This book discusses all important aspects of emergency medicine in older people, identifying the particular care needs of this population, which all too often remain unmet. The up-to-date and in-depth coverage will assist emergency physicians in identifying patients at risk for adverse outcomes, in conducting appropriate assessment, and in providing timely and adequate care. Particular attention is paid to the common pitfalls in emergency management and means of avoiding them. Between 1980 and 2013, the number of older patients in emergency departments worldwide doubled. Compared with younger patients, older people suffer from more comorbidities, a higher mortality rate, require more complex assessment and

diagnostic testing, and tend to stay longer in the emergency department. This book, written by internationally recognized experts in emergency medicine and geriatrics, not only presents the state of the art in the care of this population but also underlines the increasing need for adequate training and development in the field.

The greatest obstacle to sound economic policy is not entrenched special interests or rampant lobbying, but the popular misconceptions, irrational beliefs, and personal biases held by ordinary voters. This is economist Bryan Caplan's sobering assessment in this provocative and eye-opening book. Caplan argues that voters continually elect politicians

who either share their biases or else pretend to, resulting in bad policies winning again and again by popular demand. Boldly calling into question our most basic assumptions about American politics, Caplan contends that democracy fails precisely because it does what voters want. Through an analysis of Americans' voting behavior and opinions on a range of economic issues, he makes the convincing case that noneconomists suffer from four prevailing biases: they underestimate the wisdom of the market mechanism, distrust foreigners, undervalue the benefits of conserving labor, and pessimistically believe the economy is going from bad to worse. Caplan lays out several bold ways to make democratic government work better--for example,

urging economic educators to focus on correcting popular misconceptions and recommending that democracies do less and let markets take up the slack. The *Myth of the Rational Voter* takes an unflinching look at how people who vote under the influence of false beliefs ultimately end up with government that delivers lousy results. With the upcoming presidential election season drawing nearer, this thought-provoking book is sure to spark a long-overdue reappraisal of our elective system.

In this sweet and brightly illustrated picture book, Amy Wu must craft a dragon unlike any other to share with her class at school in this unforgettable follow-up to *Amy Wu and the Perfect Bao*. Amy loves craft time at school. But when her teacher asks everyone to make their own dragon, Amy feels stuck.

Her first dragon has a long, wingless body, stag-like horns, and eagle claws, but her friends don't think it's a real dragon. Then she makes dragons like theirs, but none of them feels quite right...None of them feels like hers. After school, a story from Grandma sparks new inspiration, and Amy rounds up her family to help her. Together, can they make Amy's perfect dragon?

Education-Based Incarceration and Recidivism: The Ultimate Social Justice Crime Fighting Tool takes a penetrating look at the needs and challenges of society's disenfranchised jail populations. It is incumbent to encourage public awareness of the causes that underlie the destructive cycles plaguing these populations,

including the abuse and neglect that cycle through generations. When effectively addressed through education the economic burden on society is lightened and an advocacy to increase understanding engenders a humane response. When connecting education-based incarceration to leadership and social justice, several issues come to mind, beginning with the universal understanding that definitions of social justice are based on a variety of factors, like political orientation, religious background, and political and social philosophy. An increased body of researchers in educational leadership, ethics, law, sociology, corrections, law enforcement, criminal justice, and public health agree that social justice is concerned with equal justice, not just in

the courts, but in all aspects of society. Social justice demands that people promote a just society where people have equal rights and opportunities; everyone, from the poorest person on the margins of society to the wealthiest deserves an even playing field. The intended audience for this book includes academics, national and international law enforcement agencies, and correctional institutions interested in establishing and assessing the effectiveness of an education-based incarceration program. This book can be used by educators and students interested in studying organizational leadership, correctional theory, recidivism, social and restorative justice, and education-based incarceration. This richly illustrated volume is the first complete atlas of coffee production in Ethiopia, birth-place of coffee drinking and the main home of wild arabica coffee (*Coffea arabica*). Around 15 million Ethiopians are coffee farmers, and Ethiopia is Africa's largest coffee producer and one of the most important coffee-growing regions of the world, renowned for its diversity of flavour profiles, including those of the celebrated coffees of Harar, Limu, Sidamo, and Yirgacheffe. The aim of the Coffee Atlas of Ethiopia is to inform the reader about the coffee landscape of Ethiopia. It shows where coffee is grown, where the natural coffee forests are located, and where coffee could be grown. The atlas maps are accompanied

by information on coffee farming, environment and climate, and a description of the main coffee areas. Also included in the atlas are key coffee origins, coffee towns and coffee delivery centres, as well as other useful items. The atlas can be used to assess the potential and vulnerability for coffee farming in Ethiopia, as well as provide a logistics resource for the coffee sector and those otherwise working with, or interested in, coffee. It is also an essential reference for resource managers.

Combining behind-the-scenes coverage of an often besieged religious group with a personal account of one woman's

struggle to find meaning in it, *Betrayal of the Spirit* takes readers to the center of life in the Hare Krishna movement. Nori J. Muster joined the International Society of Krishna Consciousness (ISKCON)--the Hare Krishnas--in 1978, shortly after the death of the movement's spiritual master, and worked for ten years as a public relations secretary and editor of the organization's newspaper, the *ISKCON World Review*. In this candid and critical account, Muster follows the inner workings of the movement and the Hare Krishnas' progressive decline. Combining personal reminiscences, published articles, and internal documents, *Betrayal of the Spirit* details the scandals that beset the Krishnas--drug dealing, weapons stockpiling, deceptive fundraising, child abuse, and murder

within ISKCON—as well as the dynamics of schisms that forced some 95 percent of the group's original members to leave. In the midst of this institutional disarray, Muster continued her personal search for truth and religious meaning as an ISKCON member until, disillusioned at last with the movement's internal divisions, she quit her job and left the organization. In a new preface to the paperback edition, Muster discusses the personal circumstances that led her to ISKCON and kept her there as the movement's image worsened. She also talks about "the darkest secret"—child abuse in the ISKCON parochial schools--that was covered up by the public relations office where she worked. Education Assoc. Timely, thoughtful, and comprehensive, this text directly supports pre-service and in-service teachers in developing curriculum and instruction that both addresses and exceeds the requirements of the Common Core State Standards. Adopting a critical inquiry approach, it demonstrates how the Standards' highest and best intentions for student success can be implemented from a critical, culturally relevant perspective firmly grounded in current literacy learning theory and research. It provides specific examples of teachers using the critical inquiry curriculum framework of identifying problems and issues, adopting alternative perspectives, and entertaining change in their classrooms to illustrate how the Standards can not

only be addressed but also surpassed through engaging instruction. The Second Edition provides new material on adopting a critical inquiry approach to enhance student engagement and critical thinking planning instruction to effectively implement the CCSS in the classroom fostering critical response to literary and informational texts using YA literature and literature by authors of color integrating drama activities into literature and speaking/listening instruction teaching informational, explanatory, argumentative, and narrative writing working with ELL students to address the language Standards using digital tools and apps to respond to and create digital texts employing formative assessment to provide supportive feedback preparing

Ehrenfeld is one of America's leading conservation biologists. *Becoming Good Ancestors* unites in a single, up-to-date framework pieces written over two decades, spanning politics, ecology, and

culture, and illuminating the forces in modern society that thwart our efforts to solve today's hard questions about society and the environment. Our society has an inherent sense of what is right, says Ehrenfeld, and the creativity and persistence to make good things happen. It is now time to apply our intelligence to the very large problems we all face.
