Endorsed by Cambridge International Examinations Provide a key resource for your students with this revised edition for the updated 2016 syllabus (0460). This

book has been carefully prepared to cover the full curriculum for the latest Cambridge International Examinations IGCSE Geography syllabus. It is accompanied by a CD-ROM offering study and revision support. - Covers the three geographical themes: population and settlement, the natural environment, and economic development - Up-to-date case studies from around the world ensure coverage of all the required case studies - Geographical skills and geographical investigations chapters provide ideal preparation for Papers 2 and 3 Answers to all questions can be found on the Teacher's CD Rom.

**Geography** Cambridge University Press Fully updated, flexible resources taking an active-learning approach that encourages students to aim higher in the 0500, 0524 and 0990 syllabuses. Explore the mysterious River Congo in Joseph Conrad's Heart of Darkness, meet Noppakhoa - the elephant who loves to paint, and learn fiery facts about rockets. Through interesting topics and exam-style questions, this write-in language skills and practice book

provides students with the grammar practice they need for the course and beyond. The clear layout of the book makes focussing on particular grammatical concepts easy, allowing teachers to tailor lessons to their class. Suggested answers to questions are at the back of the book.

**Cambridge IGCSE Geography 2nd Edition**

Philip Allan English for Geographers is a textbook intended to be used not only by students of the university degree of Geography, but also by anybody interested in the field of geography. It is divided into seven different units, each of them dealing with a specific topic (introduction to geography, human geography, environmental geography, tourist geography, Internet for geographers, cartography and climatology). Each of the units offers the learners a variety of activities to improve their skills, mostly reading and writing in English, as well as the capacity to increase their vocabulary related to this field. Following the European philosophy that promotes the use of new technologies throughout the teaching/learning process, students are

proposed a series of activities such as an online glossary (which allows students to build up their own classroom dictionary), and a class forum (to exchange their knowledge, opinions, and so on). Eventually, at the end of each unit, learners are asked to fill out a conscious learning grid chart in order to make them aware of their learning process, as encouraged by EHEA (European Higher Education Area). After fulfilling this course, students are expected to reach level B1 according to Common European framework of reference for languages.
