armypubs.army.mil  
The Final lab exam will consist of a thin section and hand specimen description exercise of a sample drawn randomly from a hat. The sample pairs will be from a similar suite to those that you examined during the petrography labs in the class.  
GY 402 - Sedimentary Petrography  
Figure 1-1. Relative abundance of rock types in the Earth's crust and at the Earth's surface.  
CHAPTER 1. Clastic sedimentology is the branch of geology that studies sediment and sedimentary rocks that

are made up of particles that are the solid products of weathering at or near the Earth's surface. Introduction to Clastic Sedimentology Insights: A Laboratory Manual for Historical Geology provides a broad, general approach to Historical Geology essential to geology majors and engaging to non-majors as a powerful tool covering the basics of geology. Insights focuses tightly on essentials of historical Geology education. By selecting Insights, your students will learn the core principles of Historical Geology, Insights: A Laboratory Manual for Historical Geology ... The main goals of this PetroKnowledge training course are to stimulate the participants with knowledge of the sedimentology and its importance in the oil industry, understand and apply this knowledge to evaluate related environment of deposition, rock unit description (from texture and diagenesis to facies), analyze and evaluate the zonation from both core to log and vice versa to create model that fit, as best as we can, geological, geophysical

and petrophysical setting versus reservoir and ... Sedimentology from Introduction to Application Training ... This fully revised and updated edition introduces the reader to sedimentology and stratigraphic principles, and provides tools for the interpretation of sediments and sedimentary rocks. The processes of formation, transport and deposition of sediment are considered and then applied to develop conceptual models for the full range of sedimentary environments, from deserts to deep seas and reefs to rivers. Download PDF: Sedimentology and Stratigraphy by Gary ... HydroCAD User's Guide 29. The HydroCAD Screens. Most HydroCAD activities utilize the main screen, containing the routing diagram, plus one or more report windows, used to view the runoff and routing results. To get more information on any item, hold the mouse pointer over the item until a pop-up "tool tip" appears. www.hydrocad.net A 'read' is counted each time someone views a publication summary (such as the title, abstract, and list of authors), clicks on a figure, or views or
