What if your own father and his mistress were behind your mother's death? What if you were about to be sold off to a scumbag? What would you do?

In the nick of time, a tall, rich, and handsome guy descended from the sky and came to her rescue with a piece of contract. Xin Qing glowered at the man before her. At first, she had thought of him as her Prince Charming. In the end, he turned out to be an evil demon. "You're not allowed to go.

You can only marry me!" the man said viciously to the woman who was about to leave. Xin Qing sneered. "Isn't the ancestral behest the only

reason you're keeping me around? I'm just your tool," she said. "Who told you that?" said the man, his eyes filled with profound emotions.

"You're the mother of my child!"

Working from the Poetic Edda, the Prose Edda, and Old Norse prose narratives and laws, Jenny Jochens argues for an underlying cultural continuum of

a pagan pantheon and a set of heroic figures shared by the Germanic tribes in Europe, Britain, Scandinavia, and Iceland from A.D. 500 to 1500. Old

Norse Images of Women explores the female half of this legacy, which involves images both divine and human. In a society marked by sharp gender

divisions, women were frequently portrayed as one of four conventional types. The warrior woman was exemplified by the valkyrie, sheildmaiden, or maiden king. The wise woman was a prophetess or sorceress. The avenger is best seen in Gudrun, whose focus of revenge shifted from husband to brothers. Last, there were the whetters or inciters, who appear both in the Continental setting as Brynhildr and as ubiquitous figures in medieval

Icelandic literature, ranging from Norwegian queens to humble milkmaids.

Revelations about U.S. torture and prisoner abuse in blatant violation of the long-established and universally recognized Geneva Conventions have

horrified most Americans. Nevertheless, it has been argued that the high stakes of the War on Terror have made the protections offered by the

Conventions obsolete, or that the abuses are the work of a few rogue soldiers and officers. This book reaches past the headlines into the historical

record to document POW torture and also domestic prisoner abuse dating well back in our history as well as government and military knowledge of

and collusion in such ostensibly illegal and reprehensible acts. Is torture and prisoner abuse justified in the name of some greater good? As a society

we shall have to decide. The historical record presented here can contribute much to an informed national discussion.

In the predecessor to this book, *The Universal Vampire: Origins and Evolution of a Legend*, Brodman and Doan presented discussions of the development of the vampire in the West from the early Norse draugr figure to the medieval European revenant and ultimately to Dracula, who first appears as a vampire in Anglo-Irish Bram Stoker's novel, *Dracula*, published in 1897. The essays in that collection also looked at the non-Western vampire in Native American and Mesoamerican traditions, Asian and Russian vampires in popular culture, and the vampire in contemporary novels, film and television. The essays in this collection continue that multi-cultural and multigeneric discussion by tracing the development of the post-modern vampire, in films ranging from *Shadow of a Doubt* to *Blade*, *The Wisdom of Crocodiles* and *Interview with the Vampire*; the male and female vampires in the *Twilight* films, *Sookie Stackhouse* novels and *TrueBlood* television series; the vampire in African American women's fiction, Anne Rice's novels and in the post-apocalyptic *I Am Legend*; vampires in Japanese anime; and finally, to bring the volumes full circle, the presentation of a new Irish *Dracula* play, adapted from the novel and set in 1888.

For over a year, the photographer and journalist Gabriele Galimberti visited more than 50 countries and created colorful images of boys and girls in their homes and neighborhoods with their most prized possessions: their toys. From Texas to India, Malawi to China, Iceland, Morocco, and Fiji, Galimberti recorded the spontaneous and natural joy that unites kids despite their diverse backgrounds. Whether the child owns a veritable fleet of miniature cars or a single stuffed monkey, the pride that Galimberti captures is moving, funny, and thought provoking.

In this groundbreaking work, Ariella Azoulay thoroughly revises our understanding of the ethical status of photography. It must, she insists, be understood in its inseparability from the many catastrophes of recent history. She argues that photography is a particular set of relations between individuals and the powers that govern them and, at the same time, a form of relations among equals that constrains that power. Anyone, even a stateless person, who addresses others through photographs or occupies the position of a photograph's addressee, is or can become a member of the citizenry of photography. The crucial arguments of the book concern two groups that have been rendered invisible by their state of exception: the Palestinian noncitizens of Israel and women in Western societies. Azoulay's leading question is: Under what legal, political, or cultural conditions does it become possible to see and show disaster that befalls those with flawed citizenship in a state of exception? *The Civil Contract of Photography* is an essential work for anyone seeking to understand the disasters of recent history and the consequences of how they and their victims are represented.

In the heart of Indianapolis in the mid 1960's, through a twist of fate and fortune, a pretty young girl came to live with a thirty-seven-year-old mother and her seven children. What began as a temporary childcare arrangement between Sylvia Likens's parents and Gertrude Baniszewski turned into a crime that would haunt cops, prosecutors, and a community for decades to come... When police found Sylvia's emaciated body, with a chilling message carved into her flesh, they knew that she had suffered tremendously before her death. Soon they would learn how many others—including some of Baniszewski's own children—participated in Sylvia's murder, and just how much torture had been inflicted in one HOUSE OF EVIL

A startling exposé of the CIA's development and spread of psychological torture, from the Cold War to Abu Ghraib and beyond In this revelatory account of the CIA's secret, fifty-year effort to develop new forms of torture, historian Alfred W. McCoy uncovers the deep, disturbing roots of recent

scandals at Abu Ghraib and Guantánamo. Far from aberrations, as the White House has claimed, *A Question of Torture* shows that these abuses are the product of a long-standing covert program of interrogation. Developed at the cost of billions of dollars, the CIA's method combined "sensory deprivation" and "self-inflicted pain" to create a revolutionary psychological approach—the first innovation in torture in centuries. The simple techniques—involving isolation, hooding, hours of standing, extremes of hot and cold, and manipulation of time—constitute an all-out assault on the victim's senses, destroying the basis of personal identity. McCoy follows the years of research—which, he reveals, compromised universities and the U.S. Army—and the method's dissemination, from Vietnam through Iran to Central America. He traces how after 9/11 torture became Washington's weapon of choice in both the CIA's global prisons and in "torture-friendly" countries to which detainees are dispatched. Finally McCoy argues that information extracted by coercion is worthless, making a case for the legal approach favored by the FBI. Scrupulously documented and grippingly told, *A Question of Torture* is a devastating indictment of inhumane practices that have spread throughout the intelligence system, damaging American's laws, military, and international standing.

Why is everything that compromises greatness in art coded as 'feminine'? Has the feminist critique of Art History yet effected real change? With a new preface by Griselda Pollock, this edition of a truly groundbreaking book offers a radical challenge to a women-free Art History. Parker and Pollock's critique of Art History's sexism leads to expanded, inclusive readings of the art of the past. They demonstrate how the changing historical social realities of gender relations and women artists' translation of gendered conditions into their works provide keys to novel understandings of why we might study the art of the past. They go further to show how such knowledge enables us to understand art by contemporary artists who are women and can contribute to the changing self-perception and creative work of artists today. In March 2020 Griselda Pollock was awarded the Holberg Prize in recognition of her outstanding contribution to research and her influence on thinking on gender, ideology, art and visual culture worldwide for over 40 years. *Old Mistresses* was her first major scholarly publication which has become a classic work of feminist art history.

Medieval Punishments St. Martin's Press

In preparing a book of etiquette for ladies, I would lay down as the first rule, "Do unto others as you would others should do to you." You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be impolite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us; a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; there can be no _true_ politeness without kindness, purity, singleness of heart, and sensibility.

We all have images that we find unwatchable, whether for ethical, political, or sensory and affective reasons. From news coverage of terror attacks to viral videos of police brutality, and from graphic horror films to transgressive artworks, many of the images in our media culture might strike us as unsuitable for viewing. Yet what does it mean to proclaim something "unwatchable": disturbing, revolting, poor, tedious, or literally inaccessible? With over 50 original essays by leading scholars, artists, critics, and curators, this is the first book to trace the "unwatchable" across our contemporary media environment, in which viewers encounter difficult content on various screens and platforms. Appealing to a broad academic and general readership, the volume offers multidisciplinary approaches to the vast array of troubling images that circulate in global visual culture.

Maryam Rostampour and Marziyeh Amirizadeh knew they were putting their lives on the line. Islamic laws in Iran forbade them from sharing their Christian beliefs, but in three years, they'd covertly put New Testaments into the hands of twenty thousand of their countrymen and started two secret house churches. In 2009, they were finally arrested and held in the notorious Evin Prison in Tehran, a place where inmates are routinely tortured and executions are commonplace. In the face of ruthless interrogations, persecution, and a death sentence, Maryam and Marziyeh chose to take the radical—and dangerous—step of sharing their faith inside the very walls of the government stronghold that was meant to silence them. In *Captive in Iran*, two courageous Iranian women recount how God used their 259 days in Evin Prison to shine His light into one of the world's darkest places, giving hope to those who had lost everything and showing love to those in despair.

"The brank may be described simply as an iron framework; which was placed on the head, closing it in a kind of cage; it had in front a plate of iron, which, either sharpened or covered with spikes, was so situated as to be placed in the mouth of the victim, and if she attempted to move her tongue in any way whatever, it was certain to be shockingly injured. She thus suffered for telling her mind to some petty tyrant in office, or speaking plainly to a wrong-doer, or for taking to task a lazy, and perhaps a drunken husband." Dive into the macabre history of England and Old Europe in this treasure chest of historical punishments. In the pages of *Medieval Punishments* are punishments from a less enlightened period, creating a thoroughly researched historical document that sheds light on the evolution of society and how humans have maintained social order and addressed crime. In a town called Newcastle-on-Tyne, a drunkard cloak was a barrel that offenders were made to wear. In Anglo-Saxon times, each town was required to build stocks to hold breakers of the peace. To the Romans, beheading was considered the most honorable of deaths. It's these details that make

Medieval Punishments a compelling read for social historians and important component of human history.
