BRAYDON CALEB

The Middle East in the Middle Ages Princeton University Press
FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY A New York Times Notable Book of 2017
The flâneur is the quintessentially masculine figure of privilege and leisure who strides the capitals of the world with abandon. But it is the flâneuse who captures the imagination of the cultural critic Lauren Elkin. In her wonderfully gender-bending new book, the flâneuse is a “determined, resourceful individual keenly attuned to the creative potential of the city and the liberating possibilities of a good walk.” Virginia Woolf called it “street haunting”; Holly Golightly epitomized it in *Breakfast at Tiffany’s*; and Patti Smith did it in her own inimitable style in 1970s New York. Part cultural meander, part memoir, *Flâneuse* takes us on a distinctly cosmopolitan jaunt that begins in New York, where Elkin grew up, and transports us to Paris via Venice, Tokyo, and London, all cities in which she’s lived. We are shown the paths beaten by such flâneuses as the cross-dressing nineteenth-century novelist George Sand, the Parisian artist Sophie Calle, the wartime correspondent Martha Gellhorn, and the writer Jean Rhys. With tenacity and insight, Elkin creates a mosaic of what urban settings have meant to women, charting through literature, art, history, and film the sometimes exhilarating, sometimes fraught relationship that women have with the metropolis. Called “deliciously spiky and seditious” by *The Guardian*, *Flâneuse* will inspire you to light out for the great cities yourself.

Catharism was a popular medieval heresy based on the belief that the creation of humankind was a disaster in which angelic spirits were trapped in matter by the devil. Their only goal was to escape the body through purification. Cathars denied any value to material life, including the human body, baptism, and the

Eucharist, even marriage and childbirth. What could explain the long popularity of such a bleak faith in the towns of southern France and Italy? *Power and Purity* explores the place of Cathar heresy in the life of the medieval Italian town of Orvieto. Based on extensive archival research, it details the social makeup of the Cathar community and argues that the heresy was central to the social and political changes of the 13th century. The late 13th-century repression of Catharism by a local inquisition was part of a larger redefinition of civic and ecclesiastical authority. Author Carol Lansing shows that the faith attracted not an alienated older nobility but artisans, merchants, popular political leaders, and indeed circles of women in Orvieto as well as Florence and Bologna. Cathar beliefs were not so much a pessimistic anomaly as a part of a larger climate of religious doubt. The teachings on the body and the practice of Cathar holy persons addressed questions of sexual difference and the structure of authority that were key elements of medieval Italian life. The pure lives of the Cathar holy people, both male and female, demonstrated a human capacity for self-restraint that served as a powerful social model in towns torn by violent conflict. This study addresses current debates about the rise of persecution, and argues for a climate of popular toleration. *Power and Purity* will appeal to historians of society and politics as well as religion and gender studies.

Ebu's-su'ud Red Wheel/Weiser

The Jurist Ebu's-su'ud (c1490-1574) occupies a key position in the history of Islamic Law. He was a scholar who, for forty years, occupied successfully the senior judicial positions in the Ottoman Empire. Confronting the problem of reconciling classical Islamic jurisprudence with the day-to-day legal needs of an empire, he earned an enduring reputation as the jurist who harmonised the Holy Law of Islam with secular practice. The book examines the substance of this reputation by showing, through Ebu's-su'ud's writings, how he adapted classical Islamic legal doctrine to contemporary needs.

Psy-Q ACLS History E-Book Project

Das Osmanische war die offizielle Sprache des Osmanischen Reiches (1299-1918). Seine Basis ist das Anatolisch-Türkische, in

das arabische und persische Elemente aufgenommen wurden. Es wird deshalb auch als Mischsprache bezeichnet. Hierbei ist besonders, daß die arabischen und persischen Wörter nicht nur als einzelne Entlehnungen in die Basissprache (Türkisch) integriert werden, sondern als komplette Phrasen erhalten bleiben. Das Osmanische ist eine vielschichtige Sprache, die in Alltagsgesprächen und der Volksliteratur ebenso Verwendung fand, wie in der klassischen osmanischen Literatur, der Verwaltung und der diplomatischen Korrespondenz. Durch verschiedene Wellen der Sprachreform entwickelte sich aus ihr das moderne Türkisch. Heute ist das Osmanische der Schlüssel zur reichhaltigen Literatur der osmanischen Türken sowie zu den Primärquellen zur Kultur-, Wirtschafts- und der politischen Geschichte mehrerer Staaten im Nahen Osten und auf dem Balkan

[Islamic Law in Palestine and Israel](#) Farrar, Straus and Giroux

Why does philosophy give some people a headache, others a real buzz, and yet others a feeling that it is subversive and dangerous? Why do a lot of people think philosophy is totally irrelevant? What is philosophy anyway? The ABCs of philosophy - easy to understand but never simplistic. Beginning with basic questions posed by the ancient Greeks - What is the world made of? What is a man? What is knowledge? What is good and evil? - *Philosophy For Beginners* traces the development of these questions as the key to understanding how Western philosophy developed over the last 2,500 years.

E-Lexicography AuthorHouse

For many years, heartache prevented Nahid Rachlin from turning her sharp novelist's eye inward: to tell the story of how her own life diverged from that of her closest confidante and beloved sister, Pari. Growing up in Iran, both refused to accept traditional Muslim mores, and dreamed of careers in literature and on the stage. Their lives changed abruptly when Pari was coerced by their father into marrying a wealthy and cruel suitor. Nahid narrowly avoided a similar fate, and instead negotiated with him to pursue her studies in America. When Nahid received the unsettling and mysterious news that Pari had died after falling down a flight of stairs, she traveled back to Iran--now under the

Islamic regime--to find out what happened to her truest friend, confront her past, and evaluate what the future holds for the heartbroken in a tale of crushing sorrow, sisterhood, and ultimately, hope.

Europe and Islam OUP Oxford

“An absorbing, dark, beautifully written” novel on the dissolution of the Austro-Hungarian Empire “written with the melancholy wit and grace of Gogol” (New Statesman, The Times) This deeply moving, deeply philosophical story set in Ukraine touches on timeless themes of uprooted identity, destiny, and loneliness. Widely praised and rarely available in English, *Weights and Measures* builds on Roth's most famous work, *The Radetzky March*. Among his final works, this fable about the disintegration of a good man transports us back in time to Eastern Europe's borderlands in the early 20th century. In this haunting and poetic novel, scrupulous artillery officer Anselm Eibenschütz is persuaded by his wife to leave behind his job as an artilleryman in the Austro-Hungarian army and take up a civilian post as Inspector of Weights and Measures in a secluded territory near the Russian border. Once there, his discipline and quiet dignity begin to dissolve as he encounters a shadowy world of smugglers, fugitives, and runaways. A deeply felt commentary on the dissolution of the Austro-Hungarian Empire, *Weights and Measures* registers on both a historical and personal level to portray the slow capitulation of a good man to insidious small-time corruption and to his own destructive passion. Part of the Pushkin Press Classics series: outstanding classic storytelling from around the world, in a stylishly original series design. From newly rediscovered gems to fresh translations of the world's greatest authors, this series includes such authors as Stefan Zweig, Hermann Hesse, Ryūnosuke Akutagawa and Gaito Gazdanov.

Online Afterlives Otto Harrassowitz Verlag

This is the first ever documented study of the 1,035 identifiable Greek city states (poleis) of the Archaic and Classical periods (c.650-325 BC). Previous studies of the Greek polis have focused on Athens and Sparta, and the result has been a view of Greek society dominated by Sophokles', Plato's, and Demosthenes' view of what the polis was. This study includes descriptions of Athens and Sparta, but its main purpose is to explore the history and organization of the thousand other city states. The main part of the book is a regionally organized inventory of all identifiable

poleis covering the Greek world from Spain to the Caucasus and from the Crimea to Libya. This inventory is the work of 47 specialists, and is divided into 46 chapters, each covering a region. Each chapter contains an account of the region, a list of second-order settlements, and an alphabetically ordered description of the poleis. This description covers such topics as polis status, territory, settlement pattern, urban centre, city walls and monumental architecture, population, military strength, constitution, alliance membership, colonization, coinage, and Panhellenic victors. The first part of the book is a description of the method and principles applied in the construction of the inventory and an analysis of some of the results to be obtained by a comparative study of the 1,035 poleis included in it. The ancient Greek concept of polis is distinguished from the modern term 'city state', which historians use to cover many other historic civilizations, from ancient Sumeria to the West African cultures absorbed by the nineteenth-century colonializing powers. The focus of this project is what the Greeks themselves considered a polis to be.

Power & Purity Pushkin Press Classics

In the book, *God and His Coexistent Relations to the Universe*, the author is rejecting the universe that Judaism, Christianity, Islam, Isaac Newton and Albert Einstein have accepted for a long period. To replace this old universe, an improved universe appeared from the thoughts of Confucius, Anaxagoras, Plato, and Jesus, who taught the death of our sun in Ch. 24 of Matthew. Unfortunately, this teaching by Jesus was quieted for fifteen centuries by Irenaeus, until Copernicus stood up and said that earth is not the center of the universe. So, an improved universe was becoming very interesting to many scientists.. This improved universe of Copernicus would expand when Kepler found that our sun has a system of eight precise planets. Slowly, the improved universe would become very clear when Leibniz found the immortal human souls and when Galileo found the bodies are made by these immortal souls. In 1766, Ben Franklin went to Germany in order to learn the immortal souls of Leibniz. In the next ten years, Americans would separate America from England, which still accepts the old universe. After this separation, more discoveries would come to the USA from German and Chinese thoughts. For example, Riemann would tell the world that the relationships of bodies in the universe can be determined only by our senses and

measurements. With Riemann's statement, the author concluded that God is always active. The author also found that God and the bodies in the universe come together with co-existent concepts. With these advances, the author rejects the old universe and says that the people of many nations will form a new religion under an active God.

How to Think Like Steve Jobs RoutledgeCurzon

Correspondence 1930-1940 Polity

Historien der Martyrer Polity

Psychology 101 as you wish it were taught: a collection of entertaining experiments, quizzes, jokes, and interactive exercises. Psychology is the study of mind and behavior: how and why people do absolutely everything that people do, from the most life-changing event such as choosing a partner, to the most humdrum, such as having an extra donut. Ben Ambridge takes these findings and invites the reader to test their knowledge of themselves, their friends, and their families through quizzes, jokes, and games. You'll measure your personality, intelligence, moral values, skill at drawing, capacity for logical reasoning, and more—all of it adding up to a greater knowledge of yourself, a higher “Psy-Q”. Lighthearted, fun, and accessible, this is the perfect introduction to psychology that can be fully enjoyed and appreciated by readers of all ages. Take Dr. Ben's quizzes to learn: - If listening to Mozart makes you smarter - Whether or not your boss is a psychopath - How good you are at waiting for a reward (and why it matters) - Why we find symmetrical faces more attractive - What your taste in art says about you

Haft Paykar Correspondence 1930-1940

This book was first published in Turkish under the title *Bilinmeyen Osmanlı*, co-authored by Prof. Dr. Said Öztürk, and 250,000 copies were printed. I answered 290 questions whereas Öztürk answered 13 in total. He collaborated regarding source details and references as well as tirelessly proofreading and editing the book. In addition, this book was later translated into Arabic; the first edition was published by Osmanlı Araştırmaları Vakfı (OSAV), Istanbul, and the second will be published by Dār al-Shouq in Cairo. The English version of this book has almost become a separate work from the aforementioned versions. Although the main part was translated into English by Ismail Ercan, the book needed a number of improvements and rewriting of some articles after referring to Western sources on the various subjects. Hence,

I changed the title as well as the format of the book mainly for this reason. But I have indicated which articles were written by Prof. Öztürk. As preparation for this book, the questions it deals with have been discussed in academic research ever since 1983, and, in addition, hundreds of conferences have been held throughout Anatolia. As a result, over 5000 questions have accumulated in our "question desk," submitted in written form by both readers and listeners. For example, the issue of harem comes first, with 503 questions. The issue of whether the Ottoman Sultāns, particularly Bayezid the Thunderbolt, drank alcohol ranked second, with 276 questions. These were followed by such questions as fratricide rights and freedoms in the Ottoman state, the issue of the Sultāns going on pilgrimage, if Sultān Waḥīduddin was a traitor, etc. Needless to say, we have been inspired by similar research done in this field. This book will consist of four parts. In Part One we will deal with weighty questions on the political history of the Ottoman state and the replies to them. However, such questions are most frequently asked about each Sultān – even if they are related to law or economics. For instance, we will not ignore the issue of fratricide in his law when discussing Meḥmed the Conqueror and the charges of the genocide of the Kurds when it comes to Selim the Excellent. In Part Two we will deal with the questions on social life in the Ottoman state and the harem. In Part Three we will look at those issues regarding the Ottoman legislative system and the organization of the state. In Part Four we will answer some questions about the economy and financial law of the Ottoman state. Unfortunately, we will not deal with all the questions we have received in all the aforesaid fields owing to insufficient space. Yet it is our view that if something cannot be achieved completely, we should not give up entirely and resign ourselves to what has been done. There are 307 different subjects in this book; some of them as below: - War (jihād) in the Ottoman state and the legal principles of the policy of conquest in the Ottoman state - The Devşirme (Conscription) System - The allegations that the Ottoman state adhered to the Bektaşī and Aleviyye traditions

during the years of its foundation until Sultān Selim the Excellent and that the Abdalan-ı Rum consisted of Bektaşī Babas and Alevi Dedes. - On rumors that some Ottoman Sultāns were addicted to alcohol and even held illegitimate carousals at the Palace. - The legality of fratricide in the Ottoman state and some claims by some historians regarding savagery and massacre for the sake of claiming the Sultanat. - There are claims that Sultān Meḥmed the Conqueror was sympathetic toward Christianity and corresponded with the Pope. - On the Ottoman State offering assistance to the Andalusian state that was destroyed in 1492. - Ottoman Harem. - Ottoman legal codes. - Ottoman legal system and Islamic law. - Which events sowed the seeds of hatred between Arabs and Turks, both of whom are Muslims? - The reasons for the decline and fall of the Ottoman State. - The capitulations as one reason for terminating the Ottoman State.

"It was a refreshing, old-fashioned pleasure to read Julie Scott Meisami's verse translation of, and introduction and notes to, this twelfth-century Persian allegorical romance." —Orhan Pahmuk, in the Times Literary Supplement

Tales of the Narts John Benjamins Publishing

Technical translation (and technical terminology) encompasses the translation of special language texts. 1. "Style and Register" covers clarity of style, culture-specific and author-reader conventions and expectation. 2. "Special Applications" deals with the contribution of translation to the dissemination of science. 3. "Training and Autodidactic Approaches for Technical Translators" translators must master a broad range of frequently unanticipated topics, as well as linguistic competence. 4. "Text Analysis and Text Typology as Tools for Technical Translators" focuses attention on text typology and SGML in human translation and CAT. 5. "Translation-Oriented Terminology Activities" explores the different aspects of terminology: knowledge management, language planning, terminology resources and representation of

concept systems.

Philosophy for Beginners Anchor

Although this booklet is based on broken pottery found during the excavation of the Agora, the author ranges far beyond the confines of Athens in her discussion of the purpose and significance of different amphora types. Amphoras were used in the ancient world to transport various different types of products, including wine and oil. The author shows how chronological variations in shape and the geographical clues offered by stamped handles make amphoras a fascinating source of economic information. The booklet illustrates many different forms of amphora, all set into context by the well-written text.

Osmanisch Penguin

Both a love story and a celebration of the warmth and elegance of Iranian culture, *A Mirror Garden* is a genuine fairy tale of an exuberant heroine who has never needed rescuing.

"Captivating.... Farmanfarmaian's sumptuously detailed recollections are a rare, insidery look at two lost worlds." —Vogue In Persia in 1924, when a child still had to worry about hostile camels in the bazaar and a nanny might spin stories at her pillow until her eyes fell shut, the extraordinary and irresistible Monir Shahroudy Farmanfarmaian was born. From the enchanted basement storeroom where she played as a girl to the penthouse high above New York City where she would someday live, this is the delightful and inspiring story of her life as an artist, a wife and mother, a collector, and an Iranian. Here we see a mischievous girl become a spirited woman who defies tradition.

A Grammar of Orkhon Turkic Edinburgh University Press

In this book Franco Cardini examines the ideas, prejudices, disinformation and anti-information that have formed and coloured Europe's attitude towards Islam over 1500 years. *God and His Coexistent Relations to the Universe*: Penguin An anthology of notable poetry and poets in the history of Turkey. Some discussion of the general character, the verse-form, the meters, and the development of Ottoman poetry is included in the beginning of the collection.
