Invisible organisms called microbes are everywhere: in soil, oceans, and snow; in the food we eat and the air we breathe - even inside our bodies. But in Antony van Leeuwenhoek's time, people believed that what they could see with their own eyes was all that existed in the world. Using microscopes of his own design, Antony discovered a living world no one had seen before. How did the simple tradesman - who didn't go to college or speak English or Latin, like all the other scientists - change everyone's minds? Proving that remarkable discoveries can come from the most

unexpected people and places, this eye-opening chapter book, illustrated with lively full-color art, celebrates the power of curiosity, ingenuity, and persistence. --

An inspirational and insightful guide for women who want to get it all by doing less. For women, a glass ceiling at work is not the only barrier to success - it's also the increasingly heavy obligations at home that weigh them down. Women have become

accustomed to delegating, advocating and negotiating for themselves at the office, but when it comes to managing households, they still bear the brunt on their own shoulders. A simple solution is staring them in the face: negotiate with the men in their personal lives. In *Drop The Ball*, Tiffany Dufu explains how women can create all-in domestic partnerships that protect them against professional burn-out.

*Drop the Rock—The Ripple Effect* provides multiple perspectives from people successfully working a Twelve Step Program, showing Step 10 as a key to a sober life free of fear and resentment and filled with serenity and gratitude. When *Drop the Rock: Removing Character Defects* was first published in 1999, it quickly became the standard resource for working Steps 6 and 7, two of the most challenging of the Twelve Steps for many people in recovery. Learning what it means to fully surrender character defects frees you to make amends with Steps 8 and 9, realize the Big Book's "Promises," and move on to Step 10. In this new follow-up resource, Fred H. explores what he calls "the ripple effect" that can be created by using Step 10 to practice Steps 6 and 7 every day and avoid picking up "the rock" again. Drawing on his years of lecturing on the Big Book of Alcoholics Anonymous and Twelve Steps and Twelve Traditions, he reveals Step 10 as the natural culmination of working the previous Steps.

#### Drop that Knowledge Simon and Schuster

A bold and original retelling of the story of race in America Why has a nation founded upon precepts of freedom and universal humanity continually produced, through its preoccupation with race, a divided and constrained populace? This question is the starting point for Scott Malcomson's riveting and deeply researched account, which amplifies history with memoir and reportage. From the beginning, Malcomson shows, a nation obsessed with invention began to create a new idea of race, investing it with unprecedented moral and social meaning. A succession of visionaries and opportunists, self-promoters and would-be reformers carried on the process, helping to define "black," "white," and "Indian" in opposition to one another, and in service to the aspirations and anxieties of each era. But the people who had to live within those definitions found them constraining. They sought to escape the limits of race imposed by

escaping from other races or by controlling, confining, eliminating, or absorbing them, in a sad, absurd parade of events. Such efforts have never truly succeeded, yet their legacy haunts us, as we unhappily re-enact the drama of separatism in our schools, workplaces, and communities. By not only recounting the shared American tragicomedy of race but helping us to own, even to embrace it, this important book offers us a way at last to move beyond it.

From Ross Mathews, the nationally bestselling author of *Man Up!*, judge on *RuPaul's Drag Race*, and alum of *Chelsea Lately*, comes "a delightful mix of sweet and sour celebrity experiences" (*Shelf Awareness*) in this hilarious and irreverent collection of essays. Pretend it's happy hour and you and I are sitting at the bar. I look amazing and, I agree with you, much thinner in person. You look good, too. Maybe it's the candlelight, maybe it's the booze. Either way, let's just go with it. Keep this all between you and me, and do me a favor? Don't judge me if I name drop just a little. Television personality Ross Mathews likes telling stories. He was always outrageous and hilariously honest, even when the biggest celebrity he knew was his favorite lunch lady in the school cafeteria. Now that he has Hollywood experience—from interning behind the scenes at *The Tonight Show* with Jay Leno to judging *RuPaul's Drag Race*—he has a lot to talk about. In *Name Drop*, Ross dishes about being an unlikely insider in the alternate reality that is showbiz, like that time he was invited by Barbara Walters to host *The View*—only to learn his hero did not suffer fools; his Christmas with the Kardashians, which should be its own holiday special; and his news-making talk with Omarosa on *Celebrity Big*

Brother, which, as it turns out, was just the tip of the iceberg. Holding nothing back, Ross shares the most treasured and surprising moments in his celebrity-filled career, and proves that while exposure may have made him a little bit famous, he is still as much a fanboy as ever. Filled with “charmingly told” (Booklist) tales ranging from the horrifying to the hilarious—and with just the right “Rossipes” and cocktails to go along with them—Name Drop is every pop culture lover’s dream come true.

Fans of classic frontier survival stories, as well as readers of dystopian literature, will enjoy this futuristic story where water is worth more than gold. New York Times bestselling author Michael Grant says Not a Drop to Drink is a debut "not to be missed." With evocative, spare language and incredible drama, danger, and romance, Mindy McGinnis depicts one girl's journey in a frontierlike world not so different from our own. Teenage Lynn has been taught to defend her pond against every threat: drought, a snowless winter, coyotes, and most important, people looking for a drink. She makes sure anyone who comes near the pond leaves thirsty—or doesn't leave at all. Confident in her own abilities, Lynn has no use for the world beyond the nearby fields

and forest. But when strangers appear, the mysterious footprints by the pond, nighttime threats, and gunshots make it all too clear Lynn has exactly what they want, and they won't stop until they get it. . . . For more in this gritty world, join Lynn on an epic journey to find home in the companion novel, In a Handful of Dust.

This vividly rendered Civil War history presents "a lively guided tour of Washington during the 24 hours or so around Lincoln's swearing-in" (Adam Goodheart, Washington Post). By March 4, 1865, the Civil War had left intractable wounds on the nation. Tens of thousands crowded Washington's Capitol grounds that day to see Abraham Lincoln take the oath for a second term—and witness what was perhaps the greatest inaugural address in American history. Lincoln stunned the nation by arguing that both sides had been wrong, and that the war's unimaginable horrors might have been God's just verdict on the national sin of slavery. In *Every Drop of Blood*, Edward Achorn reveals the nation's capital on that momentous day—with its mud, sewage, and saloons, its prostitutes, spies, reporters, social-climbing spouses and power-hungry politicians. Swirling around the complex figure of Lincoln, a host of characters are brought to life, from

grievously wounded Union colonel Selden Connor to the embarrassingly drunk new vice president, Andrew Johnson, to poet-journalist Walt Whitman; from soldiers' advocate Clara Barton and African American leader Frederick Douglass to conflicted actor John Wilkes Booth. In indelible scenes, Achorn captures the frenzy and division in the nation's capital at this crucial moment in America's history. His story offers new understanding of our great national crisis, and echoes down the decades to resonate in our own time.

Challenges narrow perceptions of Blackness as both an identity and lived reality to understand the diversity of what it means to be Black in the US and around the world What exactly is Blackness and what does it mean to be Black? Is Blackness a matter of biology or consciousness? Who determines who is Black and who is not? Who's Black, who's not, and who cares? In the United States, a Black person has come to be defined as any person with any known Black ancestry. Statutorily referred to as "the rule of hypodescent," this definition of Blackness is more popularly known as the "one-drop rule," meaning that a person

with any trace of Black ancestry, however small or (in)visible, cannot be considered White. A method of social order that began almost immediately after the arrival of enslaved Africans in America, by 1910 it was the law in almost all southern states. At a time when the one-drop rule functioned to protect and preserve White racial purity, Blackness was both a matter of biology and the law. One was either Black or White. Period. Has the social and political landscape changed one hundred years later? One Drop explores the extent to which historical definitions of race continue to shape contemporary racial identities and lived experiences of racial difference. Featuring the perspectives of 60 contributors representing 25 countries and combining candid narratives with striking portraiture, this book provides living testimony to the diversity of Blackness. Although contributors use varying terms to self-identify, they all see themselves as part of the larger racial, cultural, and social group generally referred to as Black. They have all had their identity called into question simply because they do not fit neatly into the stereotypical "Black box"—dark skin, "kinky" hair, broad nose, full lips, etc. Most have been asked "What are you?" or the more politically correct "Where are you from?" throughout their lives. It is through contributors' lived experiences with and lived imaginings of Black identity that we can visualize multiple possibilities for Blackness. *Drop* Atlantic Monthly Press
