Factfulness Scholastic

UK
“One of the most profound and illuminating studies of this century to have been published in recent decades.”—John Gray, *New York Times Book Review* Hailed as “a magisterial critique of top-down social planning” by the *New York Times*, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—*New Yorker* “A tour de force.”— Charles Tilly,

Columbia University
Seeing Like a State
Sourcebooks, Inc.

When eleven-year-old Gregor falls through a grate in the laundry room of his apartment building, he hurtles into the dark Underland, where spiders, rats and giant cockroaches coexist uneasily with humans. This world is on the brink of war, and Gregor's arrival is no accident. Gregor has a vital role to play in the Underland's uncertain future.

A Kingdom of Flesh and Fire LSU Press

A *New York Times* Bestseller! From the bestselling *How to Catch* series comes a festive turkey tale and Thanksgiving book for kids! A turkey is running loose in a school right before a Thanksgiving play. Can

YOU help catch it so the show can go on? Follow along as students turn their school upside down trying to catch the turkey, ending with a twist that ensures no turkeys are harmed (or eaten!). This hilariously zany children's picture book combines STEAM concepts and traps with a silly story and fun illustrations, perfect for starting a new fall family tradition this autumn or giving as a Thanksgiving gift for kids ages 4 and up! Thanksgiving time is here again, but there's a turkey on the run! Can you catch this tricky bird before the school play has begun? Also in the How to Catch Series: How to Catch a Unicorn How to Catch the Easter Bunny How to Catch an Elf How to Catch a

Monster How to Catch a Leprechaun and more!
The Promise of Rain
 Profile Books
 They call him the Hound of Hell.... Lord Roland Strathmore has been ordered by the king to find and capture Lady Kyla Warwick, a noblewoman running from rumors of scandal and murder. One of England's fiercest warriors, Strathmore is torn between his loyalty to the king and his pledge to the elusive woman he has never met. For Strathmore was once betrothed to the fiery Lady Kyla--until her family's fall from grace halted plans for their union. When Kyla is seized by Strathmore, she vows to seek vengeance against the man she considers a

traitor. But she's surprised when her hatred for her newfound enemy is matched by a powerful attraction--a temptation at odds with her desire to reclaim her freedom. Fueled by his own unspoken passion, Strathmore is willing to risk everything to help his beautiful captive discover the truth about her shocking past--even if only the most desperate act will save her from further ruin...or perhaps even death.

Delphi Collected Works of M. P. Shiel

(Illustrated)

InterVarsity Press

This stunning paperback box set includes all three books in Suzanne Collins's internationally bestselling Hunger Games trilogy together

with *The Ballad of Songbirds and Snakes*. In the ruins of a place once known as North America lies the nation of Panem, a shining Capitol surrounded by twelve outlying districts. The Capitol keeps the districts in line by forcing them all to send one boy and one girl between the ages of twelve and eighteen to participate in the annual Hunger Games, a fight to the death on live TV... And the odds are against all who play. With all four of Suzanne Collins's Hunger Games novels in one box set, you can step into the world of Panem and continue all the way to the electrifying conclusion. Three books, four films and one worldwide phenomenon, *The Hunger Games* series changed the face of

global YA. Lionsgate begin production on the movie of *Ballad of Songbirds and Snakes* in 2022.

Cooked Dog Ear
Publishing

An ominous vision and the discovery of a gruesome corpse lead Sarah Engelmann into a terrifying encounter with the supernatural in 1913 Salem, Massachusetts. With help from Alex, an attractive Greek immigrant, Sarah sets out to track the evil to its source, never guessing that she will take on a conspiracy involving not only a 900-year vampire, but also a demon-loving Puritan warlock, disgruntled Egyptian gods, and an immortal sorcerer, all on a quest to recover the holy trumpet of the Archangel Gabriel.

Relying on the wisdom of an elderly vampire hunter, Sarah's rabbi father, and her own disturbing visions, Sarah must fight a millennia-old battle between unspeakable forces, where the ultimate prize might be herself.

Catching Fire
(Hunger Games, Book Two) Pantheon

The second book in Suzanne Collins's phenomenal and worldwide bestselling *Hunger Games* trilogy. Against all odds, Katniss Everdeen has won the annual *Hunger Games* with fellow district tribute Peeta Mellark. But it was a victory won by defiance of the Capitol and their harsh rules. Katniss and Peeta should be happy. After all, they have just won for themselves and

their families a life of safety and plenty. But there are rumors of rebellion among the subjects, and Katniss and Peeta, to their horror, are the faces of that rebellion. The Capitol is angry. The Capitol wants revenge.

INSTANT NEW YORK
TIMES BESTSELLER

“One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” - Bill Gates
“Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.”
—Melinda Gates
“*Factfulness* by Hans

Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama
Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and

investment bankers. In *Factfulness*, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It

turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I

armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

The Ballad of Songbirds and Snakes (A Hunger Games Novel) Penguin

Nine years ago, Jessie was in a car crash and died. After she was buried, she awoke and tore through the earth to arise, reborn, as a zombie. And there were others-gangs of undead roaming the Indiana woods, fighting, hunting, hidden. But when a mysterious illness threatens the existence of both zombies and humans, Jessie must decide whether to stay and fight or flee to

survive...

The Hunger Games 4-Book Box Set: TikTok made me buy it! The international No.1 bestselling series (The Hunger Games, Catching Fire, Mockingjay, The Ballad of Songbirds and Snakes) Rowman &

Littlefield

After the successful release of the first Hunger Games film in 2012, the film's distributor, Lionsgate, was preparing to release the next movie in the series, Hunger Games: Catching Fire. Fan expectations had grown after the success of Hunger Games and Lionsgate faced the challenge of keeping moviegoers interested and engaged in another Hunger Games movie. In an era marked by

the rising popularity of digital and social media, Lionsgate knew that attracting fans to a sequel meant pushing the boundaries of traditional marketing tactics. Digital brand storytelling is about using digital media in a holistic way to tell a brand story and build excitement for an audience. Brand storytelling seeks to make a connection with the audience by giving them an emotional experience that resonates with them. While Lionsgate was aware that traditional marketing would need to be blended with a digital campaign to bring in moviegoers, it also needed to strike a careful balance between the two and choose the appropriate platforms to tell a

cohesive story. Should Lionsgate launch a brand storytelling campaign to appeal to fans? Lionsgate's comparatively small marketing team gathered to brainstorm about how to execute such a campaign and position the film for another big success. *Nil on Fire* Blue Box Press

Despite Rives and Skye's attempt to destroy Nil, the island remains. And back in this world, Nil won't let Skye go. Haunted by a darkness she can't ignore, Skye wrestles with Nil nightmares that worsen by the day and threaten to tear her apart. As the island grows in power, Skye fights to keep her mind intact. Soon Skye realizes that to break free of Nil, she must end Nil's vicious cycle

once and for all--and she can't do it alone. Who are Nil's new arrivals? Who will return to the island? And who will survive in the end? In this thrilling final installment of the Nil series, the stakes have never been higher. Losing isn't an option, but winning will cost Skye everything.

The Saturday Review of Politics, Literature, Science and Art Delphi Classics

The early twentieth century writer M. P. Shiel was a master of supernatural horror and science-fiction romances. 'The Purple Cloud' (1901), a dystopian, post-apocalyptic novel, is an important milestone in the development of science fiction literature, regarded by some as the best of all

'Last Man' novels. His pioneering works went on to influence important writers like H. G. Wells and Stephen King. This comprehensive eBook presents Shiel's collected works, with numerous illustrations, many rare texts appearing in digital print for the first time, informative introductions and the usual Delphi bonus material. (Version 1) *

Beautifully illustrated with images relating to Shiel's life and works *

Concise introductions to the novels and other texts *

16 novels, with individual contents tables *

Features many rare novels appearing for the first time in digital publishing *

Images of how the books were first published, giving your eReader a taste of the

 In this stunningly
 original book, Richard
 Wrangham argues that
 it was cooking that
 caused the
 extraordinary
 transformation of our
 ancestors from apelike
 beings to Homo
 erectus. At the heart of

Catching Fire lies an explosive new idea: the habit of eating cooked rather than raw food permitted the digestive tract to shrink and the human brain to grow, helped structure human society, and created the male-female division of labour. As our ancestors adapted to using fire, humans emerged as "the cooking apes". Covering everything from food-labelling and overweight pets to raw-food faddists, Catching Fire offers a startlingly original argument about how we came to be the social, intelligent, and sexual species we are today. "This notion is surprising, fresh and, in the hands of Richard Wrangham, utterly persuasive ... Big, new ideas do not come

along often in evolution these days, but this is one." -Matt Ridley, author of **Genome Farmers' Review** Simon and Schuster With insights from neuroscience, educational psychology, and learning theory, veteran educators Muriel and Duane Elmer provide a holistic model for how learning takes place. Their learning cycle moves beyond mere recall of information to helping learners value and apply their learning in ways that are integrated into behavior and practice. **Gregor the Overlander** Yale University Press In *The Last Fire-Eater*, renowned historian of the American South William A. Link examines the life of

Roger A. Pryor, a Virginia secessionist, Confederate general, and earnest proponent of postwar sectional reconciliation whose life involved a series of remarkable transformations.

Pryor's journey, Link reveals, mirrored that of the South. At times, both proved puzzling and contradictory.

Pryor recast himself during a crucial period in southern history between the 1850s and the close of the nineteenth century. An archetypical southern-rights advocate, Pryor became a skilled practitioner in the politics of honor. As a politician and newspaper editor, he engaged in duels and viewed the world through the cultural prism of southern honor, assuming a

more militant and aggressive stance on slavery than most of his regional peers. Later, he served in the Confederate army during the Civil War, rising to the rank of brigadier general and seeing action across the Eastern Theater. Captured late in the conflict, Pryor soon after abandoned his fiery persona and renounced extremism. He then moved to New York City, where he emerged as a prominent lawyer and supporter of the sort of intersectional detente that stood as a central facet of what southern boosters labeled the "New South." Dramatic change characterized Pryor's long life. Born in 1828, he died four months after the end of World War I. He witnessed fundamental

shifts in the South that included the destruction of slavery, the defeat of the Confederacy, and the redefinition of manhood and honor among elite white men who relied less on violence to resolve personal grievances. With Pryor's lifetime of remakings as its focus, *The Last Fire-Eater* serves as a masterful history of transformation in the South.

The Last Fire-Eater

Scholastic UK

In the mid-1990s, news headlines featured political gridlock, anti-government fanaticism, political assaults on environmental regulations, local demands to turn over federal land to the states, 'patriotic' armed militia groups,

courtroom brawls between activists and rural residents over endangered species, finger-pointing and trash-talking generally. Sound familiar? It's said that history doesn't repeat itself, but rhymes instead. Fortunately, if problems are cyclical so are solutions. I'd like to share one that we came up with back then. It's called the radical center. This is the story of its rise. I'm a former Sierra Club activist who dropped out of the 'conflict industry' in 1997 to cofound The Quivira Coalition, a nonprofit dedicated to fostering common ground between ranchers, conservationists, public land managers, and scientists. Our effort focused on resolving the long-standing feud

between ranchers and environmentalists, a hopeless fight that had imperiled the wide open spaces of our beloved West. Our idea was to find a 'third way' beyond the polarization in order to implement practical, on-the-ground goals through collaboration, not confrontation. We called it the radical center and defined its mission as "a grassroots coming-together of diverse people to discuss their common interests rather than argue their differences and who agree to work cooperatively on a pragmatic program of action that improves the well-being of all living things." Included in this book are three columns that I wrote over a period of nearly twenty years: The

Uneasy Chair (1995-1997) which was published in the newsletter of the Rio Grande Chapter of the Sierra Club, The Far Horizon (1997-2006) for the newsletter of the Quivira Coalition, and The Next West (2009-2011), which I wrote for my web site. Taken together, I believe they offer a unique look at the times from the perspective of someone on the front lines. ~ Courtney White

Southern and Western Literary Messenger and Review Scholastic Inc. "Highly accessible, authoritative, and intellectually provocative, a startlingly original theory of how Homo sapiens came to be: Richard Wrangham

forcefully argues that, a quarter of a million years ago, rising intelligence among our ancestors led to a unique new ability with unexpected consequences: our ancestors invented socially sanctioned capital punishment, facilitating domestication, increased cooperation, the accumulation of culture, and ultimately the rise of civilization itself. Throughout history even as quotidian life has exhibited calm and tolerance[,] war has never been far away, and even within societies violence can be a threat. The Goodness Paradox gives a new and powerful argument for how and why this uncanny combination of peacefulness and

violence crystallized after our ancestors acquired language in Africa a quarter of a million years ago. Words allowed the sharing of intentions that enabled men effectively to coordinate their actions. Verbal conspiracies paved the way for planned conflicts and, most importantly, for the uniquely human act of capital punishment. The victims of capital punishment tended to be aggressive men, and as their genes waned, our ancestors became tamer. This ancient form of systemic violence was critical, not only encouraging cooperation in peace and war and in culture, but also for making us who we are: Homo sapiens"--

Word of Mouse Henry Holt and Company (BYR)

In this groundbreaking new book, Ostrofsky reveals the ways that new technologies implant themselves in our daily lives and how we can easily take advantage of them to live, learn, buy, sell, work, play, communicate, and socialize better. This book gives you the tools you need to conquer information overload--and puts you in the driver's seat of the world's most potent technologies.

[The Learning Cycle](#)

Scholastic

Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol,

eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to

feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.
