EMILIO SAUNDERS

Hitler's Furies

Areopagitica Press Inc
A great deal of contemporary law has a direct connection to the Holocaust. That connection, however, is seldom acknowledged in legal texts and has never been the subject of a full-length

scholarly work. This book examines the background of the Holocaust and genocide through the prism of the law; the criminal and civil prosecution of the Nazis and their collaborators for Holocaust-era crimes; and contemporary attempts to criminally prosecute perpetrators for the crime of genocide. It provides

the history of the Holocaust as a legal event, and sets out how genocide has become known as the "crime of crimes" under both international law and in popular discourse. It goes on to discuss specific post-Holocaust legal topics, and examines the Holocaust as a catalyst for post-Holocaust international justice. Together, this collection of subjects establishes a new legal discipline, which the author Michael Bazyler labels "Post-Holocaust Law."

Holocaust Literature

Vintage

The genocide of Jewish and non-Jewish civilians perpetrated by the German regime during World War Two continues to confront scholars with elusive

questions even after nearly seventy years and hundreds of studies. This multi-contributory work is a landmark publication that sees experts renowned in their field addressing these questions in light of current research. A comprehensive introduction to the history of the Holocaust, this volume has 42 chapters which add important depth to the academic study of the Holocaust, both geographically and topically. The chapters address such diverse issues as: continuities in German and European history with respect to genocide prior to 1939 the eugenic roots of Nazi anti-Semitism the response of Europe's Jewish Communities to persecution and

destruction the Final Solution as the German occupation instituted it across Europe rescue and rescuer motivations the problem of prosecuting war crimes gender and Holocaust experience the persecution of non-Jewish victims the Holocaust in postwar cultural venues. This important collection will be essential reading for all those interested in the history of the Holocaust.

The Holocaust Walter de Gruyter

When and why do groups target each other for extermination? How do seemingly normal people become participants in genocide? In these essays, social psychologists use the principles derived from

contemporary research in their field to try to shed light on the behaviour of perpetrators of genocide.

Holocaust

Metropolitan Books
From the award-winning historian of the Holocaust, Europe Against the Jews, 1880-1945 is the first book to move beyond Germany's singular crime to the collaboration of Europe as a whole. The Holocaust was perpetrated by the Germans, but it would not have been possible without the assistance of thousands of helpers in other countries: state officials, police, and civilians who eagerly supported the genocide. If we are to fully understand how and why the Holocaust happened, Götz Aly

argues in this groundbreaking study, we must examine its prehistory throughout Europe. We must look at countries as far-flung as Romania and France, Russia and Greece, where, decades before the Nazis came to power, a deadly combination of envy, competition, nationalism, and social upheaval fueled a surge of anti-Semitism, creating the preconditions for the deportations and murder to come. In the late nineteenth century, new opportunities for education and social advancement were opening up, and Jewish minorities took particular advantage of them, leading to widespread resentment. At the same time, newly

created nation-states, especially in the east, were striving for ethnic homogeneity and national renewal, goals which they saw as inextricably linked. Drawing upon a wide range of previously unpublished sources, Aly traces the sequence of events that made persecution of Jews an increasingly acceptable European practice. Ultimately, the German architects of genocide found support for the Final Solution in nearly all the countries they occupied or were allied with. Without diminishing the guilt of German perpetrators, Aly documents the involvement of all of Europe in the destruction of the Jews, once again deepening our understanding of this most tormented

history.

Understanding

Genocide Turtleback

Discusses the events of the Holocaust and includes personal accounts from survivors of their experiences of the persecution and the death camps.

Epidemics and Genocide in Eastern Europe, 1890-1945

Routledge

Long neglected by European historians, the unspeakable atrocities of Franco's Spain are finally brought to tragic light in this definitive work. Evoking such classics as Anne Applebaum's *Gulag* and Robert Conquest's *The Great Terror*, *The Spanish Holocaust* sheds light on one of the darkest and most unexamined eras of modern European history. As

Spain finally reclaims its historical memory, a full picture can now be drawn of the atrocities of Franco's Spain—from torture and judicial murders to the abuse of women and children. Paul Preston provides an unforgettable account of the systematic terror carried out by Spain's fascist government.

The Holocaust

Routledge

A reexamination of the narrative of genocide. Personal stories help audiences consider the cause, course, and consequences of this seminal period in world history. In *Holocaust*, historian James Bulgin presents a wealth of archival material—including emotive objects, newly commissioned photography, and previously unpublished

personal testimony from those who were there--to examine the role of ideology and individual decision-making in the course of World War II and the Holocaust. The book is published to coincide with the opening of Imperial War Museums's groundbreaking new Second World War and Holocaust Galleries.

How Could This Happen Berghahn Books

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive

evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans.

Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular.

Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile

killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner" is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer

 Sample Book Insights:
 #1 I grew up in a family that was Catholic and humanistic. My parents taught me a strict Catholic and humanistic ethic. I knew I would have to make a choice about God and the Catholic Church.
 #2 My family always took the opportunity to give me a detailed account of the places where they had come face to face with history. They were simple people who wanted to tell me what had happened, using places and traces where the war had marked our daily landscape.
 #3 I learned about a topography, strange, distant, and foreign, that was synonymous with misfortune and

suffering. It was the name Rawa-Ruska. I didn't know what country it was in, but it was nowhere. It was impossible to locate it. #4 I was 12 years old when I saw images of the Holocaust for the first time in the municipal library in Chalon. I opened a book and saw photographs of the concentration camps for Jews at Bergen-Belsen. I understood everything: I understood my grandfather's secret. The Nazis Oxford University Press Hero-or Nazi? Silvia Foti was raised on reverent stories about her hero grandfather, a martyr for Lithuanian independence and an unblemished patriot. Jonas Noreika, remembered as "General Storm," had

resisted his country's German and Soviet occupiers in World War II, surviving two years in a Nazi concentration camp only to be executed in 1947 by the KGB. His granddaughter, growing up in Chicago, was treated like royalty in her tightly knit Lithuanian community. But in 2000, when Silvia traveled to Lithuania for a ceremony honoring her grandfather, she heard a very different story—a "rumor" that her grandfather had been a "Jew-killer." The Nazi's Granddaughter is Silvia's account of her wrenching twenty-year quest for the truth, from a beautiful house confiscated from its Jewish owners, to familial confessions and the Holocaust tour guide who believed

that her grandfather had murdered members of his family. A heartbreaking and dramatic story based on exhaustive documentary research and soul-baring interviews, *The Nazi's Granddaughter* is an unforgettable journey into World War II history, intensely personal but filled with universal lessons about courage, faith, memory, and justice.

Black Earth UPNE

Covers all aspects of the Holocaust through works by survivors, scholars, and journalists, from the rise of Adolf Hitler to the Nuremberg trials.

Architects of the Holocaust Bloomsbury Publishing

Following the success of Rees' bestselling *Auschwitz*, this substantially revised

and updated edition of *The Nazis - A Warning from History* tells the powerfully gripping story of the rise and fall of the Third Reich. During a 16-year period, acclaimed author and documentary-maker Laurence Rees met and interviewed a large number of former Nazis, and his unique insights into the Nazi psyche and World War II received enormous praise. At the heart of the book lies compelling eyewitness accounts of life under Adolf Hitler, spoken through the words of those who experienced the Nazi regime at every level of society. An extensive new section on the Nazi/Soviet war (previously published in Rees' *War of the Century*) provides a

chilling insight into Nazi mentality during the most bloody conflict in history. Described as one of the greatest documentary series of all times *The Nazis - A Warning from History* won a host of awards, including a BAFTA and an International Documentary Award.

The Nazi's Granddaughter

Harvard University Press
Examines the holocaust from a German perspective, providing and analyzing the facts and political decisions which led to the murder of millions of Jews and other ethnic groups during the Nazi regime
We Remember the Holocaust Tim Duggan
Books
A history of German

women in the Holocaust reveals their roles as plunderers, witnesses, and actual executioners on the Eastern front, describing how nurses, teachers, secretaries, and wives responded to what they believed to be Nazi opportunities only to perform brutal duties.

Holocaust

PublicAffairs
Reviews the history of the Jewish people and the development of anti-Semitism, describes the horrors of the Holocaust, and examines the role of Holocaust survivors in the growth of Israel.

Europe Against the Jews, 1880-1945

Farrar, Straus and Giroux
A thoughtful and age-appropriate introduction to an unimaginable

event—the Holocaust. The Holocaust was a genocide on a scale never before seen, with as many as twelve million people killed in Nazi death camps—six million of them Jews. Gail Herman traces the rise of Hitler and the Nazis, whose rabid anti-Semitism led first to humiliating anti-Jewish laws, then to ghettos all over Eastern Europe, and ultimately to the Final Solution. She presents just enough information for an elementary-school audience in a readable, well-researched book that covers one of the most horrible times in history. This entry in the New York Times best-selling series contains eighty carefully chosen illustrations and sixteen pages of black

and white photographs suitable for young readers.

The Holocaust in History Everest Media LLC

The Nazi Holocaust is one of the most momentous events in human history. Yet, it remains on many levels a baffling and unfathomable mystery. By shunning simplistic 'explanations' Ronnie Landau has set out, in a clear, thought-provoking and enlightened fashion, to mediate between this vast, often unapproachable subject and the reader who wrestles with its meaning. Locating the Holocaust within a number of different contexts - Jewish history, German history, genocide in the modern age, the larger story of human bigotry

and the triumph of ideology over conscience - Landau penetrates to the very heart of its moral and historical significance. Deeply concerned lest the Holocaust, as a 'unique' phenomenon, be cordoned off from the rest of human history and ghettoized within the highly charged realm of 'Jewish experience', he is at pains to show that transmitting understanding of the Holocaust is about connecting with all humanity. Intended both for the general reader and for students and academics (especially in history, psychology, literature and the humanities), this work is an important breakthrough in the struggle to perpetuate the memory of a

tragedy which the world is all too ready to forget.

The Holocaust OUP
Oxford

For the sizeable Jewish community living in Greece during the 1940s, German occupation of Greece posed a distinct threat. The Nazis and their collaborators murdered around ninety percent of the Jewish population through the course of the war. This new account presents cutting edge research on four elements of the Holocaust in Greece: the level of antisemitism and question of collaboration; the fate of Jewish property before, during, and after their deportation; how the few surviving Jews were treated following their return to Greece, especially in

terms of justice and restitution; and the ways in which Jewish communities rebuilt themselves both in Greece and abroad. Taken together, these elements point to who was to blame for the disaster that befell Jewish communities in Greece, and show that the occupation authorities alone could not have carried out these actions to such magnitude without the active participation of Greek Christians.

The Germans and the Holocaust W. W.

Norton & Company
Covers the anti-semitic activities of the Nazis all over the globe, refuting common myths about the Holocaust, including the perception that Jews went peacefully to their deaths

The Holocaust in

Greece Cambridge University Press

Though best known as the author of the landmark 1961 work The Destruction of the European Jews, the historian Raul Hilberg produced a variety of archival research, personal essays, and other works over a career that spanned half a century. The Anatomy of the Holocaust collects some of Hilberg's most essential and groundbreaking writings—many of them published in obscure journals or otherwise inaccessible to nonspecialists—in a single volume.

Supplemented with commentary and notes from Hilberg's longtime German editor and his biographer, it not only offers a multifaceted look at the man and

the scholar, but also traces the evolution of Holocaust research

from a marginal subdiscipline into a diverse and vital intellectual project.
