This book provides a comprehensive insight into the distinctive history of Dutch quilts. It becomes clear that Dutch quilts made a contribution to the development of quilts in the United States of America. The first Dutch inhabitants of New Amsterdam, which later became New York, brought quilts with them from their mother countries in the seventeenth century. Descriptions of these quilts can still be found in the emigrants' estate inventories that have been preserved in the New York State Archives in Albany. The second part of the book presents a selection of 71 of the total of 380 recorded antique Dutch quilts and quilted textiles, making it possible to compare antique quilts from all over the world with those from the Netherlands. The Dutch quilts can also serve as inspiring examples for the many quilts being made everywhere today.

Winner, Violet Crown Award, Writers’ League of Texas, 2008 For more than a decade, Marcia Kaylakie traveled Texas from the Panhandle to Big Bend country, from the Piney Woods to the Gulf, discovering thousands of quilts in towns from Alpine to Austin, Dimmitt to Dallas, and myriad other Texas communities large and small. Hidden away in closets, trunks, and attics, the quilts

Kaylakie found are not only heirlooms but also, owing to their histories, irreplaceable emblems of Texas heritage. This book showcases thirty-four quilts. Through them and their stories, the cultural development of the state unfolds. Most will never be exhibited or appear in any other permanent record. All Texas-made, they span the state geographically and range from the 1870s to the turn of the twenty-first century. As examples of what Texas quilting was and is as craft—and as cultural narrative—these quilts preserve a unique and compelling aspect of Texas history.
