*What's the Time, Mr Wolf?* St. Martin's Griffin

In *Wild Echoes*, environmentalist and photographer Charles Bergman chronicles his experiences tracking down and interacting with the few remaining members of nine of North America's most endangered species. Bergman soars in the company of two of the last remaining California condors, swims with manatees, assists in the capture and release of a Florida panther, and comes face to face with the last remaining dusky seaside sparrow, a species now extinct. As he relates these and other poignant encounters, Bergman describes the factors, both manufactured and natural, that have led to the animals' endangerment. He also examines the efforts of those who hope

to pull species back from the brink of extinction. *Wild Echoes* was originally published in 1990; this 2003 edition contains a new introduction and substantial updates on the good news and the bad concerning the current status of the species Bergman discusses.

Did you know the name Jessica was first used in *The Merchant of Venice*? Or that Freud's idea of a healthy sex life came from Shakespeare? Nearly four hundred years after his death, Shakespeare permeates our everyday lives: from the words we speak to the teenage heartthrobs we worship to the political rhetoric spewed by the twenty-four-hour news cycle. In the pages of this wickedly clever little book, Esquire columnist Stephen Marche uncovers the hidden influence of Shakespeare in our culture, including these fascinating tidbits: Shakespeare coined

over 1,700 words, including hobnob, glow, lackluster, and dawn. Paul Robeson's 1943 performance as Othello on Broadway was a seminal moment in black history. Tolstoy wrote an entire book about Shakespeare's failures as a writer. In 1936, the Nazi Party tried to claim Shakespeare as a Germanic writer. Without Shakespeare, the book titles *Infinite Jest*, *The Sound and the Fury*, and *Brave New World* wouldn't exist. Stephen Marche has cherry-picked the sweetest and most savory historical footnotes from Shakespeare's work and life to create this unique celebration of the greatest writer of all time.

**Wolf Centos** Houghton Mifflin Harcourt

The bestselling classic that redefined our view of the relationship between beauty and female identity. In today's world, women have more power, legal recognition, and professional success than ever before. Alongside the evident progress of the women's movement, however, writer and journalist Naomi Wolf is troubled by a different kind of social control, which, she argues, may prove just as restrictive as the traditional image of homemaker and wife. It's the beauty myth, an obsession with physical perfection that traps the modern woman in an endless spiral of hope, self-consciousness, and self-hatred as she tries to fulfill society's impossible definition of "the flawless beauty."

**Heart of the Wolf** Random House Canada

A "lovely" memoir of caring for a mother with cancer, reflecting on our appetites for food and for life (Minneapolis Star Tribune). When her mother is diagnosed with a rare cancer, Karen Babine—cook, collector of vintage cast iron, and fiercely devoted daughter, sister, and aunt—can't help but wonder: feed a fever, starve a cold, but what do we do for cancer? And so she commits to preparing her mother anything she will eat, a vegetarian diving into the unfamiliar world of bone broth and pot roast. In this series of mini-essays, Babine ponders the intimate connections between food, family, and illness. As she notes that her sister's unborn baby is the size of lemon while her mother's tumor is the size of a cabbage, she reflects on what draws us toward food metaphors to describe disease. What is the power of language, of naming, in a medical culture where patients are too often made invisible? How do we seek meaning where none is to be found—and can we create it from scratch? And how, Babine asks as she bakes cookies with her small niece and nephew, does a family create its own food culture across generations? Generous and bittersweet, *All the Wild Hungers* is an affecting chronicle of one family's experience of illness and of a writer's culinary attempt to make sense of the inexplicable. "[Babine] continues to navigate her way through extraordinary challenges with ordinary comforts, finding poetry in the everyday. Reading this quiet book should provide the sort of balm for those in similar circumstances that writing it must have for the author."—Kirkus Reviews "Profound...Anyone who has experienced a family member's struggle with cancer will be stabbed by recognition throughout this book...In the end, the overriding hunger referred to in this lovely book's title is the hunger for life."—Minneapolis Star

*House of Hunger* Sourcebooks, Inc.

From the New York Times bestselling author of *Bad Feminist*: a searingly honest memoir of food, weight, self-image, and learning how to feed your hunger while taking care of yourself. “I ate and ate and ate in the hopes that if I made myself big, my body would be safe. I buried the girl I was because she ran into all kinds of trouble. I tried to erase every memory of her, but she is still there, somewhere. . . . I was trapped in my body, one that I barely recognized or understood, but at least I was safe.” In her phenomenally popular essays and long-running Tumblr blog, Roxane Gay has written with intimacy and sensitivity about food and body, using her own emotional and psychological struggles as a means of exploring our shared anxieties over pleasure, consumption, appearance, and health. As a woman who describes her own body as “wildly undisciplined,” Roxane understands the tension between desire and denial, between self-comfort and self-care. In *Hunger*, she explores her past—including the devastating act of violence that acted as a turning point in her young life—and brings readers along on her journey to understand and ultimately save herself. With the bracing candor, vulnerability, and power that have made her one of the most admired writers of her generation, Roxane explores what it means to learn to take care of yourself: how to feed your hungers for delicious and satisfying food, a smaller and safer body, and a body that can love and be loved—in a time when the bigger you are, the smaller your world becomes.

*Hunger of Memory* HarperCollins

Hunters found his body naked in the snow. So begins this

breakout book from Stephen Marche, whose last work of fiction was described by the New York Times Book Review as “maybe the most exciting mash-up of literary genres since David Mitchell’s *Cloud Atlas*.” The body in the snow is that of Ben Wylie, the heir to America’s second-wealthiest business dynasty, and it is found in a remote patch of northern Canada. Far away, in post-crash New York, Jamie Cabot, the son of the Wylie family’s housekeepers, must figure out how and why Ben died. He knows the answer lies in the tortured history of the Wylie family, who over three generations built up their massive holdings into several billion dollars’ worth of real estate, oil, and information systems despite a terrible family secret they must keep from the world. The threads of the Wylie men’s destinies, both financial and supernatural, lead twistingly but inevitably to the naked body in the snow and a final, chilling revelation. *The Hunger of the Wolf* is a novel about what it means to be a man in the world of money. It is a story of fathers and sons, about secrets that are kept within families, and about the cost of the tension between the public face and the private soul. Spanning from the mills of Depression-era Pittsburgh to the Swinging London of the 1960s, from desolate Alberta to the factories of present-day China, here is a bold and breathtakingly ambitious work of fiction that uses the story of a single family to capture the way we live now: an epic, genre-busting tale of money, morality, and the American Dream.

**The Hunger of the Gods** Milkweed Editions

In powerful, vivid verse, the master behind *The Watch That Ends the Night* recounts one of history's most harrowing—and chilling—tales of survival. In 1846, a group of emigrants bound for California face a choice: continue on their planned route or take a shortcut into the wilderness. Eighty-nine of them opt for the untested trail, a decision that plunges them into danger and desperation and, finally, the unthinkable. From extraordinary poet and novelist Allan Wolf comes a riveting retelling of the ill-fated journey of the Donner party across the Sierra Nevadas during the winter of 1846–1847. Brilliantly narrated by multiple voices, including world-weary, taunting, and all-knowing Hunger itself, this novel-in-verse examines a notorious chapter in history from various perspectives, among them caravan leaders George Donner and James Reed, Donner's scholarly wife, two Miwok Indian guides, the Reed children, a sixteen-year-old orphan, and even a pair of oxen. Comprehensive back matter includes an author's note, select character biographies, statistics, a time line of events, and more. Unprecedented in its detail and sweep, this haunting epic raises stirring questions about moral ambiguity, hope and resilience, and hunger of all kinds.

This contains the author's five most popular books - "Consider the Oyster", "The Gastronomical Me", "Serve it Forth", "How to Cook a Wolf", and "An Alphabet for Gourmets". The volume contains an array of thoughts, memories and recipes.

Hunger of Memory is the story of Mexican-American Richard Rodriguez, who begins his schooling in Sacramento, California, knowing just 50 words of English, and concludes his university studies in the stately quiet of the reading room of the British Museum. Here is the poignant journey of a "minority student" who pays the cost of his social assimilation and academic success with a painful alienation — from his past, his parents, his culture — and so describes the high price of "making it" in middle-class America. Provocative in its positions on affirmative action and bilingual education, Hunger of Memory is a powerful political statement, a profound study of the importance of language ... and the moving, intimate portrait of a boy struggling to become a man.

INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her

theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word “outside” when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella “spoke” her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.
