The Rainbow Goblins

Barbour Publishing
Merging scholarly research and biographical narrative, *She Calls Herself Betsey Stockton* reveals the true life of a freed and highly educated slave in the Antebellum North. Betsey Stockton's odyssey began in 1798 in Princeton, New Jersey, as "Bet," the child of a slave mother, who captured the heart of her owner and surrogate father Ashbel Green, President of Princeton University. Advanced lessons at Princeton Theological Seminary matched her with lifelong friends Rev. Charles S. Stewart and his pregnant bride Harriet, as the three endured an 158-day voyage as Presbyterian missionaries to the Sandwich Islands in 1823. Armchair sailors will savor Stockton's own pre-Moby Dick whaleship journal of her time at sea, a shipboard birth, and life at Lahaina, Maui, where Stockton is celebrated as founding the first school for non-royal Hawaiians. Back on US soil, Stockton became surrogate mother to the Stewarts' three

children, sailed with missionaries on the Barge Canal to the Ojibwa Mission School, and later returned to her hometown, establishing a church and four schools which are the centers of a still-vibrant African American Historic District of Witherspoon-Jackson. **Rats Saw God** New York Review of Books NATIONAL BESTSELLER • A modern classic of true crime, set in a most beguiling Southern city—now in a 30th anniversary edition with a new afterword by the author "Elegant and wicked . . . might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime."—The New York Times Book Review Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. In this sharply observed, suspenseful, and witty narrative, John Berendt skillfully interweaves a hugely entertaining first-

person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young people dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Brilliantly conceived and masterfully written, *Midnight in the Garden of Good and Evil* is a sublime and seductive reading

experience.

The Juniper Tree Simon and Schuster

Nominated for the Nebula Award Magic meets Bridgerton in the Regency fantasy everyone is talking about... Beatrice Clayborn is a sorceress who practices magic in secret, terrified of the day she will be locked into a marital collar to cut off her powers. She dreams of becoming a full-fledged mage, but her family are in severe debt, and only her marriage can save them. Beatrice finds a grimoire with the key to becoming a mage, but a rival sorceress swindles the book right out of her hands. Beatrice summons a spirit to help, but her new ally exacts a price: Beatrice's first kiss . . . with the sorceress's brother: the handsome, compassionate, and fabulously wealthy lanthe Lavan. From the World Fantasy Award-winning author of *Witchmark* comes a sweeping, romantic new fantasy set in a world reminiscent of Regency England, where women's magic is taken from them when they

marry. A sorceress must balance her desire to become the first great female magician against her duty to her family.

More than 200 recipes and 45 full-color photographs celebrate 25 years of good eatin' in this original regional Southern cooking classic. A quarter-century ago, while many were busy embracing the sophisticated techniques and wholesome ingredients of the nouvelle cuisine, one Southern loyalist lovingly gathered more than 200 recipes—collected from West Virginia to Key West—showcasing the time-honored cooking and hospitality traditions of the white trash way. Ernie Mickler's much-imitated sugarsnap-pea prose style accompanies delicacies like Tutti's Fancy Fruited Porkettes, Mock-Cooter Stew, and Oven-Baked Possum; stalwart sides like Bette's Sister-in-Law's Deep-Fried Eggplant and Cracklin' Corn Pone; waste-not leftover fare like Four-Can Deep Tuna Pie and Day-Old Fried Catfish; and desserts with a heavy dash of Dixie, like Irma Lee Stratton's Don't-Miss Chocolate Dump

Cake and Charlotte's Mother's Apple Charlotte. *She Calls Herself Betsey Stockton* Whitney Museum of American Art David Austin's first collection of poetry is the tale of *The Breathing Earth*: not a metaphor, but a living entity, an ecosystem that is the root of every story. Often drawing on his own life experiences in these personal tales, here is the philosophical, meditative poetry at the heart of the English tradition. David Austin is the author of a number of books in his capacity as the most distinguished breeder of roses and founder of the UK's largest and most prestigious rose-grower, but in *The Breathing Earth* we find a book unlike any of his other work: the account of a career and a life spent in contemplation of the natural world and human behaviour.

 "This little book is big fun."—Michael Pollan An illustrated mini-encyclopedia of fungal lore, from John Cage and Terence McKenna to mushroom sex and fairy rings Fungipedia presents a delightful A-Z treasury of mushroom lore. With more than 180 entries—on topics as varied as Alice in Wonderland, chestnut blight, medicinal mushrooms, poisonings, Santa Claus, and waxy caps—this collection will transport both general readers and specialists into the remarkable universe of fungi. Combining ecological, ethnographic, historical, and contemporary knowledge, author and mycologist Lawrence Millman discusses how mushrooms are much more closely related to humans than to plants, how they engage in sex, how insects farm them, and how certain species happily dine on leftover radiation, cockroach antennae, and dung. He explores the lives of individuals like African American scientist George Washington Carver, who specialized in crop diseases caused by fungi; Beatrix Potter, creator of

Peter Rabbit, who was prevented from becoming a professional mycologist because she was a woman; and Gordon Wasson, a J. P. Morgan vice-president who almost single-handedly introduced the world to magic mushrooms. Millman considers why fungi are among the most significant organisms on our planet and how they are currently being affected by destructive human behavior, including climate change. With charming drawings by artist and illustrator Amy Jean Porter, Fungipedia offers a treasure trove of scientific and cultural information. The world of mushrooms lies right at your door—be amazed!

"A brilliant, witty, and altogether satisfying book." — New York Times Book Review The classic work on the development of human language by the world's leading expert on language and the mind In *The Language Instinct*, the world's expert on language and mind lucidly

explains everything you always wanted to know about language: how it works, how children learn it, how it changes, how the brain computes it, and how it evolved. With deft use of examples of humor and wordplay, Steven Pinker weaves our vast knowledge of language into a compelling story: language is a human instinct, wired into our brains by evolution. *The Language Instinct* received the William James Book Prize from the American Psychological Association and the Public Interest Award from the Linguistics Society of America. This edition includes an update on advances in the science of language since *The Language Instinct* was first published.

The long forgotten story of Turkish psychedelic music in the twentieth century, told in relation to

the social, political and cultural climate of the time. In the mid-1960s, a new generation of young Turkish musicians combined Western pop music with traditional Anatolian folk to forge the home-grown phenomenon of Anadolu Pop. But that was just the beginning. Through the second half of that turbulent decade, Turkish rock warped and transformed, striking out into wilder and stranger territory – fuelled by the psychedelic revolution and played out over a backdrop of cultural, social and political turmoil. The Turkish Psychedelic Music Explosion tells the story of a musical movement that was brought to an end by a right-wing coup in 1980, largely forgotten and only recently being rediscovered by Western crate-diggers. It's a tale of larger-than-life musical pioneers with raging political passions and visionary ideas ripe for rediscovery.

The Language Instinct
New York Review of Books Theatre in London has celebrated a rich and influential history, and in 1976 the first volume of J. P. Wearing's reference series provided researchers with an indispensable resource of

these productions. In the decades since the original calendars were produced, several research aids have become available, notably various reference works and the digitization of important newspapers and relevant periodicals. The second edition of *The London Stage 1940-1949: A Calendar of Productions, Performers, and Personnel* provides a chronological calendar of London shows from January 1940 through December 1949. The volume chronicles more than 2,400 productions at 53 major central London theatres during this period. For each production the following information is provided: Title Author Theatre Performers Personnel Opening and Closing Dates Number of Performances Other details include genre of the production, number of acts, and a list of reviews. A comment section includes other interesting information, such as plot description, first-night reception by the audience, noteworthy performances, staging elements, and details of performances in New York either prior to or after the London production. Among the plays staged in London during this decade were *The Light of*

Heart, *Mr. Bolfray*, *Perchance to Dream*, *Pacific 1860*, *Bless the Bride*, *The Lady's Not for Burning*, *The Late Edwina Black*, *Outrageous Fortune*, *Seagulls over Sorrento*, and *Buoyant Billions*, as well as numerous musical comedies (British and American), foreign works, operas, ballets, and revivals of English classics. A definitive resource, this edition revises, corrects, and expands the original calendar. In addition, approximately 20 percent of the material—in particular, information of adaptations and translations, plot sources, and comment information—is new. Arranged chronologically, the shows are fully indexed by title, genre, and theatre. A general index includes numerous subject entries on such topics as acting, audiences, censorship, costumes, managers, performers, prompters, staging, and ticket prices. *The London Stage 1940-1949* will be of value to scholars, theatrical personnel, librarians, writers, journalists, and historians. *The Smallest Elephant in the World* Hachette UK After seven goblins try to

Chris Dancy, the world's most connected person, inspires readers with practical advice to live a happier and healthier life using technology In 2002, Chris Dancy was overweight, unemployed, and addicted to technology. He chain-smoked cigarettes, popped pills, and was angry and depressed. But when he discovered that his mother kept a record of almost every detail of his childhood, an idea began to form. Could

knowing the status of every aspect of his body and how his lifestyle affected his health help him learn to take care of himself? By harnessing the story of his life, could he learn to harness his own bad habits? With a little tech know-how combined with a healthy dose of reality, every app, sensor, and data point in Dancy's life was turned upside down and examined. Now he's sharing what he knows. That knowledge includes the fact that changing the color of his credit card helps him to use it less often, and that nostalgia is a trigger for gratitude for him. A modern-day story of rebirth and redemption, Chris' wisdom and insight will show readers how to improve their lives by paying attention to the relationship between how we move, what we eat, who we spend time with, and how it all makes us feel. But Chris has done all the hard work: *Don't Unplug* shows us how we too can transform our lives.
