabama per un omicidio commesso quindici anni prima sotto l'effetto di stupefacenti e condannato a morte. Ora l'iter processuale è terminato e l'esecuzione è stata fissata proprio nel giorno in cui per la gravidanza di Futura è previsto il termine. Solo Mac, che è un amico di Patrick e Futura, ma anche un personaggio pubblico, potrebbe avere qualche chance per ottenere la grazia per Luis, ma prima dovrebbe mettere da parte i propri pregiudizi.

Cancer is one of the leading killers in the world and the incidence is increasing, but most cancer

patients and cancer survivors suffer much from the disease and its conventional treatments' side effects. In the past, clinical data showed that some complementary and alternative medicine (CAM) possessed anticancer abilities, but some clinicians and scientists have queried about the scientific validity of CAM due to the lack of scientific evidence. There is great demand in the knowledge gap to explore the scientific and evidence-based knowledge of CAM in the anticancer field. With this aim, a book series is needed to structurally deliver the knowledge to readers. There have been a number of publications on materia medica for various cancers in

I due famosi autori sono riusciti a creare un testo pratico, istruttivo e divertente: attraverso una serie di immagini accattivanti, presentando 50 tra i più importanti rimedi Omeopatici - rendendoli addirittura "Indimenticabili". Il volume vuole, in maniera divertente, essere uno strumento per comprendere e utilizzare velocemente i principi basilari dell'omeopatia e per non dimenticarli facilmente (OLTRE 50 RIMEDI OMEOPATICI) Questo, grazie soprattutto alle

vignette (OLTRE 669), che proprio per il loro acume e la loro perspicacia, si imprinono facilmente nella mente. • Viene sottolineato il collegamento tra il principio della sostanza - che si tratti di piante, minerali, animali o nosodi - e i sintomi omeopatici (o “tipi costituzionali omeopatici”) evitando, volutamente, i particolari di Botanica o Zoologia, più che altro perché seguendo questi percorsi spesso si perde il nesso omeopatico, che è quello che interessa di più, e con esso le possibilità dell’utilizzo pratico. •Le Numerose illustrazioni chiariscono i sintomi, i segni caratteriali o psicologici dei vari soggetti omeopatici. La rêverie – fantasticheria, immaginazione, abbandono al flusso del sogno a occhi aperti – è uno stato della coscienza che tutti conosciamo. Gaston Bachelard, figura emblematica dell'epistemologia francese, la definisce come la materia prima dell'opera letteraria. In questo testo, evocativo e magico, si propone di riesaminare in una nuova prospettiva le immagini poetiche fedelmente amate. Oltre a evidenziare il valore conoscitivo della rêverie, mette in luce il godimento che se ne può trarre. Facendo riferimento ai concetti junghiani di animus e

anima, Bachelard affronta il tema dell'idealizzazione dell'essere amato. Dedica un capitolo ai ricordi d'infanzia e approfondisce la distinzione tra sogno notturno e rêverie diurna. Conclude

sostenendo: «Di quale altra libertà psicologica godiamo oltre a quella di fantasticare? Psicologicamente parlando, è proprio nelle rêveries che siamo degli esseri liberi».
