### Italy Rough Guides

A comprehensive guide to North Africa's most popular destination, this text features coverage of the resorts - Hammamet, Sousse, Port el Kantaoui - and their beaches, with details of excursions, including trips to the Star Wars film set; recommendations of places to eat and stay for all budgets; accounts of all the sights; advice on getting around the country; and background on Tunisian history, culture and society, wildlife, and the country's passion for football.

### International Review of the Science and Practice of Agriculture Springer

This book shows how the change of water paradigm has become urgent, and provides evidence for

new policies that expand water balance to green and virtual water. The issue of water security concerns drinking water supply but also food safety, linked to agricultural policy. Both rain-fed and irrigated agriculture play complementary roles in food security, and the water issue implies a holistic view of water resources. This view constitutes the book's backstory. The reader will find original ideas that can be applied everywhere because the example of Tunisia is typically a basis to illustrate a universally prevalent situation. The book deals with other important issues: desalination, wastewater recycling, water quality, groundwater overdraft, water savings, governance, knowledge valuing, education, information: upgrading the whole water systems for the future implies emancipation of the whole society.

### Quarterly Reports Showing Imports and Exports

The African Statistical Yearbook 2016 is the eighth edition jointly produced by the African Development Bank (AfDB), the African Union Commission (AUC), and the United Nations Economic Commission for Africa (ECA). As with the previous seven editions, this 2016 edition presents a time series showing how African countries performed on several economic and social indicators over the period 2007-2015. It is published consisting of two parts: a set of summary tables followed by country tables. The yearbook continues to serve the intended purpose of bringing together, in one volume, data on African countries for policy-makers, researchers and other users.
