Dog Diaries Yearling
What Harry Potter did
for magic, Max Einstein
does for kids'
imaginations! Max
leads a group of kid
geniuses in this #1
New York Times
bestseller officially
approved by the Albert
Einstein archives. Max

Einstein is not your
typical genius. She . . .
Hacks the computer
system at NYU to
attend classes Builds
inventions to help the
homeless And talks to
Albert Einstein! (Okay,
that's just in her
imagination) But
everything changes
when Max is recruited
by a mysterious
organization! Their
mission: solve some of
the world's toughest
problems using

science. She's helped by a diverse group of young geniuses from around the globe as they invent new ways to power the farthest reaches of the planet. But that's only if the sinister outfit known only as The Corporation doesn't get to her first . . . Max Einstein is a heroine for the modern age and will be looked up to by readers for generations to come. "[A] fast-paced, science-filled caper." -- The Wall Street Journal

Not So Normal

Norbert jimmy patterson
From Isaacson, the bestselling author of "Benjamin Franklin," comes the first full biography of Albert Einstein since all his papers have become available--a fully realized portrait of a

premier icon of his era.

Buckle up! Max and her flock take on their most daring rescue mission yet in James Patterson's #1 bestselling Maximum Ride series.

Someone—or something—is decimating ships and sea life off Hawaii's coast, and Max and her flock find themselves sucked into the Navy's top-secret investigation of the catastrophe. Their objective: rescue Max's activist mom from a wicked subterranean enemy. The hitch: They must dive deep into dark waters, where gruesome evil dwells . . . and for high-flying Maximum Ride, could

there be anything more terrifying than being trapped in the great abyss? With sky-high thrills, this soaring adventure takes Maximum Ride and the Flock into terrifying new territory—fans, hold your breath!

Rebel Genius Random House

Kenny Wright is a sixth grade 'Grandma's Boy' in a tough inner city school, struggling with bullies, schoolwork and keeping his detentions secret from his 'G-ma'. Though in his active imagination he's a world-famous superhero, Stainlezz Steel, who fights crime, saves lives and rescues helpless animals. But now Kenny's neighbourhood need him – can he step up in his real life and help his 'G-ma' save the best School Principal

he's ever had?

Max and the Midknights Simon & Schuster Books for Young Readers
#1 bestselling author James Patterson doles out the laughs in the first book in the hit series! Middle-schooler Jamie Grimm faces bullies and self-doubt as he chases his dream of becoming the world's greatest comedian Jamie Grimm is a middle schooler on a mission: he wants to become the world's greatest standup comedian--even if he doesn't have a lot to laugh about these days. He's new in town and stuck living with his aunt, uncle, and their evil son Stevie, a bully who doesn't let Jamie's wheelchair stop him from messing with Jamie as much as possible. But Jamie

doesn't let his situation get him down. When his Uncle Frankie mentions a contest called The Planet's Funniest Kid Comic, Jamie knows he has to enter. But are the judges only rewarding him out of pity because of his wheelchair, like Stevie suggests? Will Jamie ever share the secret of his troubled past instead of hiding behind his comedy act? Prepare to laugh and cheer along with Jamie in this highly-illustrated, heartfelt middle school story.

House of Robots jimmy patterson

Rafe Khatchadorian is getting the Hollywood treatment in a film version of *Middle School: The Worst Years of My Life* starring Griffin Gluck, Lauren Graham, Rob Riggle and Thomas

Barbusca. Rafe Khatchadorian has enough problems at home without throwing his first year of middle school into the mix. Luckily, he's got an ace plan for the best year ever, if only he can pull it off. With his best friend Leonardo the Silent awarding him points, Rafe tries to break every rule in his school's oppressive Code of Conduct.

Chewing gum in class - 5,000 points! Running in the hallway - 10,000 points! Pulling the fire alarm - 50,000 points! But when Rafe's game starts to catch up with him, he'll have to decide if winning is all that matters, or if he's finally ready to face the rules, bullies, and truths he's been avoiding.

The River Murders
Crown Books for Young

Readers

A very special mouse escapes from a lab to find his missing family in this charming story of survival, determination, and the power of friendship. What makes Isaiah so unique? First, his fur is as blue as the sky—which until recently was something he'd never seen, but had read all about. That's right: Isaiah can read and write. He can also talk to humans . . . if any of them are willing to listen! After a dramatic escape from a mysterious laboratory, Isaiah is separated from his "mischief" (which is the word for a mouse family) and has to survive in the dangerous outdoors, and hopefully find his missing family. But in a world of cruel cats,

hungry owls, and terrified people, it's hard for a young, lone mouse to make it alone. When he meets an equally unusual and lonely human girl named Hailey, the two soon learn that true friendship can transcend all barriers.

Word of Mouse

Chicken House

Darkus's dad has disappeared - but his new friend, a giant beetle called Baxter, is some consolation. Together, boy and beetle set out to solve the mystery of his father's disappearance. But Lucretia Cutter - a fashion designer with a penchant for beetle jewellery - is dead set against their success ...

Join the famous

treasure-hunting Kidds on their first adventure ever! The #1 New York Times bestselling series from James Patterson is jam-packed with action, humor, and heart! The Kidd siblings have grown up diving down to shipwrecks and traveling the world, helping their famous parents recover everything from swords to gold doubloons from the bottom of the ocean. But when their parents disappear on the job, the kids are suddenly thrust into the biggest treasure hunt of their lives. They'll have to work together to defeat dangerous pirates and dodge the hot pursuit of an evil treasure hunting rival, all while following cryptic clues to unravel the mystery of what

really happened to their parents—and find out if they're still alive.

Genius Camp: The Smartest Kid in the Universe, Book 2

jimmy patterson

For Albert Einstein, 1905 was a remarkable year. It was also a miraculous year for the history and future of science. In six short months, from March through September of that year, Einstein published five papers that would transform our understanding of nature. This unparalleled period is the subject of John Rigden's book, which deftly explains what distinguishes 1905 from all other years in the annals of science, and elevates Einstein above all other scientists of the twentieth century. Rigden chronicles the

momentous theories that Einstein put forth beginning in March 1905: his particle theory of light, rejected for decades but now a staple of physics; his overlooked dissertation on molecular dimensions; his theory of Brownian motion; his theory of special relativity; and the work in which his famous equation, $E = mc^2$, first appeared. Through his lucid exposition of these ideas, the context in which they were presented, and the impact they had--and still have--on society, Rigden makes the circumstances of Einstein's greatness thoroughly and captivatingly clear. To help readers understand how these ideas continued to develop, he briefly describes Einstein's

post-1905 contributions, including the general theory of relativity. One hundred years after Einstein's prodigious accomplishment, this book invites us to learn about ideas that have influenced our lives in almost inconceivable ways, and to appreciate their author's status as the standard of greatness in twentieth-century science.

The Girl from Berlin

HarperCollins

"A fast-paced, science-filled caper." --The Wall Street Journal
Max Einstein is the first and only children's adventure series officially approved by the Albert Einstein Archives. Max Einstein's typical day is not your average 12-year-old's. She... - TEACHES classes at a

When a lifelong
friendship just isn't
long enough, two
friends connect from
beyond the grave in
this heartwarming
ghost story from a New
York Times bestselling
author. One minute,
Finn was biking home
from school, and the
next, he was run off
the road by a maniac
in a big van. Now, he's
a ghost. He can do lots
of fun things, like try
every ice cream flavor
in the store, sneak up
on people, and play as
many video games as
he wants. Finn even
has a new ghost friend,
Isabella, to show him
the ropes. But he also
has a lot of BIG
questions, like: who
wanted him dead? And
can he stop the maniac
from striking again?
Packed with hilarious
moments, epic

friendships, and fun art, Best Nerds Forever celebrates the nerd in each of us and the joy of living life to its fullest.

The Friendship

Experiment Harvard University Press

"Though Einstein is undoubtedly one of the most important figures in the history of modern science, he was in many respects marginal. Despite being one of the creators of quantum theory, he remained skeptical of it, and his major research program while in Princeton -the quest for a unified field- ultimately failed. In this book, Michael Gordin explores this paradox in Einstein's life by concentrating on a brief and often overlooked interlude: his tenure as professor

of physics in Prague, from April of 1911 to the summer of 1912. Though often dismissed by biographers and scholars, it was a crucial year for Einstein both personally and scientifically: his marriage deteriorated, he began thinking seriously about his Jewish identity for the first time, he attempted a new explanation for gravitation-which though it failed had a significant impact on his later work-and he met numerous individuals, including Max Brod, Hugo Bergmann, Philipp Frank, and Arnoést Kolman, who would continue to influence him. In a kind of double-biography of the figure and the city, this book links Prague

and Einstein together. Like the man, the city exhibits the same paradox of being both central and marginal to the main contours of European history. It was to become the capital of the Czech Republic but it was always, compared to Vienna and Budapest, less central in the Habsburg Empire. Moreover, it was home to a lively Germanophone intellectual and artistic scene, thought the vast majority of its population spoke only Czech. By emphasizing the marginality and the centrality of both Einstein and Prague, Gordin sheds new light both on Einstein's life and career and on the intellectual and scientific life of the city in the early twentieth century"--

James Patterson's high-octane sci-fi adventure series comes to a white-knuckle conclusion in the final battle that Daniel X has been waiting for his entire life. In this sixth and final installment of the Daniel X series, the alien-hunting hero is finally ready to take on the biggest threat in

the galaxy: The Prayer, the same beast that brutally murdered his parents long ago. But even with his incredible ability to create almost anything, Daniel will have to push his powers beyond the brink in order to bring down a monster that has the powers of a god. This epic showdown of good versus evil is a thrilling finale to the #1 New York Times bestselling series.

Charlie Thorne and the Last Equation

jimmy patterson
 In the newest novel from internationally-bestselling author Ronald. H. Balson, Liam and Catherine come to the aid of an old friend and are drawn into a property dispute in Tuscany that unearths long-buried

secrets An old friend calls Catherine Lockhart and Liam Taggart to his famous Italian restaurant to enlist their help. His aunt is being evicted from her home in the Tuscan hills by a powerful corporation claiming they own the deeds, even though she can produce her own set of deeds to her land. Catherine and Liam's only clue is a bound handwritten manuscript, entirely in German, and hidden in its pages is a story long-forgotten... Ada Baumgarten was born in Berlin in 1918, at the end of the war. The daughter of an accomplished first-chair violinist in the prestigious Berlin Philharmonic, and herself a violin prodigy, Ada's life was full of the rich culture of

Berlin's interwar society. She formed a deep attachment to her childhood friend Kurt, but they were torn apart by the growing unrest as her Jewish family came under suspicion. As the tides of history turned, it was her extraordinary talent that would carry her through an unraveling society turned to war, and make her a target even as it saved her, allowing her to move to Bologna—though Italy was not the haven her family had hoped, and further heartache awaited. What became of Ada? How is she connected to the conflicting land deeds of a small Italian villa? As they dig through the layers of lies, corruption, and human evil, Catherine and Liam uncover an

unfinished story of heart, redemption, and hope—the ending of which is yet to be written. Don't miss Liam and Catherine's latest adventures in *The Girl from Berlin!*
Treasure Hunters: Danger Down the Nile
 jimmy patterson
 By the end of World War I, Albert Einstein had become the face of the new science of theoretical physics and had made some powerful enemies. One of those enemies, Nobel Prize winner Philipp Lenard, spent a career trying to discredit him. Their story of conflict, pitting Germany's most widely celebrated Jew against the Nazi scientist who was to become Hitler's chief advisor on physics, had an impact far exceeding what the scientific community

felt at the time. Indeed, their mutual antagonism affected the direction of science long after 1933, when Einstein took flight to America and changed the history of two nations. *The Man Who Stalked Einstein* details the tense relationship between Einstein and Lenard, their ideas and actions, during the eventful period between World War I and World War II.
The Smartest Kid in the Universe, Book 1 Little, Brown
 In this sequel to the New York Times bestselling *Charlie Thorne and the Last Equation*—which #1 New York Times bestselling author Chris Grabenstein called “a real page-burner”—Charlie searches for Charles Darwin's hidden

treasure in South America. Charlie Thorne is a genius. Charlie Thorne is a fugitive. Charlie Thorne isn't even thirteen. After saving the world, Charlie is ready to take it easy in the Galapagos Islands. That is, until she's approached by the mysterious Esmeralda Castle, who has a code she knows only Charlie can decipher. In 1835, Charles Darwin diverted his ship's journey so he could spend ten months in South America on a secret solo expedition. When he returned, he carried a treasure that inspired both awe and terror in his crew. Afterward, it vanished, never to be seen again... But Darwin left a trail of clues behind for those brave and clever enough to

search for it. Enter Charlie Thorne. In a daring adventure that takes her across South America, Charlie must crack Darwin's 200-year-old clues to track down his mysterious discovery—and stay ahead of the formidable lineup of enemies who are hot on her tail. When an ancient hidden treasure is at stake, people will do anything to find it first. Charlie may be a genius, but is she smart enough to know who she can trust?

The Dangerous Days of Daniel X Grand Central Publishing

James Patterson's blockbuster Alex Cross series has sold over 100 million copies – and now he's bringing those thrills to a new generation! Alex's son Ali is eager to follow in

his father's footsteps as a detective, but when his best friend goes missing, what price will he have to pay to solve the mystery? Ali Cross has always looked up to his father, former detective and FBI agent Alex Cross. While solving some of the nation's most challenging crimes, his father always kept his head and did the right thing. Can Ali have the same strength and resolve? When Ali's best friend Gabe is reported missing, Ali is desperate to find him. At the same time, a string of burglaries targets his neighborhood -- and even his own house. With his father on trial for a crime he didn't commit, it's up to Ali to search for clues and find his friend. But

being a kid sleuth isn't easy -- especially when your father warns you not to get involved! -- and Ali soon learns that clues aren't always what they seem. Will his detective work lead to a break in Gabe's case or cause even more trouble for the Cross family?

Laugh Out Loud

jimmy patterson

A kooky kid is banished to another planet in this hilarious adventure about a futuristic world where different is dangerous, imagination is insanity, and creativity is crazy! Norbert Riddle lives in the United State of Earth, where normal means following the rules, never standing out, and being exactly the same as everyone else, down to the plain gray jumpsuits he wears every day. He's

been normal his whole life -- until a moment of temporary hilarity when he does a funny impression of their dictator, Loving Leader . . . and gets caught! Now, Norbert's been arrested and banished to planet Zorquat 3 in the Orion Nebula, where kids who defy the rules roam free in the Astronuts camp. Norbert has been

taught his whole life that different is wrong, but everyone at Astronuts is crazy, creative, and insane! Norbert wants nothing more than to go back to earth where things are awful but at least they're familiar. But he soon realizes that being different could be better -- and maybe the crazy farm is exactly where he belongs after all.
