## MIDDLETON GRETCHEN

*MCQs for Handbook of Local Anesthesia E-Book*  
tfm Publishing Limited  
This concise, evidence-based board review book, organized according to the ABA keyword list, covers all the fundamental concepts needed to pass written and re-certification board examinations. Each chapter begins with a case scenario or clinical problem from everyday practice, followed by concise discussion and clinical review questions and answers. Discussion progresses logically from preoperative assessment and intraoperative management to postoperative pain management, enhancing the reader's knowledge and honing diagnostic and clinical management skills. New guidelines and recently developed standards of care are also covered. Serving as a companion to the popular textbook *Essential Clinical Anesthesia*, this resourceful work reflects the clinical experiences of anesthesia experts at Harvard Medical School as

well as individually known national experts in the field of anesthesiology. This practical review is an invaluable resource for anesthesiologists in training and practice, whether studying for board exams or as part of continuing education and ABA recertification. MCQs for the Primary FRCA John Wiley & Sons  
Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the

SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title 'Multiple Choice Questions in Intensive Care Medicine' (ISBN 978 1 903378 64 9),

also written by Dr Steve Benington.

Multiple Choice Questions in Pain Management JP Medical Ltd

A major part of the FRCA examination is multiple choice questions. QBase Anaesthesia is much more than just a book giving five sets of examination papers, in groups of ninety questions, mirroring the format of the Primary Examination. It also comes with a free CD-ROM. This powerful electronic package can be installed in a matter of seconds and gives the reader an incredible range of options, greatly increasing the utility and value of the book. Not only can the reader practice the set exams, but the program will mark these exams, allow the reader to customize exams to focus in on areas requiring further revision, shuffle the question stems to set an inexhaustible number of different papers, and advise on examination strategy. It has the facility to print out and store test results for future comparison and re-analysis, and provides helpful notes on each question.

QBase Anaesthesia: Volume 1 Cambridge University Press

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia's emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice - from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and

toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs 'on call'. Plus, this emergency medicine text is accompanied by an app - a separate product containing 180 randomised multiple-choice questions on all the topics within the book. Test bank Evidence-based clinically oriented material Question format coherent with updated ACEM guidelines updated in August 2011 References and further reading FRCA Oxford University Press, USA

A fully illustrated, concise and accessible introduction to the study of dentistry Central title in the At a Glance series for dentistry students Covers the entire undergraduate clinical dentistry curriculum Topics presented as clear double-page spreads in the recognizable At a Glance style Contributions from leading figures across the field of dentistry Companion website with self-assessment MCQs and further reading Dentistry at a Glance Elsevier Health Sciences

Designed for candidates sitting the primary FRCA examination, this book brings together exam questions from recent years and structures them into six practice papers. The format of 90 questions per paper echoes the exam itself. Following each paper a scoring chart and detailed explanations of answers are provided. The questions cover physiology, pharmacology, physics, clinical measurement and statistics as they appear in the primary FRCA. There are questions on all recently added exam topics, and those that now carry stronger emphasis and more weight such as resuscitation, sepsis and trauma. The latest drugs, equipment, monitoring techniques and safety procedures are referenced. Trainees will find this an invaluable tool for exam preparation, whether sitting the FRCA in the UK, through the London College external examiners in many Asian and African countries, or similar exams for anaesthetists in Australasia and North America.

*Anaesthesia at a Glance*  
Saunders Limited  
Equips you with the skills of effective revision and

time management to maximise your success passing this UK test.

*Questions and Answers in Small Animal Anesthesia*  
Cambridge University Press  
A single, comprehensive text covering all the MCQs required to prepare for both the Primary and Final FRCA exams.

*Surgery MCQs and EMQs*  
Cambridge University Press  
More than 120 short and long case questions and answers based on those given at recent Final FRCA viva examinations.

*Review of Cardiac Anesthesia with 2100 MCQs*  
Oxford University Press  
Local Anaesthesia in Dentistry is a practical guide for both students and general practitioners to this essential area of clinical practice. Highly illustrated in full colour throughout, the book provides clear and practical guidance to the administration of local anaesthesia. The book introduces the reader to the concept of nerve conduction and pain as well as providing an explanation of the anatomy of the trigeminal nerve. Further chapters cover such key areas of practice as regional anaesthesia, local

anaesthesia in children, pharmacology, local and systemic complications, general practical aspects, the prevention of side effects and legal aspects.

**Anesthesiology Critical Care Board Review**  
Springer  
"A new question and answer review book for anesthesia residents studying for the in-training exam or the written board exam. Also an excellent study tool for practitioners studying for the recertification exam. Covers 1001 questions and answers covering all areas of anesthesiology. Multiple-choice style questions incorporating tables, drawings and photographs. Some answers include a feature titles Common Mistakes Made in this Question. Answers will not only explain correct answers, but will also explain why incorrect answers are wrong."--Provided by publisher.

*Short Answer Questions in Anaesthesia*  
Oxford University Press  
Following on from the success of the first edition, Short Answer Questions and MCQs in Anaesthesia and Intensive Care has been completely rewritten to reflect the changes to the final FRCA exam from a long essay

based examination to compulsory short answer questions (SAQs). This guide aims to introduce methods and systems of answering questions such as *Single Best Answer MCQs in Anaesthesia* Lippincott Williams & Wilkins. A unique review reference featuring nearly 1,000 multiple choice questions. Each question focuses on a key concept or anaesthesia problem encountered in daily practice. Answers, explanations, case analyses and references follow, making the information relevant to patient care and standard procedures.

**Handbook of Clinical Anaesthesia, Fourth edition** Jones & Bartlett Publishers

Written and edited by experts in the field, the *Handbook of Clinical Anaesthesia* provides all the essential practical knowledge required by anaesthetists on co-existing medical conditions, operative procedures, and techniques. The fourth edition retains the concise and comprehensive nature of the third, giving readers all they need to know about each part of the FRCA syllabus in short, digestible, practical entries. The first part

covers Patient Conditions; the second Surgical Procedures; and the third Anaesthetic Factors. Each part is subdivided into a chapter on each organ system, and each chapter is divided into bite-sized entries. These are in alphabetical order, and cover all common and rare conditions that anaesthetists will encounter within their practice. Avoiding prolonged discussion and multiple references, this is the ideal book to 'dip into' either for specific advice or general education, providing quick and reliable information. This is the most thorough handbook to cover the entire FRCA syllabus in a consistent and instructive manner. It continues to be accessible and relevant to all anaesthetists from middle grade trainee up to consultant/specialist. *Essential Clinical Anaesthesia Review* Elsevier Health Sciences. The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best

answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

**Objective Anaesthesia Review** tfm Publishing Limited

*Anesthesiology Critical Care Board Review* fills a much-needed niche, not only in improving board examination test-taking skills but also as a tool for educating critical care physicians, anesthesiology

practitioners, and advanced practice providers with the most relevant, up-to-date, state of the art considerations in critical care medicine. Content is specifically designed to prepare Anesthesiology and Emergency Medicine critical care fellows for the American Board of Anesthesiology Critical Care Medicine Certification Examination. The book offers diagnostic and therapeutic management considerations, divided into sections on technical aspects of critical care and organ systems, in a question-and answer format with clear, concise explanations and targeted references for each question.

Single Best Answer MCQs in Anaesthesia tfm Publishing Limited  
The third edition of Objective Anaesthesia Review has been fully updated to help postgraduates in their exam preparation. Presented in an easy to follow, question and answer format, this textbook covers a range of topics in anaesthesia. Divided into two sections, the first part discusses numerous diseases and disorders, and the second describes anaesthesia

equipment. Many chapters in this new edition have been revised and new chapters have been added including 'Acute Postoperative Pain' in the first section and 'Videolaryngoscopes' in the second section. Key points Fully updated, third edition helping anaesthesia trainees prepare for examinations Easy to follow, question and answer format, covering many clinical cases and anaesthesia equipment Includes new chapters and 265 images and illustrations Previous edition published in 2012 MCQs in Regional Anaesthesia and Pain Therapy CRC Press  
Dr Podcast ([www.dr-podcast.com](http://www.dr-podcast.com)) is a great way to revise for the FRCA exams and has been met with widespread enthusiasm from candidates. It provides podcasts of questions and model answers with no redundant material. Dr Podcast scripts are now available in print format. Containing the scripts of all 90 individual podcasts from the Dr Podcast Primary FRCA collection, they also include diagrams the reader can draw to explain their answers. They cover the entire syllabus for the Primary FRCA, allowing

the readers to experience the style of the questions likely to be asked and providing tips on how to excel in the exam. Each podcast is written by a successful candidate who has insight and experience of the exam, and all material has been reviewed by experienced consultants with detailed knowledge of the educational standards. For those preparing for the Primary FRCA exams, Dr Podcast scripts are a must.

*The Clinical Anaesthesia Viva Book* LWW

This book presents current clinical knowledge relating to key topics in acute and chronic pain in a multiple choice question (MCQ) format. Individual chapters are devoted to subjects such as the anatomy of pain pathways, pain processing, evaluation of pain, different pain syndromes and pain involving different regions of the body, pharmacologic and physical pain management, neural blockade, and special procedures. Each of the MCQs has four or five answer options in true/false format, and the answers are discussed in detail with provision of suitable references

whenever appropriate. Multiple Choice Questions in Pain Management will be especially valuable for those who are sitting anesthesia board exams anywhere in the world. It will, for example, meet the needs of candidates for the FRCA examination (in which 20–25% of MCQs relate to pain management) or the

FFPMRCA examination (Fellowship of the Faculty of Pain Medicine of the Royal College of Anaesthetists). In addition, the book will be useful for pain fellows and for all clinicians who are seeking to improve their knowledge of pain management.

**QBase Anaesthesia: Volume 6, MCQ Companion to**

**Fundamentals of Anaesthesia** Cambridge University Press  
The Principles of Endodontics, Third Edition is a contemporary and easy to read guide on why and how safe and effective endodontic treatment is carried out. Fully illustrated, it is an ideal introduction to endodontics.
