The Lost World MEGAPACK™ explores strange lands and peoples lost from the rest of civilization -- strange continents, hidden valleys, microscopic worlds, and underground kingdoms are just the tip of the iceberg! With classic stories from well-known authors like Jules Verne, Edgar Rice Burroughs, and Arthur Conan Doyle to more recent works by Lin

Carter, Don Wilcox, Eando Binder, and many others, this is the lost world collection you've been waiting for. Even if you're a connoisseur of lost world fiction, you'll find stories here that you've never encountered before. Or if you're new to the genre, you will find this collection a treasure-trove of fantastic fiction from cover to cover! Included are: THE LOST WORLD, by Arthur Conan Doyle PEOPLE OF THE PYRAMIDS, by William P. McGivern KING SOLOMON'S MINES, by H. Rider Haggard LAND OF THE SHADOW DRAGONS, by Eando Binder JOURNEY TO THE UNDERGROUND WORLD, by Lin Carter THE MOON POOL, by A. Merritt THE METAL MONSTER, by A. Merritt A JOURNEY TO THE CENTRE OF THE EARTH, by Jules Verne THE MAN WHO

WOULD BE KING, by Rudyard Kipling THE DEVIL-TREE OF EL DORADO, by Frank Aubrey TERROR ISLAND, by Alex Shell Briscoe AT THE EARTH'S CORE, by Edgar Rice Burroughs PELLUCIDAR, by Edgar Rice Burroughs THE LAND THAT TIME FORGOT, by Edgar Rice Burroughs THE PEOPLE THAT TIME FORGOT, by Edgar Rice Burroughs OUT OF TIME'S ABYSS, by Edgar Rice Burroughs UNDER THE ANDES, by Rex Stout THE MAN WHO MEASURED THE WIND, by Harold Lamb DWELLERS OF THE DEEP, by Don Wilcox VRIL, THE POWER OF THE COMING RACE, by Edward Bulwer, Lord Lytton SYMZONIA: VOYAGE OF DISCOVERY, by Adam Seaborn A STRANGE MANUSCRIPT FOUND IN A COPPER CYLINDER, by James De Mille If you enjoy this book, search your favorite ebook store for

"Wildside Press Megapack" to see the 150+ entries in the MEGAPACK™ ebook series, covering science fiction, fantasy, horror, mysteries, westerns, classics, adventure stories, and much, much more! The MEGAPACK™ ebook series name is a trademark of Wildside Press, LLC.

This collection of 23 new essays focuses on the lives of female screenwriters of

Golden Age Hollywood, whose work helped create those unforgettable stories and characters beloved by audiences--but whose names have been left out of most film histories. The contributors trace the careers of such writers as Anita Loos, Adela Rogers St. Johns, Lillian Hellman, Gene Gauntier, Eve Unsell and Ida May Park, and explore themes of their writing in classics like *Gentlemen Prefer Blondes*, *Ben Hur*, and *It's a Wonderful Life*. The Lost World of Fossil Lake Ajay Garg

It can be tricky for some Christians to reconcile science with their faith—but it doesn't have to be. *Messages from Matter: Finding God's Word in the Fundamentals of Chemistry* shows readers that the principles of chemistry are not contrary to Christianity and

actually help us to know God, who is the originator of all science concepts. Through twenty-seven devotions, veteran science teacher Sylvia Slaughter examines God's role as chemist and how the nonliving parts of creation demonstrate his existence. Slaughter explores topics ranging from atomic theory to the periodic table to ice crystals in order to illustrate Christian concepts such as salvation, spiritual growth, witnessing, and church unity. Built on a framework of relevant Scripture, each devotion explains a chemistry concept in layman's terms and applies it directly to our lives. Understanding scientific principles and their spiritual applications not only gives us another means of exercising our faith, but arms us with a useful tool for

witnessing to non-Christians who may not be open to purely religious arguments. Messages from Matter is ideal for any member of the Christian community who wishes to learn more about chemistry and Intelligent Design or anyone who wishes to reaffirm their faith in creation.

The Lost World of Bletchley Park Good Press

Christianity Today Biblical Studies Award of Merit For centuries the story of Adam and Eve has resonated richly through the corridors of art, literature and theology. But for most moderns, taking it at face value is incongruous. And even for many thinking Christians today who want to take seriously the authority of Scripture, insisting on a "literal" understanding of Genesis 2-3 looks

painfully like a "tear here" strip between faith and science. How can Christians of good faith move forward? Who were the historical Adam and Eve? What if we've been reading Genesis—and its claims regarding material origins—wrong? In what cultural context was this couple, this garden, this tree, this serpent portrayed? Following his groundbreaking Lost World of Genesis One, John Walton explores the ancient Near Eastern context of Genesis 2-3, creating space for a faithful reading of Scripture along with full engagement with science for a new way forward in the human origins debate. As a bonus, an illuminating excursus by N. T. Wright places Adam in the implied narrative of Paul's theology. The Lost World of Adam and Eve will be required reading for anyone seeking to

understand this foundational text historically and theologically, and wondering how to view it alongside contemporary understandings of human origins. The books in the Lost World Series follow the pattern set by Bible scholar John H. Walton, bringing a fresh, close reading of the Hebrew text and knowledge of ancient Near Eastern literature to an accessible discussion of the biblical topic at hand using a series of logic-based propositions.

Great Commission Obedience MIT Press

An inspiring and groundbreaking work that brilliantly illuminates the eternal power of love and the unbreakable bond it creates. As a mother and former business executive, Bonnie McEneaney was always skeptical of the spiritual

world and all that it represents. When her husband, Eamon, died in the attacks on the World Trade Center, she thought she had lost him forever. Then Bonnie began to have experiences that convinced her that her husband, in spirit, was sending her signs—indeed messages—that he was still present and watching over his family. After talking to other families and friends of loved ones lost on 9/11, she realized she was not alone. In *Messages*, Bonnie shares the miraculous spiritual stories of numerous others connected to the tragedy while weaving in her heartfelt personal message of comfort and hope. For all who are searching for their own deeper connections, this extraordinary book is indispensable proof that love and relationships can continue . . . even after

death.

Messages from the Sea Good Press

This book examines the ideology of elite lawyers and judges from the Gilded Age

through the New Deal. Between 1866 and 1937, a coherent outlook shaped the way the American bar understood the sources of law, the role of the courts, and the relationship between law and the larger society. William M. Wiecek explores this outlook--often called "legal orthodoxy" or "classical legal thought"--which assumed that law was apolitical, determinate, objective, and neutral. American classical legal thought was forged in the heat of the social crises that punctuated the late nineteenth century. Fearing labor unions, immigrants, and working people generally, American elites, including those on the bench and bar, sought ways to repress disorder and prevent political majorities from using democratic processes to redistribute

wealth and power. Classical legal thought provided a rationale that assured the legitimacy of the extant distribution of society's resources. It enabled the legal suppression of unions and the subordination of workers to management's authority. As the twentieth-century U.S. economy grew in complexity, the antiregulatory, individualistic bias of classical legal thought became more and more distanced from reality. Brittle and dogmatic, legal ideology lost legitimacy in the eyes of both laypeople and ever-larger segments of the bar. It was at last abandoned in the "constitutional revolution of 1937", but--as Wiecek argues in this detailed analysis--nothing has arisen since to replace it as an explanation of what law is and why

courts have such broad power in a democratic society.

 The Story of Atlantis (W. Scott-Elliot)
 The lost world is a subgenre of the fantasy or science fiction genre that involves the discovery of a new world out of time or place. King Solomon's Mines by H. Rider Haggard is sometimes considered the first lost-world narrative. Haggard's novel shaped the form and influenced later lost-world books, including Kipling's The Man Who Would Be King, Arthur Conan Doyle's The Lost World, Burroughs' The Land That Time Forgot, A. Merritt's The Moon Pool, and H. P. Lovecraft's At the Mountains of Madness. James Hilton's Lost Horizon used the genre as a takeoff for popular philosophy and social comment and it

introduced the name Shangri-La, a meme for the idealization of the lost world as a paradise.

"Things are wrong between the world and God," says A.B. Simpson in *Missionary Messages*, and we are the ones to set them right. Christ has brought salvation to mankind, and those who know Him must tell this good news to a lost world. This was Simpson's urgent message. It consumed his energies. It caused him to found a worldwide missionary movement—known today as The Christian and Missionary Alliance. Early 20th-century America was stirred to

action by these words when they were first preached as sermons. Here, at last, was an advocate before the conscience of North American Christians for the lost millions around the world. And Simpson's message will still compel thoughtful readers today: Christ is the world's answer!

The Lost World and The Poison Belt
 University of Chicago Press

A resource for pastors who desire to preach boldly on missions, featuring forty messages from veteran missionary and retired International Mission Board president Jerry Rankin.

Sci-Fi Ultimate Collection: 170+ Space

In "the lost world of Bletchley Park", Sinclair McKay tells the story of the park

from its pre-war heyday, to its late 20th century resurrection to play host to both Antiques Roadshow and the Queen. With special access to the Park's archives, the 200 illustrations include many previously unseen and unauthorized photographs of Wrens and codebreakers minding machines or simply relaxing by the lake soaking up the sunshine.

The Lost World and Other Stories DigiCat

In her account of the founding, golden years, and eventual demise of the two Massachusetts villages, Thurman (history, U. of Alabama- Huntsville) augments the narrative history with discussion of how gender, family, and community functioned in them. They were founded by English-born visionary Ann Lee. She called her sect the United Society of Believers in Christ's Second

Appearing, but they were commonly known as Shakers or Believers.
