The Canadian Encyclopedia Hull [Québec] : Éditions E.L.V.O.

The canon of French literature has been the subject of much debate and now increasingly francophone literatures are demanding more attention in student French literature courses. The first study in English of francophone literatures, this book introduces the diverse bodies of texts in French from the numerous French-speaking areas around the world, with separate sections covering Africa, French Canada, the Creole

Islands, and Europe, and will provide students at both undergraduate and 'A' level with a comprehensive introductory survey of the subject.

Francophone literatures emerge from rich bi- and multi-lingual cultures in part as colonial legacies. They also challenge the monopoly of the French literary tradition. This introductory survey celebrates the linguistic difference of such texts and the creative possibilities offered by deviance from an established tradition, demanding new critical approaches. The texts studied here cast a new light upon French literature in terms of their diverse perspectives upon

writing, history, politics, and culture, their violent rewritings, subversive versions and parodies sometimes forming an elaborate pastiche of celebrated French texts. Guides to further reading, a select bibliography, and an extensive index combine to make the book an extremely readable introductory overview of a hitherto little explored area. Menaud, maître draveur Syracuse University Press Unique in its analysis both of literary and linguistic techniques, this text draws together extracts from novels written in French by writers from Francophone areas outside Europe, including North Africa, Black Africa, the Caribbean and North

America. Menaud, maître draveur Douglas Gibson Books In *Women and Narrative Identity* Green demonstrates that the "national text" has at times functioned to constrain women's literary expression, while in other cases it has empowered the feminine voice, endowing it with a unique identity power. She shows that writers such as Laure Conan, Germaine Guèvremont, Gabrielle Roy, Anne Hébert, and Marie-Claire Blais have been recognized as important because they have been widely perceived as speaking to and about the people of Quebec. The Quebec identity narrative has offered women writers a framework within

which they are able not only to make their voices heard but to tell a story of feminine dispossession and desire that often questions central cultural values. Green shows that while women writers in Europe and America have subtly altered the form of the novel, in Quebec women have, in rewriting the narratives of Quebec identity, also redefined the terms of the nation itself.

This edition of "The Canadian Encyclopedia is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is

UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED: the researchers and contributors worked

hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work - many years in the making, and the equivalent of forty average-sized books - is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian Home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this

volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada; in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium, in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations, this "Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future. The statistics behind this volume are staggering. The opening sixty pages list the 250 Consultants,

the roughly 4,000 Contributors (all experts in the field they describe) and the scores of researchers, editors, typesetters, proofreaders and others who contributed their skills to this massive project. The 2,640 pages incorporate over 10,000 articles and over 4,000,000 words, making it the largest - some might say the greatest - Canadian book ever published. There are, of course, many special features. These include a map of Canada, a special page comparing the key statistics of the 23 major Canadian cities, maps of our cities, a variety of tables and photographs, and finely detailed illustrations of our wildlife, not to mention the colourful,

informative endpapers. But above all the book is "encyclopedic" - which the "Canadian Oxford Dictionary describes as "embracing all branches of learning." This means that (with rare exceptions) there is satisfaction for the reader who seeks information on any Canadian subject. From the first entry "A mari usque ad mare - "from sea to sea" (which is Canada's motto, and a good description of this volume's range) to the "Zouaves (who mustered in Quebec to fight for the beleaguered Papacy) there is the required summary of information, clearly and accurately presented. For the browser the constant variety of entries and the lure of regular

cross-references will provide hours of fascination. The word "encyclopedia" derives from Greek expressions alluding to a grand "circle of knowledge." Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known. Yet now Canada's finest scientists, academics and specialists have distilled their knowledge of our country between the covers of one volume. The result is a book for every Canadian who values learning, and values Canada. The New Land The Canadian Encyclopedia "New offers an unconventionally structured overview of Canadian literature, from Native American

mythologies to contemporary texts." Publishers Weekly A History of Canadian Literature looks at the work of writers and the social and cultural contexts that helped shape their preoccupations and direct their choice of literary form. W.H. New explains how - from early records of oral tales to the writing strategies of the early twenty-first century - writer, reader, literature, and society are interrelated. New discusses both Aboriginal and European mythologies, looking at pre-Contact narratives and also at the way Contact experience altered hierarchies of literary value. He then considers representations of the "real," whether in

documentary, fantasy, or satire; historical romance and the social construction of Nature and State; and ironic subversions of power, the politics of cultural form, and the relevance of the media to a representation of community standard and individual voice. New suggests some ways in which writers of the later twentieth century codified such issues as history, gender, ethnicity, and literary technique itself. In this second edition, he adds a lengthy chapter that considers how writers at the turn of the twenty-first century have reimagined their society and their roles within it, and an expanded chronology and bibliography. Some of these writers have spoken from and

about various social margins (dealing with issues of race, status, ethnicity, and sexuality), some have sought emotional understanding through strategies of history and memory, some have addressed environmental concerns, and some have reconstructed the world by writing across genres and across different media. All genres are represented, with examples chosen primarily, but not exclusively, from anglophone and francophone texts. A chronology, plates, and a series of tables supplement the commentary. Préface d'intérêt moyen. Les Editions Fides This unique study explores how Quebec's landscapes have been represented in both literature and visual art throughout the centuries, from the writing of early explorers such as Cartier and Champlain to work by prominent contemporary authors and artists from the province. William J. Berg traces recurrent images and themes within these creations through the most significant periods in the development of a Quebecois identity that

was threatened initially by the wilderness and indigenous populations, and later by the dominance of British and American influences. Focusing on the interplay between nature and culture in landscape representation, *Literature and Painting in Quebec* contends that both have reflected and fashioned the meaning of French-Canadian nationhood. As such, *Literature and Painting in Quebec* presents a new perspective to approach the notion of national identity, a quest that few groups have engaged in more persistently than the Quebecois. *L'acropole des Draveurs* OUP Oxford Provides the first history of the North American farm novel, a

genre which includes John Steinbeck's *The Grapes of Wrath*, Sheila Watson's *The Double Hook*, and Louis Hémon's *Maria Chapdelaine*. Concordance synoptique de Menaud, maître-draveur de Félix-Antoine Savard Menaud, maître-draveur Menaud Menaud d maitre-draveur Menaud, maître-draveur Every June the city of Lowell, Massachusetts, celebrates Franco-American Day, raising the Franco-American flag and hosting events designed to commemorate French culture in the Americas. Though there are twenty million French speakers and people of French or francophone descent in North America, making them

the fifth-largest ethnic group in the United States, their cultural legacy has remained nearly invisible. Events like Franco-American Day, however, attest to French ethnic permanence on the American topography. In *Franco-America in the Making*, Jonathan K. Gosnell examines the manifestation and persistence of hybrid Franco-American literary, musical, culinary, and media cultures in North America, especially New England and southern Louisiana. To shed light on the French cultural legacy in North America long after the formal end of the French empire in the mid-eighteenth century, Gosnell seeks out hidden French or "Franco" identities and sites of memory in the

United States and Canada that quietly proclaim an intercontinental French presence, examining institutions of higher learning, literature, folklore, newspapers, women's organizations, and churches. This study situates Franco-American cultures within the new and evolving field of postcolonial Francophone studies by exploring the story of the peoples and ideas contributing to the evolution and articulation of a Franco-American cultural identity in the New World. Gosnell asks what it means to be French, not simply in America but of America. Geo/ographies McGill-Queen's Press - MQUP *A Certain Difficulty of Being* provides an

English-speaking audience with an account of some of the most interesting narrative problems which mark the development of the Quebec novel. Anthony Purdy uses the tools of contemporary narratology to go beyond the more formal studies of the sixties and seventies. Why, he asks, are the narrators of the novels he studies telling the stories they tell, and why do they experience such difficulty in doing so ? Menaud Wilfrid Laurier Univ. The essays in this volume were originally presented at a workshop held at the University of Calgary on August 1-5, 1977 and sponsored by the Calgary Institute for the Humanities. The phrase "the new land" underwent careful scrutiny and reassessment during the course of the conference, and the insights that resulted from the readings and discussions were of considerable value to participants and observers alike. Chronologically and thematically the essays cover a wide range:

from La Nouvelle France as seen by the early missionaries and by the French Romantic writer Chateaubriand to variations on the new land theme in present-day Québec; from the Prairies as seen by an early homesteader-novelist from France, Constantin-Weyer, to the Manitoba of Gabrielle Roy, which in turn is contrasted to the Nebraska of Willa Cather; from a historical recreation of the Saskatchewan landscape and history by a gifted contemporary novelist Rudy Wiebe, to a paradisaical celebration of British Columbia reflected in the later works of Malcolm Lowry. What emerged from all of this, among other things, was the articulation of a

mythology about the new land that was far more complex and expansive than the one derived originally through an old-world perspective.

The development of literature in Canada with an eye to its multicultural, multiethnic, multilingual nature. From modest colonial beginnings, literature in Canada has arrived at the center stage of world literature. Works by English-Canadian writers -- both established writers such as Margaret Atwood and new talents such as Yann Martel -- make regular appearances on international bestseller

lists. French-Canadian literature has also found its own voice in the North American and francophone worlds. "CanLit" has likewise developed into a staple of academic interest, pursued in Canadian Studies programs in Canada and around the world. This volume draws on the expertise of scholars from Canada, Germany, Austria, and France, tracing Canadian literature from the indigenous oral tradition to the development of English-Canadian and French-Canadian literature since colonial times. Conceiving of Canada as a single but multifaceted culture, it accounts for specific characteristics of English- and French-Canadian literatures, such as the vital role of

the short story in English Canada or that of the chanson in French Canada. Yet special attention is also paid to Aboriginal literature and to the pronounced transcultural, ethnically diverse character of much contemporary Canadian literature, thus moving clearly beyond the traditions of the two founding nations. The model leaders to be admired were good Catholic dictators like Mussolini, Salazar in Portugal, Franco in Spain, and especially Pétain, collaborator with the Nazis in Vichy France. There were even demonstrations against Jews who were demonstrating against

the Nazis' actions in Germany. Trudeau, far from being the rebel that other biographers have claimed, embraced this ideology. At his elite school, Brébeuf, he was a model student, the editor of the school magazine, and admired by the staff and his fellow students. But the fascist ideas and the people he admired—even when the war was going on, as late as 1944—included extremists so terrible that at the war's end they were shot. And then there's his manifesto and his plan to stage a revolution against les Anglais. This is astonishing material—and it's all demonstrably

true—based on Trudeau's personal papers that the authors were allowed to access after his death. What they have found has astounded and distressed them, but they both agree that the truth must be published. Translated by William Johnson, this explosive book is a key part of Canadian political history.
