This is the first Q&A-based revision book specifically aimed at candidates sitting the viva component of the FRCS(Plast) examination. It provides a selection of common clinical scenarios presented in a realistic way and presents a guide to answering the FRCS (Plast) questions, as well as advice on how to approach the revision process itself. Crucially, this will help to prepare candidates to organise their thoughts, demonstrate higher order thinking and present a robust answer in the face of grey areas and controversies. The text covers all topics from the syllabus including Trauma, Burns, Facial and Soft Tissue Injuries, Acute Head and Neck Tumours, Cleft and Craniofacial, Congenital anomalies, Facial Palsy, Vascular anomalies, Trunk & Perineal, Skin Cancer, Basic Sciences, Aesthetic, Ethics & Medico-legal, and Consent. Candidates using this book will be able to realistically recreate the exam scenario either in private or in a group setting. This book is equally useful for candidates sitting plastic surgery post graduate exams with equivalent syllabuses to that of the FRCS(Plast) such as the EBOPRAS exam, as well as others. In addition, it also makes an excellent companion for trainees throughout the course of their six-year training rotation, allowing more junior plastic surgery trainees the opportunity to become acquainted with the format and content of the FRCS (Plast) exam. Lastly it may be helpful to consultants who are interested in coaching their trainees in topics other than their subspecialty.

Praxis II Test Review for the Praxis II: Subject Assessments McGraw Hill Professional
OSAT English Practice Questions are the simplest way to prepare for your CEOE test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our OSAT English Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. A unique resource for passing the rigorous American Board of Plastic Surgery oral board exam. Passing the plastic surgery board examinations necessitates meeting extremely demanding criteria. Certification from the ABPS is the gold standard - a significant milestone requiring intensive study, passing the written exam, and the highly challenging two-day oral board component. Acing the plastic surgery boards means a plastic surgeon has already demonstrated a high level of training and education, essential elements for achieving optimal results and patient satisfaction. Plastic Surgery Oral Board Prep: Case Management Questions and Answers by Devra Becker restructures core plastic surgery knowledge into the conceptual framework needed for mastery of the plastic surgery oral board exam. It fills a gap in the literature, exploring levels of knowledge such as analysis, synthesis, and evaluation, as well as practical applications including fluid management, intraoperative and postoperative challenges, and ethical considerations. Questions and answers on key reconstructive, aesthetic, and elective procedures are encompassed throughout 22 chapters, enabling readers to synthesize knowledge and articulate it efficiently and effectively. Key Highlights Nearly 400 Q&A mirror the type and sequencing of questions on the oral board exam Reconstruction topics include skin cancer, facial defects and trauma, back and trunk, traumatic hand injuries, lower extremity wounds, cleft lip and palate, and craniosynostosis syndromes Aesthetic and elective surgery chapters cover the aging face, breast, body and trunk, and hand Current recommendations for management of coexisting medical conditions such as thromboembolism prophylaxis and perioperative management of cardiac disease This is an invaluable board study resource for plastic surgery residents and surgeons preparing for the oral board exam. Its comprehensive core curriculum content will also benefit clinicians prepping for in-service exams.

In this book, leading international experts showcase the latest advances in research into Dupuytren disease and its clinical management. The coverage spans all relevant specialties, including cell biology, biomechanics, genomics, surgery, pharmacotherapy, and radiotherapy. The opening sections address epidemiology, cellular and extracellular events, and genetics. Treatment by means of collagenase injection, percutaneous needle fasciotomy, and other surgical and minimally invasive approaches is then extensively discussed. Comparative studies of different approaches are reviewed, and aspects of patient assessment, examined. The prevention and treatment of disease recurrences are also addressed. Further sections consider related conditions, other treatment options, and future pathways for research. This book should be read by all who treat or conduct research into Dupuytren disease. It is based on presentations delivered at the 2015 International Conference on Dupuytren Disease, held in Groningen, the Netherlands, which was designed to promote a coordinated global response to the disease involving patients, scientists, and clinicians.
