Quali sono gli effetti di ogni nostra interazione con Facebook, Google o Amazon? Cosa ci rubano gli algoritmi? Quali porzioni di noi stessi stiamo cedendo? Esiste un modo per difendersi? Manuale di disobbedienza digitale racconta la genesi culturale delle techno-corporation, le multinazionali che grazie alla tecnologia dominano la nostra vita quotidiana. Burning Man, un festival di arti nel deserto del Nevada, ha conferito alle aziende della Silicon Valley l'infrastruttura ideale su cui edificare un'inarrestabile crescita. Il libro ne narra la storia, analizzando lo snaturamento che gli algoritmi hanno provocato su alcune dimensioni centrali della nostra esistenza: dall'amicizia alla memoria, dalla nascita alla morte. E propone anche una via d'uscita dalla gabbia digitale in cui siamo rinchiusi: un "ennalogo" di azioni pensate per attuare una sorta di disobbedienza e provare a fuggire dal rischio predittivo delle nostre azioni, funzione ultima di ogni algoritmo.

In *The Hug*, internationally renowned author David Grossman tells the moving story of the moment when Ben realizes that no two living creatures are alike—not his mother and father, their beautiful dog Miracle or the ants who march side by side at his feet and appear identical—and the loneliness he feels knowing that there is no one else quite like him in the whole world. But just as he is feeling the most alone he has ever felt, he is soothed by his mother's loving hug. Timeless, touching, and beautifully produced, *The Hug* is a charming and important work for parents and children encountering the feeling of being different, together

International bestseller As seen in *The Wall Street Journal*--from free play to cozy together time, discover the parenting secrets of the happiest people in the world What makes Denmark the happiest country in the world--and how do Danish parents raise happy, confident, successful kids, year after year? This upbeat and practical book presents six essential principles, which spell out P-A-R-E-N-T: Play is essential for development and well-being. Authenticity fosters trust and an "inner compass." Reframing helps kids cope with setbacks and look on the bright side. Empathy allows us to act with kindness toward others. No ultimatums means no power struggles, lines in the sand, or resentment. Togetherness is a way to celebrate family time, on special occasions and every day. The Danes call this *hygge*--and it's a fun, cozy way to foster closeness. Preparing meals together, playing favorite games, and sharing other family traditions are all *hygge*. (Cell phones, bickering, and complaining are not!) With illuminating examples and simple yet powerful advice, *The Danish Way of Parenting* will help parents from all walks of life raise the happiest, most well-adjusted kids in the world.

IL 15 LUGLIO 2008, Karl Unterkircher, alpinista di fama mondiale, muore inghiottito da un crepaccio sul Nanga Parbat, la nona vetta del mondo, ribattezzata dalla popolazione locale "la mangiauomini" a causa delle molte vittime che ha fatto tra gli scalatori professionisti (tra loro, il fratello di Reinhold Messner). Dopo aver conquistato il record del mondo per aver raggiunto l'Everest, la cima più alta tra gli "Ottomila", e il K2 in soli 63 giorni, Karl Unterkircher sfida alcune tra le pareti più temibili: la

parete Nord del Gasherbrum II, considerato uno dei tabù dell'Himalaya, il meditativo Monte Genyen e lo Jasemba, tra le cime più belle e difficili da scalare. In queste pagine appassionate dedicate al padre dei suoi tre figli, Silke Unterkircher ripercorre le eccezionali avventure di un uomo che ha sempre voluto mettersi alla prova. Seguendo il filo dei suoi ricordi e le suggestioni dei compagni di avventura di Karl — Hans Kammerlander, Michele Compagnoni, Walter Nones e Simon Kehrer — ci restituisce il ritratto di un uomo legato indissolubilmente a quel mondo estremo che amava forse più della sua stessa vita, e ci aiuta a capire che spesso dietro scelte così rischiose non si nasconde un desiderio di affermazione, ma un sentimento del tutto estraneo a chi non conosce la magia dell'esplorazione. Perché, come diceva Karl, non sono gli scalatori a cercare il rischio: è la montagna che chiama.

Secrets of the Baby Whisperer Basic Books

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

More and more parents-to-be all over the world are choosing the comfort and reassuring support of birth with a trained labor companion called a "doula." This warm, authoritative, and irreplaceable guide completely updates the authors' earlier book, *Mothering the Mother*, and adds much new and important research. In addition to basic advice on finding and working with a doula, the authors show how a doula reduces the need for cesarean section, shortens the length of labor, decreases the pain medication required, and enhances bonding and breast feeding. The authors, world-renowned authorities on childbirth with combined experience of over 100 years working with laboring women, have made their book indispensable to every woman who wants the healthiest, safest, and most joyful possible birth experience.

Francesca ha quasi tutto per essere felice: un lavoro a tempo pieno non troppo stressante, una vita di coppia tranquilla, una famiglia e amici (più o meno) invadenti quanto affettuosi. Nella lista dei desideri da realizzare manca solo un figlio. Quello che non sa è che il suo quieto tran tran verrà movimentato fin da subito dalla gravidanza, per poi essere stravolto con la nascita di Lucio. Il mestiere di mamma si rivelerà molto più incerto e pesante di quanto Francesca si era immaginata. «Tutto gira intorno a Lucio. I miei stati d'animo di neomamma sono i passi di una danza impazzita, che segue il ritmo del suo pianto. E lui piange spesso, accidenti se piange. Piange perché ha fame, piange perché ha sonno, perché il pannolino è sporco: gli dai da mangiare, lo fai addormentare, lo cambi e ricomincia il giro. Ha di nuovo fame, poi sonno, poi ha fatto la cacca o qualcosa gli dà noia. Il mio piccolo tiranno ha il controllo della mia vita, perfino di ciò che posso o non posso bere e mangiare». - Tratto dal libro *Diario* (tragicomico) di una mamma.

An electrifying, internationally bestselling investigation of the global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller *Gomorra* "Zero zero zero" flour is the finest, whitest available. It is also the nickname among narco-traffickers for the purest cocaine on the market. And it is the title of Roberto Saviano's unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano's *Gomorra*, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Saviano has broadened his perspective to take in the entire global "corporate" entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world's biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade's axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, *ZeroZeroZero* is an investigative story like none other. Praise for *ZerZeroZero*: "[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators." —Financial Times

The Suffering of the Immigrant Quirk Books

This book provides an important contribution to the new and growing field of 'narrative-based medicine'. It specifically addresses the largest area of medical activity, primary care. It provides both a theoretical framework and practical skills for dealing with individual consultations, family work, clinical supervision and teamwork, and offers a comprehensive approach to the whole range of work in primary care. Using a wide range of clinical examples, it shows how professionals in primary care can help clarify patients' existing stories, and elucidate new stories. It can be used as a training resource and includes exercises and summaries of key points to consider. It is based on, and describes, an established evaluated training method, and is of immediate and significant practical use to readers. It is essential reading for general practitioners, practice nurses and others in the primary care team, psychologists, family therapists, counsellors and other professionals attached to primary care. GP trainers, tutors and course organisers will find it a valuable educational tool. Professionals elsewhere in primary care such as pharmacists, dentists and optometrists, and academics in medical sociology and medical anthropology will also find it very useful.

Unnerved by the ceaseless demands of your toddler? Concerned that your two-year-old isn't developing on schedule? You clearly need to spend some time with Tracy Hogg. Nicknamed the "baby whisperer" by grateful parents because of her extraordinary gift for understanding and connecting with children, Tracy became internationally famous after the smashing success of her New York Times bestseller *Secrets of the Baby Whisperer*. Now Tracy is back with the same winning blend of common sense, uncanny intuition, and results-getting guidance in her new book, *Secrets of the Baby Whisperer for Toddlers*. Yes, the toddler years have their stresses and challenges for both parents and children—but with Tracy at your side, you'll find that this can also be the most fascinating and rewarding stretch of parenthood. As in her hugely popular first book, Tracy brings her vast experience to bear on the issues and dilemmas with which all parents grapple during

toddlerhood. Starting with the simple but essential premise that there is no such thing as a "typical" child, Tracy guides you through her unique programs, including: • H.E.L.P. (Hold back, Explain, Limit, Praise): the mantra that will remind you of the four elements that are critical to fostering your child's growth and independence. • Using T.L.C. (Talk, Listen, Clarify) to communicate with your toddler, to figure out what she is really thinking, and to best help her express herself. • R&R: the Routines and Rituals that give structure and predictability to daily life and a sense of continuity to holidays and special occasions. • Rehearsals for Change: ways of preparing your toddler for new experiences by encouraging her to practice her skills in the safe, controlled setting of your family. • Conscious Discipline: a way of teaching your toddler how to behave and manage his emotions, while being mindful of the lessons you teach with your own behavior. Tracy knows that your child is special—a one-of-a-kind individual with her own gifts and needs—and she has dedicated this marvelous new book to helping you appreciate and respect your child's uniqueness. Whether it's making new friends, mastering potty training, or eating at the family dinner table, your child will do it in her own way and at his own pace. With Tracy as your guide, you can share in the achievements of toddlerhood every step of the way. Practical, reassuring, and written with wit and energy and boundless enthusiasm for real children and their everyday behavior, this book will be your constant companion during the magical, challenging toddler years.

"Dottori, domani" considera con stile narrativo le basi pedagogiche e i problemi concreti che riguardano l'insegnamento e l'apprendimento nelle Scienze della salute e della cura in Italia. Tutti i capitoli – con l'intento di stimolare nei lettori una riflessione creativa – iniziano con un racconto, proiettato in un futuro abbastanza prossimo, nel presupposto che la formazione di oggi deve rispondere adeguatamente alle domande di salute che incontreranno i professionisti di domani; segue un dialogo tra gli autori, che fa emergere gli aspetti problematici narrati nel racconto; ogni capitolo si conclude con numerosi approfondimenti teorici di natura pedagogica e con una sintesi dei contenuti. Il libro si propone come il primo testo italiano dedicato alle iniziative – sempre più necessarie – di "formazione dei formatori" in ambito sanitario.
