Revista portuguesa de filosofia Grupo Planeta (GBS)

Modern Brazilian Portuguese Grammar Workbook is an innovative book of exercises and language tasks for all learners of Brazilian Portuguese, ideal for use alongside the Modern Brazilian Portuguese Grammar or as an independent resource. The book is divided into two sections. Part A provides exercises based on essential grammatical structures whilst Part B practises everyday functions, including making social contact, asking questions and expressing needs. This third edition offers a greater variety of exercises, including exercises designed to practice concepts introduced in the "Notes for Spanish Speakers" sections of the Grammar. Exercises from the second edition have also been revised and expanded upon and a comprehensive answer key at the back of the book enables you to check on your progress. The Modern Brazilian Portuguese Grammar Workbook is ideal for all learners who have a basic knowledge of Brazilian Portuguese, including undergraduates taking Brazilian Portuguese as a major or minor part of their studies, as well as intermediate and advanced school, adult education and self-study students.

Lingüística Misionera II Simon and Schuster

A practical reference guide to the most important aspects of modern European and Brazilian Portuguese, it presents a fresh and accessible description of the language combining and function-based grammar.

Actas del Congreso Internacional de Historiografía Lingüística Walter de Gruyter GmbH & Co KG

This manual is the first comprehensive account of Brazilian Portuguese linguistics written in English, offering not only linguists but also historians and social scientists new insights gained from the intensive research carried out over the last decades on the linguistic reality of this vast territory. In the 20 overview chapters, internationally renowned experts give detailed yet concise information on a wide range of language-internal as well as external synchronic and diachronic topics. Most of this information is the fruit of large-scale language documentation and description projects, such as the project on the linguistic norm of educated speakers (NURC), the project "Grammar of spoken Portuguese", and the project "Towards a History of Brazilian Portuguese" (PHPB), among others. Further chapters of high contemporary interest and relevance include the study of linguistic policies and psycholinguistics. The manual offers theoretical insights of general interest, not least since many chapters present the linguistic data in the light of a combination of formal, functional, generative and sociolinguistic approaches. This rather unique feature of the volume is achieved by the double authorship of some of the relevant chapters, thus bringing together and synthesizing different perspectives.

Gramática del castellano antiguo Universidad de Salamanca

The Routledge Handbook of Portuguese Phonology provides an up-to-date description of the

Portuguese phonological system, including a thorough account of the fundamental concepts, data, and previous explanations, as well as the status quaestionis, directions for future research, and further reading. Divided into five parts with contributions from leading international scholars and rising stars, the book's 23 chapters provide a thorough account of the Portuguese sound system and a range of perspectives on Portuguese phonology. This is the most comprehensive volume on Portuguese phonology written in English, and it delves into the most pressing issues and challenges regarding a wide variety of topics, such as segmental and suprasegmental phenomena; aspects concerning the interfaces between phonology and other linguistic domains; and issues on synchronic variation, diachronic change, acquisition, and the teaching of Portuguese speech prosody to non-native learners. This in-depth resource will be invaluable for researchers and advanced students of Portuguese language and linguistics, as well as those interested in phonology and linguistics more broadly.

Modern Brazilian Portuguese Grammar Workbook Walter de Gruyter GmbH & Co KG

Fonética y pronunciación. Formación de género y número. Formas y usos de los distintos elementos de la oración: sustantivos, adjetivos, verbos, pronombres, determinantes, preposiciones y conjunciones. Estructura sintáctica de la oración. Modelos de conjugación de verbos regulares e irregulares. Normas de acentuación y puntuación. Ejemplos de uso extraídos del portugués de hoy. Glosario de términos gramaticales.

Linguistic Corpora and Big Data in Spanish and Portuguese Parkstone International

The fun and easy way to take your Italian language skills to the next level The tips, techniques, and information presented here give students, travelers, and businesspeople a primer on how to speak Italian. Complete with updates, a bonus CD, and the traditional For Dummies user-friendly format, this new edition of Italian For Dummies gives you reliable lessons, practice, and language learning techniques for speaking Italian with ease and confidence. Plus, you'll get a fully updated and expanded audio CD that includes real-life conversations; a refreshed and expanded mini-dictionary; more useful exercises and practice opportunities; and more. Builds on your skills and ability as you learn Covers the grammar, verb tenses, and conjugations you need to know Includes a mini-dictionary Audio CD includes real-life conversations If you're looking to reach a comfort level in conversational Italian, Italian For Dummies gets you comfortably speaking this Romantic language like a native.

Portuguese John Wiley & Sons

The present volume presents a selection of the revised and peer-reviewed proceedings articles of the 50th Linguistic Symposium on Romance Languages (LSRL 50) which was hosted virtually by the faculty and students from the University of Texas at Austin. With contributions from rising and senior scholars from Europe and the Americas, the volume demonstrates the breadth of research in contemporary Romance linguistics with articles that apply corpus-based and laboratory methods, as well as theory, to explore the structure, use, and development of the Romance languages. The

articles cover a wide range of fields including morphosyntax, semantics, language variation and change, sociophonetics, historical linguistics, language acquisition, and computational linguistics. In an introductory article, the editors document the sudden transition of LSRL 50 to a virtual format and acknowledge those who helped them to ensure the continuity of this annual scholarly meeting.

Gramática del poema del Cid Routledge
Quick! What's the most widely spoken language in South America? That's right, Portuguese! And what's the fastest, easiest, most enjoyable way to learn Portuguese? Portuguese for Dummies, of course! Lexicografía hispánica / The Routledge Handbook of Spanish Lexicography John Wiley & Sons
This is the first collection of articles devoted entirely to less translated languages, a term that brings together well-known, widely used languages such as Arabic or Chinese, and long-neglected minority languages — with power as the key word at play. It starts with some views on English, the dominant language in Translation as elsewhere, considers the role of translation for minority languages — both a source of inequality and a means to overcome it —, takes a look at translation from less translated major languages and cultures, and ends up with a closer look at translation into Catalan, a paradigmatic case of less translated language, in a final section that includes a vindication of six prominent Catalan translators. Combining sound theoretical insight and accurate analysis of relevant case studies, the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies.

Pronomes de tratamento do português do século XVI EDITUM

Barron's 501 Portuguese Verbs teaches you how to use the 501 most common and useful Portuguese verbs. Fluency starts with knowledge of verbs, and the authors provide clear, easy-to-use guidance. Each verb is listed alphabetically in easy-to-follow chart form—one verb per page with its English translation. This comprehensive guide to is ideal for students, travelers, and adult learners. It includes: Conjugations in all persons and tenses, both active and passive A bilingual list of more than 1,250 additional Portuguese verbs Helpful expressions and idioms for travelers Verb drills and short practice sets with clear explanations Review of reflexive verb usage, object pronouns, passive voice, the progressive tense, and irregular past participle

Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español (BICRES V) Psychology Press

When the first European missionaries arrived on other continents, it was decided that the indigenous languages would be used as the means of christianization. There emerged the need to produce

grammars and dictionaries of those languages. The study of this linguistic material has so far not received sufficient attention in the field of linguistic historiography. This volume is the first published collection of papers on missionary linguistics world-wide; it represents the insights of recent research, containing an introduction and papers on methodology, meta-historiography, the historical and cultural background. The book contains studies about early-modern linguistic works written in Spanish, Portuguese, English and French, describing among others indigenous languages from North America and Australia, Maya, Quechua, Xhosa, Japanese, Kapampangan, and Visaya. Topics dealt with include: innovations of individual missionaries in lexicography, grammatical analysis, phonology, morphology, or syntax; creativity in descriptive techniques; differences and/or similarities of works from different continents, and different religious backgrounds (Catholic or Protestant).

Boletín bibliográfico del Centro Germano-Español e Instituto Iberoamericano, Berlín Routledge

In recent decades, corpus linguistics has experienced tremendous development in the Hispanic world, along two opposite but complementary approaches: increase in corpus size (corpus linguistics as Big Data) and improvement in document selection and data annotation (corpus linguistics as High Quality Data). The first approach has led to the creation of massive corpora such as EsTenTen; at the same time, it has promoted the use of the web and social networks as corpora. The second perspective gives rise to specialized corpora such as Post Scriptum or Oralia Diacrónica del español (ODE). The contributions gathered in this volume combine both methods in order to exploit their advantages and to overcome their possible limitations. On the one hand, it addresses the creation and design of small corpora focused on data quality; on the other hand, it offers case studies that make use of both specialized corpora and massive data extracted from the web. Highlighting the complementary nature of both methods is the main idea of this book.

Language Variation--European Perspectives Routledge

Gramática española: Variación social presenta conceptos gramaticales claves de la lengua española a los alumnos intermedios y avanzados de una manera que enfatiza las conexiones entre lo social y lo lingüístico. Esta segunda edición ofrece varios puntos de gramática nuevos y sugerencias de lecturas adicionales. Otro componente nuevo de esta edición es el sitio web que incluye actividades y ejercicios que cubren los temas principales del libro de texto. El sitio web también provee amplias oportunidades para practicar las estructuras gramaticales. Este libro de texto, que está escrito en español, ofrece un repaso de la gramática a través de una presentación de variantes comunes alrededor del mundo hispanohablante, seguida por una explicación de las razones sociohistóricas por las cuales algunas variedades llegan a ser consideradas prestigiosas mientras otras no lo son. Utilizando el habla natural a partir de datos de corpora, Gramática española examina múltiples rasgos gramaticales que varían según factores como el lugar, el grupo social y el contexto. Los estudiantes aprenden la terminología especializada para que puedan identificar categorías y construcciones gramaticales, acabando con una visión clara de cómo los factores sociolingüísticos influyen en la gramática del español. El libro está diseñado para estudiantes del nivel B1 o más avanzado en el Common European Framework for Languages y del nivel intermedio-alto al nivel avanzado-alto de la escala de competencia de ACTFL. Gramática española: Variación social

introduces key grammatical concepts in the Spanish language to intermediate and advanced level learners in a way that emphasizes the connections between the social and the linguistic. This second edition offers several new grammar points and suggestions for further reading. A brand-new component of this edition is its accompanying website featuring extensive activities and exercises covering all the main topics in the textbook. The website also provides comprehensive practice with grammatical structures. Written in Spanish, the textbook offers a review of Spanish grammar by presenting documented variants of linguistic features in the speech of Spanish speakers and underlining the sociohistorical reasons why some varieties come to be considered prestigious while others are not. Using naturally occurring speech from data in research corpora, Gramática española examines multiple grammatical features that vary depending on factors such as place, social group, and situation. Students are introduced to specialized terminology that gives them the ability to identify categories and grammatical constructions, providing them with an in-depth understanding of how sociolinguistic factors influence Spanish grammar. This unique textbook is designed for students at level B1 or higher on the Common European Framework for Languages, and Intermediate High to Advanced High on the ACTFL proficiency scale.

501 Portuguese Verbs Universidad de Sevilla

Since the publication of the still very valuable Biblioteca histórica de la filología by Cipriano Muñoz y Manzano, conde de la Viñaza (Madrid, 1893), our knowledge of the history of the study of the Spanish language has grown considerably, and most manuscript and secondary sources had never been tapped before Hans-Josef Niederehe of the University of Trier courageously undertook the task to bring together any available bibliographical information together with much more recent research findings, scattered in libraries, journals and other places. The resulting Bibliografía cronológica de la lingüística, la gramática y la lexicografía del español: Desde los principios hasta el año 1600 (BICRES) began appearing in 1994. BICRES I covered the period from the early beginnings to 1600), followed by BICRES II (1601-1700), BICRES III (1701-1800), and together with Miguel Ángel Esparza Torres of Madrid there followed BICRES IV (1801 to 1860). Now, the fifth volume, has become available, covering the years from 1861 to 1899. Access to the bibliographical information of altogether 5,272 titles is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index. More than twenty years of research in the major libraries of Spain and other European countries have gone into this unique work — relative sources of the Americas have also been covered — making it exhaustive source for any serious scholar of any possible aspect of the Spanish language.

Ediciones AKAL

The Handbook of Language Contact offers systematic coverage of the major issues in this field – ranging from the value of contact explanations in linguistics, to the impact of immigration, to dialectology – combining new research from a team of globally renowned scholars, with case studies of numerous languages. An authoritative reference work exploring the major issues in the field of

language contact: the study of how language changes when speakers of distinct speech varieties interact Brings together 40 specially-commissioned essays by an international team of scholars Examines language contact in societies which have significant immigration populations, and includes a fascinating cross-section of case studies drawing on languages across the world Accessibly structured into sections exploring the place of contact studies within linguistics as a whole; the value of contact studies for research into language change; and language contact in the context of work on language and society Explores a broad range of topics, making it an excellent resource for both faculty and students across a variety of fields within linguistics

El funcionalismo en la teoría lingüística: la Gramática del Papel y la Referencia Taylor & Francis

Contextos: Curso Intermediário de Português is an engaging and motivating course that takes learners from the intermediate to advanced level. The course allows students to systematically practise all four language skills as well as develop intercultural awareness. Each unit contains clear learning objectives linked to recognised standards as well as self-assessment checklists and review plans. This supports students to become autonomous learners by tracking their own progress and focusing on specific areas of difficulty. A companion website provides an interactive workbook with additional grammar and vocabulary practice to reinforce those within the book, as well as the audio to accompany the course. The course takes learners from the intermediate-low to advanced-low according to the ACTFL proficiency guidelines and from A2 to B2 according to the CEFR.

A half century of Romance linguistics: Selected proceedings of the 50th Linguistic Symposium on Romance Languages Language Science Press

Nowadays thousands of grammar books, textbooks, outlines, references and language guides of Spanish, Portuguese, Italian and French are published year by year. However, all of them teach these languages separately. Here you will find a comparative grammar of the four major Romance languages together based on their grammatical and lexical similarities for you, lovers of foreign languages, to learn and compare Spanish, Portuguese, Italian and French simultaneously. It is an audacious endeavor to find or create a novel way of learning to speak several languages and becoming a multilingual person. It took me over 3 years to finish the book. It consists of over 800 pages, 10 chapters covering all the grammatical aspects of these 4 languages. It includes over 1000 examples, 500 easy-to-follow charts and tables. It contains 138 geographical, historical and cultural facts about Spanish, Portuguese, Italian and French countries. Below I will discuss several reasons why I decided to write this book and why you need it. 1) First of all, this book is written for readers like you who are fond of or would like to learn Spanish, Portuguese, Italian and French simultaneously or just to get an all-round knowledge of all these four Romance languages. It is designed not only for beginners who do not have an extensive knowledge of grammar, yet need a guide through the grammatical concepts of all mentioned above languages, but also intermediate and advanced students who would like to have a reference book of several Romance languages at once. 2) Second of all I spent many years learning these languages separately, which was a complete waste of time before I realized it. This book will hopefully save you a great deal of time and allow you to study and compare at a glance the four main Neo-Latin languages. 3) Knowledge of foreign languages is fast becoming a necessary requirement for those who are involved in international business, tourism, culture and education. This book offers you four languages to learn, which will

make you feel at homewherever you go, whether as a tourist or businessman.4) Learning several languages simultaneously or one by one will train and strengthen your memory and can help stave off such terrible diseases as Alzheimer's.5) If you have never studied several languages at once

before and you like challenges, then you should definitely try it. Because it is a really entertaining and challenging task to do. In conclusion, I would like to sincerely thank you for preordering the book and your interest in it. I hope it will help you improve your languages and become multilingual.
