Crazy patchwork has long been a popular subject amongst quilters and embroiderers, allowing them the freedom to be creative and to incorporate a broad range of techniques into their work. In this beautiful book, expert needlecrafter Hazel Blomkamp explores a wide variety of hand-stitching techniques and produces five stunning projects in which everything is created using just fabric, a needle, threads, ribbons and beads. She provides expert guidance on embellishment techniques such as beading, embroidery (with both thread and silk ribbon),

needlelace, needle weaving and tatting, as well as on patchwork and quilting. Three projects are worked completely from scratch, and even the patches themselves are created with a needle and thread. The fourth project is a traditional crazy patchwork with hand-stitched embellishments, and the fifth project combine a traditional crazy patchwork with a Jacobean embroidery panel. The book will draw in both embroiderers and quilters, and inspire them to combine their skills in new and exciting ways.

What is that lace? How old is it? Has it been made by hand or machine? What would it have been used for? These are the types of questions that this practical guide sets out to answer. Lavishly illustrated, it shows you how to identify the sort of lace that you might find hiding away in drawers and cupboards, or buy at a vintage textile fair. It deals predominantly with the hand-made and machine laces of the nineteenth and twentieth centuries. Topics covered include: an introductory survey of the different types of lace, their history and construction; guidelines for a systematic approach to lace identification and advice on cleaning and storage; chapters on the different types of lace: bobbin lace, needlelace, craft laces such as crochet and tatting, machine lace and lace based on tapes and nets. There are exercises on distinguishing similar pieces of lace made using different techniques and there are illustrations of how lace has been used and of some of the tools used in the making. Written by experienced lacemakers, Gilian Dye and Jean Leader, it presents items from their own collections to illuminate and inspire others who wish to know more about this fascinating textile. Lace Identification is a complete guide to the beauty of this stitch craft, and will richly reward all those who study the treasures they may own.
