This volume provides an up-to-date, authoritative synthesis of the discipline of human geography. Unparalleled in scope, the companion offers an indispensable overview to the field, representing both historical and contemporary perspectives. Edited and written by the world's leading authorities in the discipline. Divided into three major sections: Foundations (the history of human geography from Ancient Greece to the late nineteenth century); The Classics (the roots of modern human

geography); Contemporary Approaches (current issues and themes in human geography) Each contemporary issue is examined by two contributors offering distinctive perspectives on the same theme *History of the Ecumenical Movement Association for Supervision & Curriculum Development* In ancient Athens, the great philosopher applies logic to a lethal crime—in the “eminently enjoyable” first novel in a historical mystery series (Colin Dexter, author of the Inspector Morse Mysteries). Young Stephanos is desperate to save his family's honor by proving in the Athenian court that his exiled cousin is not guilty of shooting an arrow into a prominent patrician. For help, he turns to his old teacher—the cunning and clever thinker known as Aristotle. It will all lead up to a tense public trial in which Stephanos must draw on the rhetorical skills he's learned from his eccentric, brilliant mentor, in this novel filled with suspense, humor, and historical detail—the

first in a series of “witty, elegant whodunits” (Times Literary Supplement). “[An] unusually authentic Ancient-Greece murder tale.”—Kirkus Reviews “Doody brings the Athens of 322 BC to life with skill and verve...wonderfully plotted.”—Publishers Weekly [The Cambridge Handbook of Human Dignity](#) Springer This introduction to human dignity explores the history of the notion from antiquity to the nineteenth century, and the way in which dignity is conceptualised in non-Western contexts. Building on this, it addresses a range of systematic conceptualisations, considers the theoretical and legal conditions for human dignity as a useful notion and analyses a number of philosophical and conceptual approaches to dignity. Finally, the book introduces current debates, paying particular attention to the legal implementation, human rights, justice and conflicts, medicine and bioethics, and provides an explicit systematic

framework for discussing human dignity. Adopting a wide range of perspectives and taking into account numerous cultures and contexts, this handbook is a valuable resource for students, scholars and professionals working in philosophy, law, history and theology.

"Published to unanimous acclaim in Europe and winner of Italy's prestigious Viareggio Prize for fiction, *Procedura* introduces a writer of world-class fiction." "At the end of a none too brilliant career, a judge, sent to Sardinia from the mainland, lives alone in a small town, broken relationships and partings left behind him. When a colleague suddenly dies, he is entrusted with the investigation and soon finds himself entwined in the most intimate knowledge of judge Valerio Garau's life - from his rich, orphaned childhood with its hints of scandal to the red-and-blue capsule with its grain of cyanide that one morning caused him to fall backward among the

cafe tables while joking with his mistress." "Was Garau's death suicide, mistake, or murder? His ex-wife or his mistress, his priestly uncle or his blind aunt, his colleagues or his lover's illustrious and influential husband: all of these could be suspected of wanting to free themselves of him. And who was Judge Garau? A cynic, a seducer, a liar, a naif? The investigator must reconstruct a life from the people and effects left behind: yellowed photographs of distant carnivals, archeological finds collected for who knows what passion or pretext, stolen letters, forced locks, police chiefs, homosexuals, and schoolmistresses..."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. European Society History of Schools and Schooling More and more parents-to-be all over the world are choosing the comfort and reassuring support of birth with a trained labor companion called a "doula." This warm, authoritative, and irreplaceable guide completely updates the authors' earlier book, *Mothering the Mother*,

and adds much new and important research. In addition to basic advice on finding and working with a doula, the authors show how a doula reduces the need for cesarean section, shortens the length of labor, decreases the pain medication required, and enhances bonding and breast feeding. The authors, world-renowned authorities on childbirth with combined experience of over 100 years working with laboring women, have made their book indispensable to every woman who wants the healthiest, safest, and most joyful possible birth experience.

 This book is about the Renaissance revitalization of classical drama. Using a cultural and theatrical approach, it shows how Italian playwrights made ancient tragedy relevant

to their audiences. The book challenges the traditional critical approach to the Italian Renaissance tragedy as a mere literary work, and calls attention to the complementary function of the theatrical text, which is 'reconstructed' from the stage directions embedded in the discourse of the characters.

 Many people find themselves dissatisfied with recent linguistic philosophy, and yet know that language has always mattered deeply to philosophy and must in some sense continue to do so. Ian Hacking considers here some dozen case studies in the

history of philosophy to show the different ways in which language has been important, and the consequences for the development of the subject. There are chapters on, among others, Hobbes, Berkeley, Russell, Ayer, Wittgenstein, Chomsky, Feyerabend and Davidson. Dr Hacking ends by speculating about the directions in which philosophy and the study of language seem likely to go. The book will provide students with a stimulating, broad survey of problems in the theory of meaning and the development of philosophy, particularly in this century. The topics treated in the philosophy of language are among the central, current concerns of philosophers, and the historical framework makes it possible to introduce concretely and intelligibly all the main theoretical issues.

This book reveals how school memories offer not only a tool for accessing the school of the past, but also a key to understanding what people today know (or think they know) about the school of the past. It describes, in fact, how historians' work does not purely and simply consist in exploring school as it really was, but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level. Further, it investigates the extent to which what people "know" reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with. The book includes fifteen peer-reviewed contributions that were presented and discussed during the International Symposium "School Memories. New Trends in Historical Research into Education: Heuristic Perspectives and Methodological Issues" (Seville, 22-23 September, 2015).

This book examines racial and ethnic discrimination in the labour markets and workplaces of western Europe. Scholars from ten different countries set out the experience and implications of this exclusion for two main groups: the more established second and third generations of postwar migrant descent, and the 'new' migrants, including seasonal and

undocumented workers and refugees, who are vulnerable to extreme exploitation and unregulated working environments. The book finishes by addressing the implications of these issues for trade unions and employers in Europe.

The award winning *Accabadora* is an exceptional English-language debut, written with intriguing subtlety reflecting a sensual picture of local Italian life and death in villages during the 1950's. A time where family ties and obligations still decide much of life's ebb and flow. A must read for those who love a touch of the unusual. Formerly beautiful and at one time betrothed to a fallen soldier, Bonaria Urrai has a long held covenant with the dead. Midwife to the

dying, easing their suffering and sometimes ending it, she is revered and feared in equal measure as the village's *Accabadora*. When Bonaria adopts Maria, the unloved fourth child of a widow, she tries to shield the girl from the truth about her role as an angel of mercy. Moved by the pleas of a young man crippled in an accident, she breaks her golden rule of familial consent, and in the recriminations that follow, Maria rejects her and flees Sardinia for Turin. Adrift in the big city, Maria strives as ever to find love and acceptance, but her efforts are overshadowed by the creeping knowledge of a debt unpaid, of a duty and destiny that must one day be hers. *Accabadora* has been awarded seven major literary prizes, including Italy's

prestigious Premio Campiello.

There was time when my country was the country of fairy tales, a country where every child would want to grow and play. This is the story of the author's physical and emotional journey from her war-torn homeland, Somalia. Some time after the military coup in 1969 Shirin left Mogadishu and moved to Italy to make a new life and home for herself and her family. Since then she has crossed continents and lived in several cities, facing the challenge of integrating with many different kind of society before settling in England in 2010. This book encapsulates her reflections on the Somali diaspora.
