## DOMINIQUE CABRERA

**Les aciers inoxydables duplex (Traité MIM, série matériaux et métallurgie)** Martinus Nijhoff Publishers  
 Les aciers inoxydables duplex sont des alliages Fe-Cr-Ni-Mo dont l'utilisation s'est fortement accrue depuis 10 ans. Leur structure biphasée leur assure une plus haute résistance mécanique et une plus haute résistance à la corrosion que n'ont les aciers inoxydables austénitiques standard. Ces nuances duplex ont un succès commercial continument croissant pour un large domaine d'applications (secteurs énergétiques, industries du gaz et du pétrole, industries chimiques, chimiquiers, industries du papier et de la pâte à papier...), dû à leurs très bonnes propriétés et leur relativement faible coût.

Traite de Mineralogie Lavoisier

Consumers demand quality milk with a reasonable shelf-life, a requirement that can be met more successfully by the milk

industry through use of improved processes and technologies. Guaranteeing the production of safe milk also remains of paramount importance. Improving the safety and quality of milk provides a comprehensive and timely reference to best practice and research advances in these areas. Volume 1 focuses on milk production and processing. Volume 2 covers the sensory and nutritional quality of cow's milk and addresses quality improvement of a range of other milk-based products. The health aspects of milk, its role in the diet and milk-based functional foods are the focus of the opening section of Volume 2. Part two reviews essential aspects of milk quality, including milk microbial spoilage and chemical deterioration, sensory evaluation, factors affecting milk vitamin and mineral content and the impact of packaging on quality. Chapters in part three look at improving particular products, such as organic milk, goat milk and sheep milk. The impact of milk on the quality of yoghurt and cheese is also covered. With its distinguished editor and international team of contributors, volume 2 of Improving the safety and quality of milk is an essential reference for researchers and those in

industry responsible for milk safety and quality. - Examines the sensory and nutritional quality of cow's milk and addresses quality improvement of a range of other milk-based products - Reviews the health aspects of milk and its role in the diet, as well as the essential aspects of milk quality, including microbial spoilage and chemical deterioration, sensory evaluation and factors affecting milk vitamin and mineral content - Discusses various application requirements of milk such as milk quality requirements in yoghurt-making, cheesemaking, infant formulas and applications of milk components in products other than foods *Dromadaires et chameaux, animaux laitiers* Рипол Классик Exhaustive et très richement illustrée, cette deuxième édition entièrement en couleur aborde de manière toujours claire et précise les méthodes et les résultats de l'imagerie de l'ensemble du corps humain. Chaque section présente de façon systématique : Les différentes techniques d'imagerie disponibles, des plus classiques au plus innovantes. Les principales stratégies diagnostiques pour toutes les pathologies de la région explorée. L'ensemble des chapitres a été actualisé et les chapitres de neurocardiologie et d'imagerie cardiovasculaire ont été totalement réécrits pour tenir compte des nouveaux apports de l'imagerie et des plus récents développements technologiques.

**Catalogue of the Library of Parliament** Editions Quae The Academy is an institution for the study and teaching of public and private international law and related subjects. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject, including legislation and case law. All courses at the Academy are, in principle, published in the language in which they were delivered in the "Collected Courses of the" "Hague Academy of International Law." This volume contains: - International Business Transactions in United States Courts by

H.H. KOH, Professor at Yale University, New Haven; - Citoyennete de l'Union europeenne, nationalite et condition des etrangers, par E. PEREZ VERA, professeur a l'Universidad Nacional de Educacion a Distancia, Madrid. To access the abstract texts for this volume please click here
