distributed
SQL query
engine. With
this practical
guide, you'll

learn how to conduct analytics on data where it lives, whether it's Hive, Cassandra, a relational database, or a proprietary data store. Analysts, software engineers, and production engineers will learn how to manage, use, and even develop with Trino. Initially developed by Facebook, open source Trino is now used by Netflix, Airbnb, LinkedIn, Twitter, Uber, and many

other companies. Matt Fuller, Manfred Moser, and Martin Traverso show you how a single Trino query can combine data from multiple sources to allow for analytics across your entire organization. Get started: Explore Trino's use cases and learn about tools that will help you connect to Trino and query data Go deeper: Learn Trino's internal workings, including how

to connect to and query data sources with support for SQL statements, operators, functions, and more Put Trino in production: Secure Trino, monitor workloads, tune queries, and connect more applications; learn how other organizations apply Trino **Guide to Chicago's Twenty-First-Century Architecture** Assouline Publishing A comprehensive guide to

Frank Lloyd Wright-designed buildings open to the public—with travel itineraries and information on seventy-four sites. Frank Lloyd Wright's groundbreaking designs, innovative construction techniques, and inviting interiors continue to astound and inspire generations of architects and design aficionados. Covering all the publicly accessible sites across the United States—plus

four in Japan—Wright Sites describes the design ideas and history behind each building. The volume also includes suggested destination itineraries for Wright road trips, a list of archives, and a selected bibliography. This revised edition features twenty sites newly opened to the public, up to date descriptions and access information, and new color photographs of each site. The

introduction is written by Jack Quinan, a founding member of the Frank Lloyd Wright Building Conservancy and author of Frank Lloyd Wright's Martin House. [Los Angeles](#) McGraw-Hill Companies More than 250 biographies of architects who were born or worked for a significant time in Minnesota, featuring the architect's era of work, educational and professional experience, and

descriptions of his or her most notable buildings. Buffalo Architecture Yale University Press The definitive architecture travel guide that lets you visit 1,000 of today's most must-see contemporary buildings - whether at home or on the road Featuring 1,000 of today's most compelling buildings by the world's finest architects, Destination: Architecture is an unparalleled and comprehensive resource for anyone wanting to get more out of their travels. No journey, from a long weekend to a long-haul trip, would be complete without this expertly curated 'who's who' of the most exciting architecture in the world. Each building is illustrated with a single image and accompanied by a brief description, with addresses, websites, and opening details. It's the best way to find and enjoy contemporary built culture on every continent. *The City Observed, Los Angeles* Rizzoli Publications In 1896, Otto Wagner's "Modern Architecture" shocked the European architectural community with its impassioned plea for an end to eclecticism and for a "modern" style suited to contemporary needs and ideals, utilizing the

nascent constructional technologies and materials. Through the combined forces of his polemical, pedagogical, and professional efforts, this determined, newly appointed professor at the Vienna Academy of Fine Arts emerged in the late 1890s - along with such contemporaries as Charles Rennie Mackintosh in Glasgow and Louis Sullivan in Chicago - as one of the leaders of the

revolution soon to be identified as the "Modern Movement." Wagner's historic manifesto is now presented in a new English translation - the first in almost ninety years - based on the expanded 1902 text and noting emendations made to the 1896, 1898, and 1914 editions. In his introduction, Dr. Harry Mallgrave examines Wagner's tract against the backdrop of nineteenth-

century theory, critically exploring the affinities of Wagner's revolutionary élan with the German eclectic debate of the 1840s, the materialistic tendencies of the 1870s and 1880s, and the emerging cultural ideology of modernity. Modern Architecture is one of those rare works in the literature of architecture that not only proclaimed the dawning of a new era, but also perspicaciously

y and cogently shaped the issues and the course of its development; it defined less the personal aspirations of one individual and more the collective hopes and dreams of a generation facing the sanguine promise of a new century

and corporate politics, making some web sites look like a fast-growing but poorly planned city - roads everywhere, but impossible to navigate. A well-planned information architecture has never been as essential as it is now. Information Architecture for the World Wide Web, Second Edition, shows how to use both aesthetics and mechanics to create distinctive, cohesive web

sites that work. Most books on web development concentrate either on the graphics or on the technical issues of a site. This book focuses on the framework that holds the two together. By applying the principles outlined in this completely updated classic, you'll build scalable and maintainable web sites that are easier to navigate and more appealing to your users. Using examples and

case studies, Information Architecture for the World Wide Web will help you: Develop a strong, cohesive vision for your site that makes it both distinctive and usable; Organize your site's hierarchy in ways that are meaningful to its users and that minimize the need to re-engineer the site; Create navigation systems that allow users to move through the site without getting lost or

frustrated;
 Accurately
 label your
 site's content;

chair or plan a detailed and engaging art itinerary for your next trip with Destination Art, the essential guide to 500 must-see examples of permanently installed art from the last 100 years. With the book's geographical organization and logistical details - including GPS coordinates, addresses, websites, and symbols indicating the degree of possible access, travel planning is

made easy. Discover hidden gems in big cities, explore art in nature, and trek to remote locales for one-of-a-kind experiences of art in unique locations. The artists featured in this global selection are among the world's best and most beloved from the past century, including Marina Abramović, Alexander Calder, Jenny Holzer, Yayoi Kusama, Henri Matisse, Henry Moore, Richard Serra,

and many more. Highlighting the best and most significant of public art in city centers, sculpture parks, site-specific installations in museums, memorials designed by contemporary artists, works of land art, and much more, Destination Art is an informative and enjoyable overview of the most significant and travel-worthy art around the globe. From the publisher of Destination

<p>Architecture. <u>Katsura</u> University of Arizona Press Mongolia is landlocked between its neighbors China and Russia in the heart of Asia. For centuries after the disintegration of Genghis Khan's empire it was ruled by one or the other, but in 1990 the Mongols embraced democracy. Now, after two centuries of Manchu stagnation and seventy years of Soviet communism, they are</p>	<p>rebuilding their national heritage. Rarely in the news but making progress toward a market economy, this resource-rich but infrastructure- poor country is a land of pioneers, and its greatest asset is the Mongol people, who are friendly, cooperative, ambitious, and well educated. English is now the first foreign language and the country's leaders are forging new</p>	<p>partnerships with international investors. Travelers from across the world are drawn to the "land of blue sky" by its picturesque mountains and lakes, flower- carpeted steppes and stony deserts, home to the snow leopard, the wild horse and camel, and the Gobi bear. The broad pasturelands, with herds of grazing livestock, and the traditional lifestyle of the nomads contrast with</p>
--	--	--

the busy streets of the capital Ulan Bator, a bustling metropolis of over one million people, modern hotels, apartments, and shops, interspersed with Buddhist monasteries and temples, surrounded by crowded suburbs of traditional felt tents. Mongolia's many attractions range from dinosaur skeletons and the remains of ancient civilizations to relics and reenactments

of the Genghis Khan era, and the traditional sports of wrestling, archery, and horse-racing. Culture Smart! Mongolia provides rare insights into contemporary Mongolian society, and offers practical tips on what to expect and how to conduct yourself in order to get the most out of your visit. Despite the undeniable challenges posed by modernity, these warm, tough, adaptable,

and hospitable people welcome visitors and are open to the world. Atlas of Brutalist Architecture Phaidon Press New York is a city for lovers: In Love in New York guides the reader to the most romantic sights and destinations the city has to offer. Whether you want to watch the sun rise over the East River like Woody and Diane or enjoy a Cary Grant/Deborah Kerr moment at the top of the

Empire State Building, there is no greater city than New York for couples in love. The book begins with "first impressions," the iconic New York sights that never fail to dazzle: the skyline (and the best places to view it), the most beautiful blocks and neighborhoods, the famous views (rooftops, bridges, riverside parks). Chapters follow on great date ideas, including

destination museums and unusual "dinner-and-a-movie/theater" combinations. For readers ready to commit, the authors detail the best proposal spots; where to go ring shopping; the coolest places to register for gifts; and information about the legal requirements for marrying in the city (gay and straight), including a rundown on the classic City Hall wedding—with

the best places to buy flowers and to celebrate afterwards, naturally. There are also ideas for planning honeymoons and anniversaries. Throughout, sidebars offer romantic options such as wonderful bars with fireplaces, the prettiest park benches, great New York literary and film affairs to inspire your visit, and romantic day trips within and near the five boroughs. From

champagne on the Peninsula rooftop in midtown to ice skating in Bryant Park, In Love in New York is the perfect gift for any couple dreaming of experiencing the romance of New York. [A Guide to the 101 Most Popular Tourist Destinations](#) Phaidon Press The Brutalist aesthetic is enjoying a renaissance - and this book documents Brutalism as never before. In the most wide-ranging investigation

ever undertaken into one of architecture's most powerful movements, more than 850 Brutalist buildings - existing and demolished, classic and contemporary - are organized geographically into nine continental regions. Much-loved masterpieces in the UK and USA sit alongside lesser-known examples in Europe, Asia, Australia, and beyond - 102 countries in all, proving that Brutalism

was, and continues to be, a truly international architectural phenomenon. *Black: Architecture in Monochrome* "O'Reilly Media, Inc." The definitive guide to these gorgeous and dramatic sites. Relax on broad Pacific beaches surrounding the surf town of San Juan del Sur. Dine amidst Spanish Colonial Granada's elegant architecture. Explore dramatic Ometepe Island. This

comprehensive guide covers it all, from nightlife in sultry Managua, Nicaragua's underrated capital, to national parks protecting pristine crater lakes, fuming volcanoes, cool cloud forests, and sea turtle nesting grounds. A Guide to Tucson Architecture Mahesh Dutt Sharma It's often said that a good book takes us somewhere we've never been before, and here's the proof: a book-

lover's Baedeker to more than 500 literary locales across the United States and Europe. Novel Destinations invites readers to follow in the footsteps of much-loved authors, discover the scenes that sparked their imaginations, glimpse the lives they led, and share a bit of the experiences they transformed so eloquently into print. If you're looking to indulge in literary adventure,

you'll find all the inspiration and information you need here, along with behind-the-scenes stories such as these: After Ernest Hemingway survived two near-fatal plane crashes during an African safari, he perused his obituaries and sipped champagne on a canal-side terrace in Venice. Washington Irving's wisteria-draped cottage in the Hudson Valley was once occupied by

members of the Van Tassel family, immortalized in The Legend of Sleepy Hollow. A mysterious incident at a stone tower near Dublin made such a vivid impression on James Joyce that he drew on it for the opening scene of Ulysses. Sir Arthur Conan Doyle consulted on the mystery of Agatha Christie's 1926 disappearance before she resurfaced under an assumed name in

northern England. Nathaniel Hawthorne's The House of the Seven Gables was inspired by a seaside manse in Salem, Massachusetts, infamous witch trials in which his ancestor played a role. *Postmodern Architecture* Getty Publications Here is the essential how-to guide for communicating scientific research and discoveries online, ideal for journalists, researchers, and public

information officers looking to reach a wide lay audience. Drawing on the cumulative experience of twenty-seven of the greatest minds in scientific communication, this invaluable handbook targets the specific questions and concerns of the scientific community, offering help in a wide range of digital areas, including blogging, creating podcasts, tweeting, and

more. With step-by-step guidance and one-stop expertise, this is the book every scientist, science writer, and practitioner needs to approach the Wild West of the Web with knowledge and confidence. Wright Sites The Monacelli Press, LLC The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large

cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow

Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. Modern Architecture Yale University Press Venetian art connoisseur, interior designer, and

hotelier Francesca Bortolotto Possati knows the intricacies of Venice. To have her as a guide is to experience firsthand her passion for the private side of the mythic city whose daily visitors outnumber its population. Join her to visit artists' studios, elegant Venetian friends, and palaces' secrets. Everywhere one wanders, a sense of history saturates the buildings and

landscapes, harking back to the artists of the Renaissance and the chic masquerade balls of centuries past. The discerning eye of photographer Robyn Lea makes this book a revelation of the Venice of dreams, which will surely allow readers to see this iconic destination through new eyes. A sentimental foreword by Jeremy Irons perfectly complements this stunning

volume. *Destination Architecture* Broadway Tucson is a city rich in architectural heritage spanning three cultures, with a history of human settlement that makes it one of the oldest continually inhabited cities in the United States. Hispanic barrios, American architectural forms, and remnants of a prehistoric Native American past give Tucson a unique and eclectic

identity unlike any other city. This book is a comprehensive, richly illustrated guide to Tucson's significant historic and contemporary architectural resources—not only buildings, but ruins, open spaces, landscapes, and other elements that define the city's built environment. It captures all facets of Tucson's architecture, from one-of-a-kind homes on Main Avenue and historic downtown

buildings to destination resorts in the Catalina Foothills and other modern structures. In this book readers will find: - walking and driving tours of fourteen areas, complete with maps, beginning with central neighborhoods such as Barrio Historico and Armory Park and moving on to the rapidly expanding outlying areas - annotated descriptions of individual structures—re-

sidences, schools, churches, government buildings, offices, commercial establishments, and others—enhanced by more than 120 photographs - profiles of prominent Tucson architects, including Henry Trost, Josias Joesler, and Judith Chafee - a guide to architectural styles found in Tucson—with examples—and a glossary of terms. A Guide to Tucson Architecture is

the only book to offer such an extensive guided tour of one of America's favorite destination cities, capturing both its historic character and its dynamic growth. Through it, readers will appreciate the holistic balance of influences that has created Tucson's unique architectural expression and that defines its modern identity.
