The Dynamics of Folklore SAGE

Pemahaman dialektis pendidikan dan pembangunan merupakan kompetensi yang harus dimiliki oleh akademisi maupun para praktisi pendidikan nonformal lainnya. Hal ini dilatarbelakangi karena salah satu sasaran pendidikan yang strategis adalah pengembangan masyarakat sebagai dimensi makro dari pendidikan. Akademisi sebagai salah satu jalur pendidikan, selain pendidikan formal dan pendidikan nonformal, memiliki kekhasan dalam menentukan sasaran didiknya, yaitu masyarakat dan individu yang ada di dalam masyarakat itu. Berhubung dengan itu maka inheren, semua pengetahuan keilmuan yang berhubungan dengan pengembangan masyarakat perlu dipelajari oleh para mahasiswa dan tentu harus tercantum di dalam kurikulumnya. Demikian pula kompetensinya, semua kemampuan yang berhubungan dengan pengembangan masyarakat perlu dipelajari oleh para mahasiswa. Di sinilah letak pentingnya kompetensi pengembangan masyarakat perlu dimiliki oleh para pendidik nonformal dan dengan demikian maka keahlian atau kompetensi akademisi itu tidak lain adalah peningkatan kapasitas akademisi untuk pengembangan masyarakat atau sering dirumuskan sebagai akademisi untuk pemberdayaan masyarakat. Dasar keilmuan yang perlu dan relevan di sini adalah (ilmu) pendidikan dan pembangunan yang oleh penulis buku ini

disebut dengan istilah "Hubungan Dialektis Pendidikan dan Pembangunan".

IIIT Books-In-Brief Series is a valuable collection of the Institute's key publications written in condensed form to give readers a core understanding of the main contents of the original. Postnormal times are best defined as 'an in-between period where old orthodoxies are dying, new ones have yet to be born, and very few things seem to make sense'. or, as Ezio Mauro puts it: 'we are hanging between the "no longer" and the "not yet" and thus we are necessarily unstable -nothing around us is fixed, not even our direction of travel.' The postnormal times theory attempts to make sense of a rapidly changing world, where uncertainty is the dominant theme and ignorance has become a valuable community. The Postnormal Times Reader is a pioneering anthology of writings on the contradictory, complex and chaotic nature of our era. It covers the origins, theory and methods of postnormal times; and examines a host of issues, ranging from climate change, governance, Middle East to religion and science, from the perspective of postnormal times. By mapping some of the key local and global issues of our transitional age, the Reader suggests a way of navigating our turbulent futures.

This book features a fascinating and extended focal interview with Professor John J. Gumperz, who ranges over his long career trajectory and reflects on his scientific achievements and how they relate to the contemporary linguistic scene. In this way, the reader is presented with a snapshot introduction to Gumperz's work in a contemporary context. A number of commentaries provide a stimulating and illuminating

series of theoretical and applied encounters with Gumperz's work from different perspectives. In so doing, they shed new light on Gumperz's seminal contribution to the study of language and interaction. In his Response Essay and in a final discussion, Gumperz clarifies his views on many of the topics discussed in the volume, as well as sharing with readers his views on some other approaches to language and interaction that are closely aligned to his own. Sociolinguistics, the ethnographic approach to language, language and social interaction, intercultural communication, communicative conventions, contextualization □ these are some of the key terms which Professor John J. Gumperz discusses in this wide ranging and searching interview about his career as an anthropological linguist and sociolinguist interested in cultural diversity and intercultural communication. John J. Gumperz, Professor Emeritus of Anthropology, University of California, Berkeley, is one of the founders of Sociolinguistics whose early work on speech communities and on the relationship of linguistic to social boundaries helped lay the basis for much current work in the field. Since the 1970s he has concentrated on a theory and methods of discourse analysis that can account for the intrinsic diversity of today's communicative environments. His publications include: *Language in Social Groups* (1962); *Ethnography of Communication* (1964) and *Directions in Sociolinguistics* (1972/2002), both coedited with Dell Hymes; *Discourse Strategies* (1982); *Language and Social Identity* (1982); and *Rethinking Linguistic Relativity* (1996), coedited with Steven Levinson. Qualitative research is a sociological and anthropological tradition of inquiry. Most critically, qualitative research involves sustained interaction with the people being studied in their own language, and on their own turf. To see qualitative research as strictly disengaged from any form of counting is to miss the point that its basic strategy depends on the reconciliation of diverse research tactics. It is our view that qualitative research can be performed as social science.

Understanding the workings of a scientific endeavor, whether it is of the natural or social variety, entails an appreciation of its objectivity. By this convention, the objectivity of a piece of qualitative research is evaluated in terms of the reliability and validity of its observations - the two concepts to which this monograph is devoted.

Pendidikan nonformal yang merupakan bagian dari jalur pendidikan di Indonesia

diharapkan tidak hanya sebagai penambah, pengganti, dan pelengkap tetapi lebih dari itu sebagai suplemen utama dalam memajukan pendidikan Indonesia sehingga tercipta masyarakat berkualitas. Beberapa program pendidikan nonformal yang dapat dijadikan wadah untuk memfasilitasi kebutuhan masyarakat adalah program kecakapan hidup. Program kecakapan hidup bisa dilaksanakan secara mandiri maupun melalui kemitraan, namun seringkali ditemukan hambatan dan tantangan dalam menjalankan program pendidikan nonformal sehingga outcomenya kurang efektif. Oleh sebab itu, penulis mencoba mengkaji beberapa model evaluasi program pendidikan nonformal di dalam buku ini sebagai acuan bagi praktisi dan akademisi dalam mengukur keberhasilan program pendidikan nonformal.

Creating Social Change UNY Press

"A welcome and brilliantly crafted overview of this field. It represents a major advance in our understanding of how ethnicity works in specific social and cultural contexts. The second edition will be an invaluable resource for both students and researchers alike." - John Solomos, City University, London The first edition of *Rethinking Ethnicity* quickly established itself as a popular text for students of ethnicity and ethnic relations. This fully revised and updated second edition adds new material on globalization and the recent debates about whether ethnicity matters and ethnic groups actually exist. While ethnicity - as a social construct - is imagined, its effects are far from imaginary. Jenkins draws on specific examples to demonstrate the social mechanisms that construct ethnicity and the consequences for people's experience. Drawing upon rich case

study material, the book discusses such issues as: the 'myth' of the plural society; postmodern notions of difference; the relationship between ethnicity, 'race' and nationalism; ideology; language; violence and religion; and the everyday construction of national identity.

Britain makes more money from music than from its car industry. In the United States the core copyright industries achieved foreign sales and exports of \$60.18 billion - a figure which surpasses, for the first time, every other export sector, including automobiles, agriculture and aircraft. Howkins sets out to explore how we can harness creativity and the industry it sustains to our common interests. This book is not about information and the information society. It is about more basic matters, what we humans want and what we are good at. *Suara muhammadiyah* Oxford University Press, USA

Solid Waste Management (SWM) is a matter of great concern in the urban areas of developing countries. The municipal authorities who are responsible for managing municipal solid waste are unable to discharge their obligations effectively because they lack the in-house capacity to handle the complexities of the process. It is heartening to see that the World Bank has prepared this book covering all important aspects of municipal SWM in great depth. The book covers very lucidly the present scenario of SWM in urban areas, the system deficiencies that exist, and the steps that need to be

taken to correct SWM practices in compliance with Municipal Solid Waste (Management and Handling) Rules 2000 ratified by the Government of India. The book shares examples of best practices adopted in various parts of the country and abroad, and very appropriately covers the institutional, financial, social, and legal aspects of solid waste management, which are essential for sustainability of the system. It provides a good insight on how to involve the community, nongovernmental organizations, and the private sector to help improve the efficiency and cost effectiveness of the service, and shows how contracting mechanisms can be used to involve the private sector in SWM services. This book will be a very useful tool for city managers and various stakeholders who deal with municipal solid waste management in the design and execution of appropriate and cost-effective systems.

What kinds of political arrangements enable people from different national, racial, religious, or ethnic groups to live together in peace? In this book one of the most influential political theorists of our time discusses the politics of toleration. Michael Walzer examines five "regimes of toleration"—from multinational empires to immigrant societies—and describes the strengths and weaknesses of each regime, as well as the varying forms of toleration and exclusion each fosters. Walzer shows how power, class, and gender interact with religion, race, and ethnicity in the different regimes and discusses how toleration works—and how it should work—in multicultural societies like the United States. Walzer offers an eloquent defense of toleration, group differences,

and pluralism, moving quickly from theory to practical issues, concrete examples, and hard questions. His concluding argument is focused on the contemporary United States and represents an effort to join and advance the debates about "culture war," the "politics of difference," and the "disuniting of America." Although he takes a grim view of contemporary politics, he is optimistic about the possibility of coexistence: cultural pluralism and a common citizenship can go together, he suggests, in a strong and egalitarian democracy.

Suicide Terrorism Polity

Suicide terrorism in its modern form made its first appearance in Lebanon in the early 1980s. Over the last quarter century, terrorist attacks perpetrated by suicide bombers have spread to many corners of the world and have become a major threat for both the governments and citizens of numerous countries. Can this devastating phenomenon be attributed to a specific religion or culture? What are the causes and motivations that lead ordinary people to embark upon suicide attacks? How are potential bombers trained for their mission? And is it possible for democratic governments to effectively cope with this challenge? In this compelling book, Ami Pedazhur investigates the root causes of suicide terrorism and its rapid proliferation in recent years. Drawing on a variety of sources, the book explores the use of human bombs in Lebanon, Israel, Sri Lanka, Turkey, Chechnya, Iraq, and the ostentatious attacks of Al-Qaeda and the global jihad. It is the only book to offer such an in-depth, up-to-date, cross-cultural analysis of suicide terrorism in the twenty-first Century.
