An interactive marriage journal featuring weekly questions to help navigate and deepen your relationship through consistent communication.

The Taming of Chance Games Workshop  
New York City, Late Summer 2009 Like many single women who reside in the city that never sleeps, Micah Foster has had numerous encounters with undesirable men that make her want to renounce love. Just when she's on the

verge of calling it quits in her quest to find love and a sustainable relationship with a Dominant man, her friend Kisa requests her company for a girl's night out at Spanxxx, a local fetish club. Both Kisa and Micah are seasoned submissive players in the BDSM lifestyle. Micah has been involved in the scene since her early twenties, but she has yet to meet a Dominant she meshes with and takes seriously. Now, at age thirty, she continues to search for a connection that repeatedly eludes her. Under duress, she crosses paths with Dominant Rick Thomas. Unusual and dire circumstances bring the pair together, and he's exactly

what Micah has been searching for. The Sweetest Taboo is aptly titled. It's an unconventional erotic love story that provides a different perspective of a relationship involving D/s and BDSM. The reader will follow Micah and Rick's journey from beginning to end. You'll laugh, you'll be turned on, and most of all, you'll find yourself cheering for their love. \*Disclaimer\* If rough sex, an interracial pairing (Black woman/White man), D/s, and BDSM are of no interest to you, you should bypass this story. Intended for a mature and kinky audience. Recommended for adults 18+.

### Resistance SIAM

New edition with updated content In a world shaped by Covid-19 and characterised by fake news, manipulated feeds of information and divisive social-media agendas, it's easy to believe that our time is the most challenging in human history. It's just not true. It is a time of extraordinary opportunity. But

only if you have the right mindset and attitude. Fear of the future breeds inaction and leads to strategic paralysis. Problem-solvers thrive in chaotic and uncertain times because they act to change their future. Winners recognise that in a world of growing uncertainty, you need to resort to actions on things you can control. A robust mindset is the one common characteristic Bruce Whitfield has identified in two decades of interrogating how South Africa's billionaires and start-up mavericks think differently. They don't ignore risk or hope that problems will go away. They constantly measure, manage, consider and weigh up opportunities in a tumultuous sea of uncertainty and find ways around obstacles. If, as Nobel Prize-winning economist Robert Shiller

suggests, the stories we tell affect economic outcomes, then we need to tell different stories amidst the noise and haste of a rapidly evolving world.

The question of God and cosmology is far from abstract. In fact, the subject raises the deepest questions of human existence: “Why is there something rather than nothing?” Or, to put it more personally, “Why am I here?” Structured as a debate, the 2014 Greer-Heard Forum focused on the issue of God and cosmology and its impact on life and self-understanding. Christian philosopher William Lane Craig and atheist cosmologist Sean Carroll presented their views before a packed crowd of more than nine hundred people. Spirited, civil,

and often humorous, the debate highlighted not only their positions, but the full range of possibilities. In this volume, the content of that debate is reprinted and supplemented by a range of reflections by other conference presenters. The purpose of the Greer-Heard Point-Counterpoint Forum is to provide a venue for fair-minded dialogue on subjects of importance in religion and culture. The goal is a respectful exchange of ideas, without compromise. Innate Springer

As a follow-up to his bestselling book *Life Strategies*, Oprah acolyte Phillip C. McGraw, Ph.D., moves from aiding the aimless individual to coaching the disconnected couple. McGraw has distilled his more than two decades of counseling experience into a seven-step

strategy he calls "Relationship Rescue." "I'm prepared to kick a hole in the wall of the pain-ridden, unhappy maze you've gotten yourself into, and provide you clear access to action-oriented answers and instructions on what you must do to have what you want," says Dr. Phil. His aim is to expose and eliminate the saboteurs that cause senseless damage to already-fragile marriages, and, like an emotional root canal, to replace them with values he says provide positive results. If you follow Dr. Phil's strategy, he will lead you on a precise journey to uncover your heart and then share it with your partner as part of taking the "risk of intimacy." Dr. Phil leads you to "reconnect with your core" in the first five steps of his seven-step strategy. By no means a quick fix, there are in-depth

and rigorous questionnaires, surveys, tests, and profiles that require a "brutally candid" mindset, with such fill-in-the-blanks as "List five things that today would make you fall out of love with your partner." With this internal work accomplished, you'll then move on to reconnecting with your partner during a two-week, half-hour-a-day short course. As a "dyad," you and your loved one take turns giving monologues on topics such as "The most positive thing I took away from my mother and father's relationship was..." Once the "reconnection" has been established, Dr. Phil says the work shifts to a management role, as relationships are always a work in progress. Dr. Phil humorously refers to his own marriage throughout the book, sharing his

mishaps and victories in learning to accept and enjoy what he sees as fundamental but complementary differences between men and women. -- John Youngs

In this fascinating study, Boden considers the changing social and cultural significance of the wedding in Britain. The book focuses upon a number of issues including the commercialization of the event, the dynamics of heterosexual partnerships, and the influence of romance. The new commercial wedding is further explored in relation to broader socio-structural transformations and the modernization of marriage law. This book draws upon the experiences of marrying couples as well as media evidence.

Miracles on the Camino Simon and Schuster

Philosophical wisdom and practical advice for overcoming the problems of middle age How can you reconcile yourself with the lives you will never lead, with possibilities foreclosed, and with nostalgia for lost youth? How can you accept the failings of the past, the sense of futility in the tasks that consume the present, and the prospect of death that blights the future? In this self-help book with a difference, Kieran

Setiya confronts the inevitable challenges of adulthood and middle age, showing how philosophy can help you thrive. You will learn why missing out might be a good thing, how options are overrated, and when you should be glad you made a mistake. You will be introduced to philosophical consolations for mortality. And you will learn what it would mean to live in the present, how it could solve your midlife crisis, and why meditation helps. Ranging from Aristotle, Schopenhauer, and John Stuart Mill to Virginia Woolf and Simone de Beauvoir, as well as drawing on Setiya's own experience, *Midlife* combines imaginative ideas, surprising insights, and practical advice. Writing with wisdom and wit, Setiya makes a wry but passionate case for philosophy as a

guide to life.

These changes and additions provide a complete and up-to-date grammatical description of the classical language of ancient Egypt for specialists in linguistics and other fields. **Billboard** National Academies Press "Just A Couple of Chickens" is a genuinely enjoyable read. Laugh out loud funny, informative and utterly timely. It is a poignant and very real story of one family's poultry raising adventure during a five-year crucible of economic and identity crisis that took on national relevance when their contracting business collapsed under the first wave of the economic crash in 2008. Their story hits home with heart-breaking reality. While getting a couple of chickens may have been Andrew's idea, Corinne was the one who took it

over the top with thirty fluffy pheasant, five and twenty chickens, over forty Chukar, and fifteen ducklings. There were also twelve smelly quail, nine girl geese, two roosters, and a partridge in a pine tree. They were farming by Internet on a two-acre parcel near Santa Fe, New Mexico, scrabbling through the canyon that separates knowledge and experience when it comes to raising poultry. Corinne created [www.TheFeatheredEgg.com](http://www.TheFeatheredEgg.com) a web-based business that arose like a phoenix from the eggs and feathers from the flock. She approaches her role as mother, wife, and businessman with a unique perspective that she captures with droll clarity and good humor. Chicken farming was only the most recent use of her BA in

Industrial/Scientific Photography from the Brooks Institute of Photography. This book is yet another, featuring her portraits of the family's feathered friends.

In 1973, Rick Hansen was a carefree teenager hitchhiking home from a fishing trip, a kid who lived and breathed sports. But after the truck he was riding in went out of control and crashed, Hansen was left a paraplegic. For some people that could have been the end. For Rick Hansen it was the beginning of a story that is at once sad and funny, heartbreaking and inspirational. Hansen takes you from the first painful days and frightening nights in hospital, through the gritty process of rehabilitation, to his return to competition as a world

champion of wheelchair sports. It is the story of the Man in Motion tour—Rick Hansen's incredible 24,901.55-mile wheelchair journey through 34 countries around the world. It is also the love story of Hansen and his wife, Amanda, a physiotherapist whom Hansen calls his "lifeline." And it is a success story—Rick Hansen has raised millions of dollars for spinal cord research, rehabilitation and wheelchair sports as well as raised awareness about the disabled.

Middle Egyptian Marvel Comics Group Temporomandibular disorders (TMDs), are a set of more than 30 health

disorders associated with both the temporomandibular joints and the muscles and tissues of the jaw. TMDs have a range of causes and often co-occur with a number of overlapping medical conditions, including headaches, fibromyalgia, back pain and irritable bowel syndrome. TMDs can be transient or long-lasting and may be associated with problems that range from an occasional click of the jaw to severe chronic pain involving the entire orofacial region. Everyday activities, including eating and talking, are often difficult for people with TMDs, and many of them suffer with severe chronic pain due to this condition. Common social activities that most people take for granted, such as smiling, laughing, and kissing, can become unbearable. This

dysfunction and pain, and its associated suffering, take a terrible toll on affected individuals, their families, and their friends. Individuals with TMDs often feel stigmatized and invalidated in their experiences by their family, friends, and, often, the health care community. Misjudgments and a failure to understand the nature and depths of TMDs can have severe consequences - more pain and more suffering - for individuals, their families and our society. Temporomandibular Disorders: Priorities for Research and Care calls on a number of stakeholders - across medicine, dentistry, and other fields - to improve the health and well-being of individuals with a TMD. This report addresses the current state of knowledge regarding TMD research,

education and training, safety and efficacy of clinical treatments of TMDs, and burden and costs associated with TMDs. The recommendations of Temporomandibular Disorders focus on

the actions that many organizations and agencies should take to improve TMD research and care and improve the overall health and well-being of individuals with a TMD.
