 This book examines the social costs incurred by the use of computerized information

recordkeeping systems in criminal justice agencies. Also addressed is the interaction between technology and politics in other relevant areas of policymaking.

[Report](#) Arlington, Va. : Information Resources Press

This work is concerned with the business practices and policies which have produced Britain's much-criticised owner-managers and managers since the 1890s, and the efforts that have been made, and which continue to be made, to reform the British approach to management formation. It identifies a century of weak demand from business for managers qualified by education and wide experience, and discusses possible future directions to stimulate demand.

An explanation of why some US cities are better at educational reform than others. It relates education to politics, showing how the whole village can be mobilized to better educate tomorrow's citizens. It is based on an 11-city study of civic capacity and urban education.

Monthly Catalog of United States Government Publications Bernan Press(PA)
 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

 Winner of the Bancroft Prize In twenty-first-century America, some cities are flourishing and others are struggling, but they all must contend with deteriorating infrastructure, economic inequality, and unaffordable housing. Cities have limited tools to address these problems, and many must rely on the private market to support the public good. It wasn't always this way. For almost three

decades after World War II, even as national policies promoted suburban sprawl, the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs. In *Saving America's Cities*, the prizewinning historian Lizabeth Cohen follows the career of Edward J. Logue, whose shifting approach to the urban crisis tracked the changing balance between government-funded public programs and private interests that would culminate in the neoliberal rush to privatize efforts to solve entrenched social problems. A Yale-trained lawyer, rival of Robert Moses, and sometime critic of Jane Jacobs, Logue saw renewing cities as an extension of the liberal New Deal. He worked to revive a declining New Haven, became the architect of the "New Boston" of the 1960s, and, later, led New York State's Urban Development Corporation, which built entire new towns, including Roosevelt Island in New York City. Logue's era of urban renewal has a complicated legacy: Neighborhoods were demolished and residents dislocated, but there were also genuine successes and progressive goals. *Saving America's Cities* is a dramatic story of heartbreak and destruction
