A compassionate,
shame-free guide for
your darkest days “A
one-of-a-kind book . . .
to read for yourself or
give to a struggling

friend or loved one
without the fear that
depression and suicidal
thoughts will be
minimized, medicalized
or over-
spiritualized.”—Kay
Warren, cofounder of
Saddleback Church
What happens when
loving Jesus doesn't
cure you of depression,
anxiety, or suicidal
thoughts? You might

be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own

story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect. *Becoming Joanne* Kensington Publishing Corp.
“A grieving teen fights Asian hate by finding her voice in this complex, timely story.” —Kirkus (starred review) “With a layered, sensitive voice, Ho’s weighty novel delves into themes of racism,

classism, loss, and healing." —Publishers Weekly (starred review) "Inspired by the recent rise in hate crimes against AAPI, Ho's story of inclusion, diversity, and social action rings true. Maybelline is a multifaceted narrator whose drive to right wrongs and stand up to injustice deserves applause. Ho illuminates both activism and mental health in marginalized communities, showing that even a bright, young achiever can experience depression without anyone knowing." —Booklist "A powerful, hopeful YA debut. May's journey through personal and familial grief is poignant and questions of power and privilege are explored with nuance that will spark

conversation among teen readers." —School Library Journal "This sensitive novel does an impressive balancing act, examining mental illness and its stigma among Asian Americans while weaving in themes of racism and grief. The overarching messages—listening with empathy, and seeking help—ring loud and clear." —Horn Book Joanna Ho, New York Times bestselling author of *Eyes That Kiss in the Corners*, has written an exquisite, heart-rending debut young adult novel that will inspire all to speak truth to power. Maybelline Chen isn't the Chinese Taiwanese American daughter her mother expects her to be. May prefers hoodies over dresses and wants to become a

writer. When asked, her mom can't come up with one specific reason for why she's proud of her only daughter. May's beloved brother, Danny, on the other hand, has just been admitted to Princeton. But Danny secretly struggles with depression, and when he dies by suicide, May's world is shattered. In the aftermath, racist accusations are hurled against May's parents for putting too much "pressure" on him. May's father tells her to keep her head down. Instead, May challenges these ugly stereotypes through her writing. Yet the consequences of speaking out run much deeper than anyone could foresee. Who gets to tell our stories,

and who gets silenced? It's up to May to take back the narrative. Joanna Ho masterfully explores timely themes of mental health, racism, and classism. Joan Rivers by the person who knew her best—her daughter, Melissa. Joan and Melissa Rivers had one of the most celebrated mother-daughter relationships of all time. If you think Joan said some outrageous things to her audiences as a comedian, you won't believe what she said and did in private. Her love for her daughter knew no bounds—or boundaries, apparently. ("Melissa, I acknowledge that you have boundaries. I just choose to not respect them.") In *The Book of Joan: Tales of Mirth, Mischief and Manipulation*, Melissa shares stories (like when she was nine months old and her parents delivered her to Johnny Carson as a birthday gift), bon mots

("Missy, is there anything better than seeing a really good looking couple pushing a baby that looks like a Sasquatch who got caught in a house fire?"), and life lessons from growing up in the Rosenberg-Rivers household ("I can do tips and discounts and figure out the number of gay men in an audience to make it a good show. That's all the math you'll ever need."). These were just the tip of the iceberg when it came to life in the family that Melissa describes as more Addams than Cleaver. And at the center of it all was a tiny blond force of nature. In *The Book of Joan*, Melissa Rivers relates funny, poignant and irreverent observations, thoughts, and tales about the

woman who raised her and is the reason she considers valium one of the four basic food groups.

On September 15, 1964, ABC launched a programming experiment--a prime time series similar to the daytime soap operas that were so successful. Peyton Place became a fixture on the network's schedule for the next five years. The success of Dallas in the early 1980s made the prime time soap opera a staple of television programming. From Bare Essence through The Yellow Rose, this reference work details the successes and failures of 37 prime time serials through

1993. For each show, a lengthy history covers the character development and provides production details, and season-by-season data provide start and end of the season, time slot, comprehensive cast and credits, and an episode guide.

The Mohegan-Brothertown minister Samson Occom (1723-1792) was a prominent political and religious leader of the Indigenous peoples of present-day New York and New England, among whom he is still revered today. An

international celebrity in his day, Occom rose to fame as the first Native person to be ordained a minister in the New England colonies. In the 1770s, he helped found the nation of Brothertown, where Coastal Algonquian families seeking respite from colonialism built a new life on land given to them by the Oneida Nation. Occom was a highly productive author, probably the most prolific Native American writer prior to the late nineteenth century. Most of Occom's writings, however, have been overlooked, partly because many of them are about Christian themes that seem unrelated to Native life. In this groundbreaking book, Ryan Carr argues that Occom's writings

were deeply rooted in Indigenous traditions of hospitality, diplomacy, and openness to strangers. From Occom's point of view, evangelical Christianity was not a foreign culture; it was a new opportunity to practice his people's ancestral customs. Carr demonstrates Occom's originality as a religious thinker, showing how his commitment to Native sovereignty shaped his reading of the Bible. By emphasizing the Native sources of Occom's evangelicalism, this book offers new ways to understand the relations of Northeast Native traditions to Christianity, colonialism, and Indigenous self-determination. Critically Sovereign traces the ways in which gender is inextricably a part of Indigenous politics and U.S. and Canadian imperialism and colonialism. The contributors show how gender, sexuality, and feminism work as co-

productive forces of Native American and Indigenous sovereignty, self-determination, and epistemology. Several essays use a range of literary and legal texts to analyze the production of colonial space, the biopolitics of “Indianness,” and the collisions and collusions between queer theory and colonialism within Indigenous studies. Others address the U.S. government’s criminalization of traditional forms of Diné marriage and sexuality, the Iñupiat people’s changing conceptions of masculinity as they embrace the processes of globalization, Hawai’i’s same-sex marriage bill, and stories of Indigenous women falling in love

with non-human beings such as animals, plants, and stars. Following the politics of gender, sexuality, and feminism across these diverse historical and cultural contexts, the contributors question and reframe the thinking about Indigenous knowledge, nationhood, citizenship, history, identity, belonging, and the possibilities for a decolonial future. At times throughout history, women were persecuted for their attempts to break down traditional gender barriers. Today, women scientists and mathematicians must continue to defend the quality of their work

and demand the respect they deserve in the mathematical and scientific communities. A to Z of Women in Science and Math, Revised Edition profiles 195 women who fought against these stereotypes throughout history and all over the world to forge new discoveries and theories that would eventually change the way we view science. This thoroughly revised book updates the story of each individual to the present day and features 38 new profiles. Among the profiles included are those of chemists, astronomers, geologists, environmental scientists, and a range of other professions and careers. In addition, new

photographs have been added, and the bibliography has been updated. Subject indexes allow the reader to search by such professions as microbiology and paleontology. Additional subject indexes organize individuals by country of birth, country of major scientific activity, and year of birth.
