[Green Communications for Energy-Efficient Wireless Systems and Networks](#) Haynes Manuals N. America, Incorporated
 Kubota Shop ManualHaynes Manuals N. America, Incorporated
The Magic School Bus and the Climate Challenge Prentice Hall
 This newly published book is intended for dual use as a textbook for students in radiation shielding courses and a reference work for shielding practitioners. It emphasizes the principles behind techniques used in various aspects of shield analysis and presents these principles in many different contexts. This approach is intended to provide a strong base of understanding in order to facilitate use of the large shielding codes that have come to dominate shielding design and analysis. An assumption is made that the reader has an understanding of mathematics through basic calculus and vector analysis as well as a knowledge of the nuclear physics of radioactive decay. For most chapters, problem sets are provided.
[Pain Psychology for Clinicians](#) IET
 Compounded with the emergence of information technology, information services have become more complex. In order to break the bottleneck in providing information services, the information behavior of the user community must be studied and library staff must be effectively trained to identify, adapt, and satisfy the information needs of every type of information seeker. Innovations in the Designing and Marketing of Information Services provides emerging research exploring the theoretical and practical aspects of improving and expanding information resources and services in

a cost-effective way and enables librarians to plan and present information services for the betterment of civil society. Featuring coverage on a broad range of topics such as e-resources, knowledge ethics, and user-friendly technology, this book is ideally designed for librarians, information scientists, behavioral scientists, information technologists, marketers, marketing executives, academicians, researchers, and students.

Product Safety and Restricted Substances in Apparel Jeffrey Frank Jones

With a Haynes manual, you can do-it-yourself...from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle, where we learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Haynes books have clear instructions and hundreds of photographs that show each step. Whether you are a beginner or a pro, you can save big with a Haynes manual! This manual features complete coverage for your John Deere Tractor Models 50, 60 and 70, covering: Routine maintenance Tune-up procedures Engine repair Cooling and heating Air conditioning Fuel and exhaust Emissions control Ignition, brakes Suspension and steering Electrical systems, and Wiring diagrams

A HILARIOUS COMPILATION OF THE WORST JOB APPLICATIONS IMAGINABLE - A PERFECT STOCKING

FILLER OR OFFICE SECRET SANTA GIFT THIS CHRISTMAS. Ever read a truly terrible job application? Or perhaps slightly exaggerated the truth on one of your own... We've all been there - but these are worse. So much worse. From overly-honest cover letters, embarrassing typos, and mortifying personal revelations, to awkward interview questions, misplaced self-confidence, and, of course, outright lies. This hilarious collection of shockingly dreadful job applications, crap CVs and excruciating interviews will have you laughing out loud, while also making you feel so much better about yourself - because at least you weren't ever this bad . . . Application for Employment I refer to the recent death of the Technical Manager at your company and hereby apply for the replacement of the deceased manager. Each time I apply for a job, I get a reply that there is no vacancy but in this case I have caught you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. The Interview: Q. Is there anything about this job that you feel you might not be very good at? A. Dealing with people. Q. What person, living or dead, would you most like to meet? A. The living one.

Sydney Smith Praeger

In modern research and development, materials manufacturing crystal growth is known as a way to solve a wide range of technological tasks in the fabrication of materials with preset properties. This book allows a reader to gain insight into selected aspects of the field, including growth of bulk inorganic crystals, preparation of thin films, low-dimensional structures, crystallization of proteins, and other organic compounds.

Product Safety and Restricted Substances in Apparel emphasis on the overview of the restricted substances present in fabrics, apparels and accessories and their acceptable limits or total ban, management of such restricted substances in the supply chain, standard and regulatory test methods. Manufacturing Restricted Substances address hazardous substances potentially used and discharged into the environment during manufacturing and related processes, not just those substances that could be present in finished products. Safety requirements and review of risk of different garments have been covered including varieties of accessories. Global and country specific regulations on the restriction of various harmful chemicals used in the manufacturing process of fabrics, apparels and related accessories are also discussed in detail. The book is aimed at textile and apparel industry professionals, retailers, factory heads, buying offices and students intending to join the industry in the areas of quality assurance covering safety and chemical compliance.

[Albert; or, The wilds of Strathnavern](#) Elsevier Science & Technology

The hugely admired author of "The Last Fine Time" preserves and makes new the sights, smells, sounds, and poetry of country living. Klinkenborg reveals the beauty of the American landscape, not from a scenic overlook, but through a screened-in porch or from the window of a pickup driving down an empty highway in the teeth of an approaching storm.

Capital Punishment examines all aspects of capital punishment in the United States. It discusses the history behind the death penalty in the United States and varying opinions about the ethics of capital punishment. Features include a glossary, further readings, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

[The Growth of Single Crystals](#) ABDO

Manufacturing processes have undergone significant developments in recent years. With the application of new technology, the productivity of companies has increased tremendously. 3D Printing and Its Impact on the Production of Fully Functional Components: Emerging Research and Opportunities is an innovative source of scholarly research on the advancements of 3D printing technology in modern manufacturing processes. Highlighting critical perspectives on topics such as industrial applications, 3D modeling, and bioprinting, this publication is ideally designed for professionals, academics, engineers, students, and practitioners interested in the latest trends in additive manufacturing.

[Agricultural Compendium for Rural Development in the Tropics and Subtropics](#) Lorenz Books

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.
