Walking in a Winter Wonderland Wise Publications

In this second edition of Orchestral "Pops" Music: A Handbook, Lucy Manning brings forward to the present her remarkable compendium of information about this form of orchestral music. Since the appearance of the first edition in 2008, this work has proven critical to successful "pops" concert programming. With changes in publishers and agents, the discontinuation of the publication of certain original material or, worst of all, presses going out of business, music directors, orchestra conductors, and professional instrumentalists face formidable challenges in tracking down accurate information about this vast repertoire. This revised handbook alleviates the time-consuming task of researching these changes by offering a list of works for orchestral "pops" concerts that is comprehensive, informative, and current. Manning's emphasis on clarity and accuracy gives users an indispensable tool for gathering vital information on the style, instrumentation, and availability of the repertoire listed, as well as notes on its performance. The user-friendly appendices include expanded instrumentation choices, easy-to-find durations, and handy title cross-references. In addition to corrections and updates, this new edition of Orchestral "Pops" Music includes at least 1,000 new title listings. Orchestral "Pops" Music: A Handbook is the ideal tool for working conductors and orchestral librarians, as well as music program directors at colleges, conservatories, and orchestras.

In this evocative tone poem drawing us into the sights and sounds of winter, Parkers text calls us to feel the embrace of winter in all its icy mystery. Hayes has crafted a haunting, yearning melody, set in F minor and filled with both reflection and passion. The piano accompaniment is delicate as an icicle at times and also deep and profound as a heavy snow. After the final full-voiced chorus, the piece ends quietly, with a whisper from the choir.

Christmas is coming, and one little girl wants nothing more than a hippopotamus to play with and enjoy. But will Santa Claus and her parents make her Christmas wish come true? As shown in his best-selling titles *The Night Before Christmas* and *Here Comes Santa Claus*, no one can portray the holidays better than Bruce Whatley; and he does it again with *I Want a Hippopotamus For Christmas*. The song "I Want a Hippopotamus for Christmas" was written in 1950 by John Rox and became a nationwide hit in 1953 when ten-year-old Oklahoma native Gayla Peevey sang the song as a way to raise money for the Oklahoma City Zoo's first hippopotamus. In December of that year the city received Matilda the hippo for Christmas.
