A Brookings Institution Press and Governance Institute publication As we approach the 30th anniversary of Earth Day (the first of its kind was April 1970), congressional debate about environmental protection often remains paralyzed and polarized. But across the country, environmental pragmatism is gaining ground. *The Morning after Earth Day* explores how policymakers, business executives, and citizen groups are fighting novel political battles and sometimes making peace with surprising compromises. After a generation of progress in reducing large sources of industrial and municipal pollution and in improving management of public lands, today's environmental conflicts are more complex. They involve controlling pollution caused by farmers, small businesses, drivers of aging cars, and homeowners, as well as minimizing ecological threats on private land. Remedies often lie in politically treacherous territory--persuading ordinary people to change their daily routines rather

than ordering big business to adopt new technology or government officials to manage land differently. As Mary Graham shows, practical approaches are resolving immediate disputes and providing clues for future policy. But core dilemmas remain. They include how to reconcile environmental protection with respect for private property, how to balance federal and state authority, and how much to rely on behavioral versus technological change. Only by reclaiming the debate about these dilemmas from extremists and confronting them head-on will the nation build a solid foundation for the next generation of environmental policy.

Little changes can make a big, big difference! In *The Little Book of Big Change*, psychologist Amy Johnson shows you how to rewire your brain and overcome your bad habits—once and for all. No matter what your bad habit is, you have the power to change it. Drawing on a powerful combination of neuroscience and spirituality, this book will show you that you are not your habits. Rather, your habits and addictions are the result of simple brain wiring that is easily reversed. By learning to stop bad habits at the source, you will take charge of your habits and addictions for good. Anything done repeatedly has the potential to form neural circuitry in the brain. In this light, habits and addictions are impersonal brain wiring problems that result from taking your habitual thinking as truth, and acting on that thinking in the form of doing your habit—over and over. This book offers a number of small changes you can make in your everyday life that will help you stop your bad habit in its tracks. If you want to understand the science behind your habit, make the decision to end it, and commit to real, lasting change, this book will help you to finally take charge of your life—once and for all.

100 new and classic images of popular Instagram celebrity Jimmy Choo the Bull Terrier On Rafael Mantesso's thirtieth birthday, his wife left him. She took their cookware, their furniture, their photos, their decorations. She left Rafael alone in an empty all-white apartment. The only thing she didn't take was their bull terrier, whom she'd named after her favorite shoe designer: Jimmy Choo. With only Jimmy for company, Rafael found inspiration in his blank walls and his best friend and started snapping photos of Jimmy Choo as he trotted and cavorted around the house in glee. Then, when Jimmy collapsed in happy exhaustion next to the white wall, on a whim Rafael grabbed a marker and drew a new world around his ginger-eared pup. Suddenly, Rafael felt his long-dormant inspiration—for drawing, for art, for life—returning. The result? Hundreds of charming and cheeky images chronicling the owner and dog's relationship and adventures, including poses in a Star Wars stormtrooper helmet, passed out with liquor bottles, and as the shark in *Jaws*. Mantesso's Instagram feed quickly garnered fans from all over the world and caught the attention of major media outlets like *Today*, *The Huffington Post*, *USA Today*, and *the Daily Mail*, as well as Jimmy's namesake, the luxury shoe brand Jimmy Choo Ltd. Now, Mantesso presents a definitive selection of new and classic images of Jimmy and includes the backstory of how the two became such great collaborators. As heartwarming as it is

hilarious, *A Dog Named Jimmy* will delight animal lovers everywhere.

NEW YORK TIMES BESTSELLER • In this thoughtful and revealing memoir, readers will accompany one of the world's most recognizable women on her journey of self-discovery. "I have always felt that life is a solitary journey, that we are each on a train, riding through our hours, our days, our years. We get on alone, we leave alone, and the decisions we make as we travel on the train are our responsibility alone." A remarkable life story rooted in two different worlds, *Unfinished* offers insights into Priyanka Chopra Jonas's childhood in India; her formative teenage years in the United States; and her return to India, where against all odds as a newcomer to the pageant world, she won the national and international beauty competitions that launched her global acting career. Whether reflecting on her nomadic early years or the challenges she has faced as she has doggedly pursued her calling, Priyanka shares her challenges and triumphs with warmth and honesty. The result is a book that is philosophical, sassy, inspiring, bold, and rebellious. Just like the author herself. From her dual-continent twenty-year-long career as an actor and producer to her work as a UNICEF Goodwill Ambassador, from losing her beloved father to cancer to marrying Nick Jonas, Priyanka Chopra Jonas's story will inspire a generation around the world to gather their courage, embrace their ambition, and commit to the hard work of following their dreams.

The 1950s were simple times to grow up. For Lewis Grizzard and his buddies, gallivanting meant hanging out at the local store, eating Zagnut candy bars and drinking "Big Orange bellywashers." About the worst thing a kid ever did was smoke rabbit tobacco rolled in paper torn from a brown grocery sack, or maybe slick back his hair into a ducktail and try gyrating his hips like Elvis. But then assassinations, war, civil rights, free love, and drugs rocked the old order. And as they did, Grizzard frequently felt lost and confused. In place of Elvis, the Pied Piper of his generation, Grizzard now found wormy-looking, long-haired English kids who performed either half-naked or dressed like Zasu Pitts. *Elvis Is Dead and I Don't Feel So Good Myself* is the witty, satiric, nostalgic account of Grizzard's efforts to survive in a changing world. Sex, music, clothes, entertainment, and life itself receive the Grizzard treatment. In this, his sixth book, Grizzard was never funnier or more in tune with his readers. He might not have felt so good himself, but his social commentary and humor can still make the rest of us feel just fine.

Now the Netflix Limited Series *Unbelievable*, starring Toni Collette, Merritt Wever, and Kaitlyn Dever • Two Pulitzer Prize-winning journalists tell the riveting true crime story of a teenager charged with lying about having been raped—and the detectives who followed a winding path to arrive at the truth. "Gripping . . . [with a] John Grisham-worthy twist."—Emily Bazelon, *New York Times* Book Review (Editors' Choice) On August 11, 2008, eighteen-year-old Marie reported that a masked man broke into her apartment near Seattle, Washington, and raped her. Within days police and even those closest to Marie became suspicious of her story. The police swiftly pivoted and began investigating Marie. Confronted with inconsistencies in her story and the doubts of others, Marie broke down and said her story was a lie—a bid for attention. Police charged Marie with false reporting, and she was branded a liar. More than two years later, Colorado detective Stacy Galbraith was assigned to investigate a case of sexual assault. Describing the crime to her husband that night, Galbraith learned that the case bore an eerie resemblance to a rape that had taken place months earlier in a nearby town. She joined forces with the detective on that case, Edna Hendershot, and the two soon discovered they were dealing with a serial rapist: a man who photographed his victims, threatening to release the images online, and whose calculated steps to erase all physical evidence suggested he might be a soldier or a cop. Through meticulous police work the detectives would eventually connect the rapist to other attacks in Colorado—and beyond. Based on investigative files and extensive interviews with the principals, *Unbelievable* is a serpentine tale of doubt, lies, and a hunt for justice, unveiling the disturbing truth of how sexual assault is investigated today—and the long history of skepticism toward rape victims. Previously published as *A False Report*

One of the most enduring divas of Hindi cinema, a producer and director for films and television, dancer and choreographer par excellence, magazine editor, an active member of Parliament and now a singer, Hema Malini wears many hats with admirable ease. No other industry name comes close to matching the breadth of her achievements. In an industry where the male star has traditionally driven the commercial success of films, Hema was an exception, with her name alone sufficing to ensure a film's box-office glory. She was, arguably, India's first female superstar. Apart from starring in mainstream super-hits like *Johny Mera Naam*, *Jugnu*, *Andaz*, *Seeta Aur Geeta*, *Sholay* and, more recently, *Baghban*, she received critical acclaim for her performances in *Lal Patthar*, *Khushboo*, *Kinara*, *Meera*, *Ek Chadar Maili Si* and *Razia Sultan*. But there is much more to her than just her

Bollywood journey. From her efforts at reviving and sustaining classical dance to her graceful handling of her personal life and the controversies that have plagued her in her political avatar, from her relationships to her religious beliefs and her recent tryst with singing, Hema Malini: Beyond the Dream Girl covers it all.

With detailed interviews and exclusive anecdotes from her family, friends and co-actors, this is an inside look at the remarkable life of one of our greatest cinema icons, someone who has truly lived life on her own terms.
