Musical Theatre is a comprehensive guide for those studying the components of musical theatre, its history, practitioners, audiences, and agendas. The Companion expands the study of musical theatre to include the ways we practice and experience musicals, their engagement with technology, and their navigation of international commercial marketplaces. The Companion is the first collection to include global musical theatre in each chapter, reflecting the musical's status as the world's most popular theatrical form. This book brings together practice and scholarship, featuring essays by leading and emerging scholars alongside luminaries such as Chinese musical theatre composer San Bao, Tony Award-winning star André De Shields, and Tony Award-winning director Diane Paulus. This is an essential resource for students on theatre and performance courses and an invaluable text for researchers and practitioners in these areas of study.

This survey of thermal systems engineering combines coverage

of thermodynamics, fluid flow, and heat transfer in one volume.

Developed by leading educators in the field, this book sets the standard for those interested in the thermal-fluids market.

Drawing on the best of what works from market leading texts in thermodynamics (Moran), fluids (Munson) and heat transfer (Incropera), this book introduces thermal engineering using a systems focus, introduces structured problem-solving techniques, and provides applications of interest to all engineers.

The Disney Musical: Critical Approaches on Stage and Screen is the first critical treatment of the corporation's hugely successful musicals both on screen and on the stage. Its 13 articles open up a new territory in the critical discussion of the Disney mega-musical, its gender, sexual and racial politics, outreach work and impact of stage, film and television adaptations. Covering early 20th century works such as the first full-length feature film Snow White and the Seven Dwarfs (1937), to The Lion King - Broadway's highest grossing production in history, and Frozen (2013), this edited collection offers a diverse range of theoretical engagements that will appeal to readers of film and media studies, musical theatre, cultural studies, and theatre and performance. The volume is divided into three sections to provide a contextual analysis of Disney's most famous musicals: · DISNEY

MUSICALS: ON FILM · DISNEY ADAPTATIONS: ON STAGE AND BEYOND · DISNEY MUSICALS: GENDER AND RACE The first section employs film theory, semiotics and film music analysis to explore the animated works and their links to the musical theatre genre. The second section addresses various stage versions and considers Disney's outreach activities, cultural value and productions outside the Broadway theatrical arena. The final section focuses on issues of gender and race portraying representations of race, hetero-normativity, masculinity and femininity in *Newsies*, *Frozen*, *High School Musical*, *Aladdin* and *The Jungle Book*. The various chapters address these three aspects of the Disney Musical and offer new critical readings of a vast range of important works from the Disney musical cannon including *Enchanted*, *Mary Poppins*, *Hunchback of Notre Dame*, *The Lion King* and versions of musicals for television in the early 1990s and 2000s. The critical readings are detailed, open-minded and come to surprising conclusions about the nature of the Disney Musical and its impact.

Alice Dreaming is a play for secondary students that tells a uniquely Australian story. Trapped by the expectations of others, a girl escapes into her imagination. Following an albatross, Alice

takes a journey across Australia that eventually brings her closer to home and an understanding of who she is. Inspired by Alice's Adventures in Wonderland and The Wizard of Oz, it is a play written about teenagers, for teenagers. Embracing a non-naturalistic theatrical language, Alice Dreaming can incorporate a number of performance elements, including puppetry, mask, music and dance. Roles are suitable for performance by both boys and girls. The cast includes 29 speaking roles plus chorus. The play runs for 60-80 minutes. Designed to provoke discussion and debate, Alice Dreaming can be used as a classroom resource to develop student thinking around both personal issues and social issues, including the environment, politics and Australian history.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

A Thousand Cranes Dramatic Publishing

The idea of American musical theatre often conjures up images of bright lights and big city, but its lifeblood is found in amateur productions at high schools, community theatres, afterschool programs, summer camps, and dinner theatres. In *Beyond Broadway*, author Stacy Wolf looks at the widespread presence and persistence of musical theatre in U.S. culture, and examines it as a social practice--a live, visceral experience of creating, watching, and listening. Why does local musical theatre flourish in America? Why do so many Americans continue to passionately engage in a century-old artistic practice that requires intense, person-to-person collaboration? And why do audiences still flock to musicals in their hometowns? Touring American elementary schools, a middle school performance festival, afterschool programs, high schools, summer camps, state park outdoor theatres, community theatres, and dinner theatres from California to Tennessee, Wolf illustrates musical theatre's abundance and longevity in the U.S. as a thriving social activity that touches millions of lives.
