Some say the adventurous days of grueling and dangerous scientific exploration are long gone, but Reiter (sociology, Brock U.) undertook a 10-month trek--without pay!--into the uncharted wilds of a Burger King kitchen to bring us first-hand accounts of the strange and marvellous customs of the natives. The illustrations are hilarious. Annotation copyrighted by Book News, Inc., Portland, OR

From the Pulitzer Prize-winning author of *The Fifties: An "intimate and monumental" account of the people at the core of the civil rights movement* (Publishers Weekly). The young men and women at the heart of David Halberstam's brilliant and poignant *The Children* came together through Reverend James Lawson's workshops on nonviolence. Idealistic and determined, they showed unwavering bravery during the sit-ins at the Nashville lunch counters and on the Freedom Rides across the South—all chronicled here with Halberstam's characteristic clarity and insight. *The Children* exhibits the incredible strength of generations of black Americans, who sacrificed greatly to improve the world for their children. Following Diane Nash, John Lewis, Gloria Johnson, Bernard Lafayette, Marion Barry, Curtis Murphy, James Bevel, and Rodney Powell, among others, *The Children* is rooted in Halberstam's coverage of the civil rights movement for Nashville's Tennessean. A New York Times Notable Book, this volume garnered extraordinary acclaim for David Halberstam, the #1 New York Times bestselling author of *The Best and the Brightest*. Upon its publication, the Philadelphia Inquirer called it "utterly absorbing . . . The civil rights movement already has produced superb works of history, books such as David J. Garrow's *Bearing the Cross* and Taylor Branch's recently published *Pillar of Fire*. . . . Halberstam adds another with *The Children*." This ebook features an extended biography of David Halberstam.

This book is a compilation of the thoughts of an ordinary man, any subject that comes to mind; and in no particular order. I cover all ideas, from conversations I have had, my reactions to newspapers and other media reports, and virtually everything that I have formed opinions on. With the accusations that Americans are always far left or far right, I wanted to give the opinions of an ordinary man. From this, you decide if an ordinary man leans hard left, hard right, more toward center or maybe is really schizophrenic. Each thought is kept as short as possible in presentation in an attempt to get right to the point and solicit

expanded thought from the reader. I wrote this, not to be read as a novel, but to be read whenever there are five minutes available to ponder a new idea.

This is Volume I of two volumes. *American Silhouettes* is primarily a study in human character in its dealing with the adversity of life. The setting is America during the last quarter of the twentieth century. More specifically it focuses on the struggle of two generations of a small African American family whose destiny encounters more than its share of horrific tribulations. It is a window on life, love, happiness, suffering, and death of the members of this small vulnerable resilient family from the South, that moves to Washington, D.C. for a better life, only to find a very short interlude of happiness, followed by a deep plunge into another cycle of trauma and despair; not death though, that would be too easy; and when death finally does come, it is a liberation of the body and soul. The saga continues with the cycle of misfortune repeating itself in a new age, a new generation with the same finality as if their destiny had been wickedly predefined. From Bridgeville SC to Washington DC, and from Rome to Dakar, their saga brings to light the evil and virtuousness of man in its most natural occurrence, as a part of daily life. The story brings together various individuals of different and sometimes opposite background and describes either the passions of their encounters or the clashes resulting from their conflicts. It analyses the most wonderful passions of love, beauty and happiness, and juxtaposes the horrible ugliness of hate and abuse. It incorporates the duty and responsibility of man within the context of our society and dwells into the aberrations of its marginal sector. It is an interweaved matrix of emotional extremes. It demonstrates that evil has no color, no race, no religion, and that it transcends the social fabric of our society.

The Truth is out there! But do we care? Gurt from Zimpac explains it this way. "My mission is to make a deal for water. Earth has more water than the rest of the universe combined. With one-tenth of it we can meet all our water needs for the next thirty thousand millennia. In return we can offer them an end to

death and disease, and bring them peace, prosperity, and fulfillment." "Sounds easy" his pilot says. "Obviously you have never indulged yourself in the study of earthlings," Gurt responds. So Gurt begins his odyssey to acquaint humanity with the fact that they are not alone in the universe, and the rest of the universe is thirsty. But after surrounding himself with humans, Gurt can only think of Earth and its inhabitants as "An Alien World."

In 1991, Mount Pinatubo awoke after 500-yrs dormancy. Nearby, America's Clark Air Base evacuated military personnel and dependents to Subic Bay Navy Base. One thousand Air Force and civilians remained to safeguard Clark AB. A series of violent volcanic eruptions hurled ash, rock and gas into the sky. At the same time Typhoon Yunya blew in off the Pacific and earthquakes repeatedly rattled the Philippines countryside. As the rain-laden ash fell back to earth, aircraft hangars, warehouses, homes and buildings crashed to the ground as muddy ash covered the terrain. When the eruptions let up, military officials began evacuating tens of thousands from the country while those deemed mission-essential began salvage operations. This is a true account of this historic event from the perspective of a small group of civilians who were present throughout.

Americans spend more than \$600 billion a year eating out. Busy consumers don't have the time or inclination to cook - they want tasty, nutritious meals without dishes to wash. Singles, working parents and seniors are demanding greater convenience and are turning to restaurants to fill that need. With so much dining and taking out, there's plenty of room for more food businesses, but for a successful startup you need more than just good recipes. You also need to know about planning, capitalization, inventory control, and payroll management. Entrepreneur has compiled everything you need including how to evaluate the competition, how to research potential customers, the basics of setting up a kitchen, how to find a great location, how to leap over regulatory hurdles in the industry, and how to select the best people to staff your particular style of business.

Hard Knocks Harper Collins

Every day millions of Canadians go out to work. They labour in factories, offices, restaurants, and retail stores, on ships, and

deep in mines. And every day millions of other Canadians, mostly women, begin work in their homes, performing the many tasks that ensure the well-being of their families and ultimately, the reproduction of the paid labour force. Yet, for all its undoubted importance, there has been remarkably little systematic research into the past and present dynamics of the world of work in Canada.
