*A Textbook of Engineering Mathematics
(For First Year ,Anna University)*

Technical Publications

Deze bundel gaat over de vorming van identiteit door het samenspel van etniciteit, nationalisme en de effecten van globalisering. De essays in Crossroad Civilisations: Ethnicity, Nationalism and Globalism in Asia maken de gelaagdheid en de complexiteit hiervan duidelijk.

Artificial Intelligence and Legal Analytics
Arihant Publications India limited

This is the first book of its kind, which contains the complete syllabus of second semester prescribed by Amity University, Noida (UP). The principal goal of this book is to provide the reader with a thorough knowledge of fundamental concepts and methods of Applied Mathematics used in different engineering disciplines. This book containing a large number of solved exercise from question papers of examinations held by various universities have been attached and solved in this book. Contents: Linear Algebra and Matrices; Complex Analysis; Vector Calculus; Probability and Statistics; Tables; etc.

Dictionary of International

Biography Abhishek Publications

India today is a vibrant free-market democracy, a nation well on its way to overcoming decades of widespread poverty. The nation's rise is one of the great international stories of the late twentieth century, and in India Unbound the acclaimed columnist Gurcharan Das offers a sweeping economic history of

India from independence to the new millennium. Das shows how India's policies after 1947 condemned the nation to a hobbled economy until 1991, when the government instituted sweeping reforms that paved the way for extraordinary growth. Das traces these developments and tells the stories of the major players from Nehru through today. As the former CEO of Proctor & Gamble India, Das offers a unique insider's perspective and he deftly interweaves memoir with history, creating a book that is at once vigorously analytical and vividly written. Impassioned, erudite, and eminently readable, India Unbound is a must for anyone interested in the global economy and its future.

English and Communication Skills
Cambridge University Press

The importance of various electrical machines is well known in the various engineering fields. The book provides comprehensive coverage of the magnetic circuits, magnetic materials, single and three phase transformers and d.c. machines. The book is structured to cover the key aspects of the course Electrical Machines - I. The book starts with the explanation of basics of magnetic circuits, concepts of self and mutual inductances and important magnetic materials. Then it explains the fundamentals of single phase transformers including the construction, phasor diagram, equivalent circuit, losses, efficiency, methods of cooling, parallel operation and autotransformer. The chapter on three phase transformer provides the detailed discussion of

construction, connections, phasor groups, parallel operation, tap changing transformer and three winding transformer. The various testing methods of transformers are also incorporated in the book. The book further explains the concept of electromechanical energy conversion including the discussion of singly and multiple excited systems. Then the book covers all the details of d.c. generators including construction, armature reaction, commutation, characteristics, parallel operation and applications. The book also includes the details of d.c. motors such as characteristics, types of starters, speed control methods, electric braking and permanent magnet d.c. motors. Finally, the book covers the various testing methods of d.c. machines including Swinburne's test, brake test, retardation test and Hopkinson's test. The book uses plain, lucid language to explain each topic. The book provides the logical method of explaining the various complicated topics and stepwise methods to make the understanding easy. Each chapter is well supported with necessary illustrations, self-explanatory diagrams and variety of solved problems. All the chapters are arranged in a proper sequence that permits each topic to build upon earlier studies. The book explains the philosophy of the subject which makes the understanding of the concepts very clear and makes the subject more interesting.

Publishers' International ISBN Directory
Springer

This book describes how text analytics and computational models of legal reasoning will improve legal IR and let computers help humans solve legal problems.

Sustainable Waste Management: Policies

and Case Studies S. Chand Publishing

While writing the book, we have continuously kept in mind the examination requirements of the students preparing for U.P.S.C.(Engg. Services) and A.M.I.E.(I) examinations. In order to make this volume more useful for them, complete solutions of their examination papers up to 1975 have also been included. Every care has been taken to make this treatise as self-explanatory as possible. The subject matter has been amply illustrated by incorporating a good number of solved, unsolved and well graded examples of almost every variety.

India Who's who Penguin UK

This book presents selected, high-quality research papers from the International Conference on Electronic Systems and Intelligent Computing (ESIC 2020), held at NIT Yupia, Arunachal Pradesh, India, on 2 - 4 March 2020. Discussing the latest challenges and solutions in the field of smart computing, cyber-physical systems and intelligent technologies, it includes papers based on original theoretical, practical and experimental simulations, developments, applications, measurements, and testing. The applications and solutions featured provide valuable reference material for future product development.

Identity in Crossroad Civilisations World Scientific Publishing Company

This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management (ICDAM 2020), held at Jan Wyzykowski University, Poland, during June 2020. The book covers the topics in data analytics, data management, big data, computational intelligence, and communication networks. The book presents innovative work by leading

academics, researchers, and experts from industry which is useful for young researchers and students.

'His ideas and his contribution to Indian literature were . . . revolutionary' —The Hindu Divya leads a blissful life within the secure walls of the palace even as the world outside rages with caste politics and religious strife, until one night of pleasure changes her entire world. She gets pregnant only to be spurned by her lover. To preserve her high born family's name she leaves her sheltered existence and trudges through life on her own, first as a slave and then as a court dancer. Adversity finally opens her eyes to the truth—a woman of a high family is not free. Only a prostitute is free. Divya decides that, by enslaving her body, she will preserve the freedom of her mind. Set in the first century BC against a background of the conflict for supremacy between Hindu and Buddhist ideologies, Divya is a poignant tale that combines vivid imagination with rich historical details. 'Reminiscent of George Orwell . . . Here too is the biting satire of society as seen through the savage eye of an uncompromising non-conformist'—Dawn *Asian Books News Letter* Springer Nature This book shows that it is possible to provide a fully rigorous treatment of calculus for those planning a career in an area that uses mathematics regularly (e.g., statistics, mathematics,

economics, finance, engineering, etc.). It reveals to students on the ways to approach and understand mathematics. It covers efficiently and rigorously the differential and integral calculus, and its foundations in mathematical analysis. It also aims at a comprehensive, efficient, and rigorous treatment by introducing all the concepts succinctly. Experience has shown that this approach, which treats understanding on par with technical ability, has long term benefits for students.

While preparing for Class XII Board Exams, many students often burn the midnight oil by the sidewise preparation of JEE Mains which is the most reputed Engineering Entrance Exam in India conducted by The Central Board of Secondary Education (CBSE). As the students are well-known about the syllabus of this exam which appears tough by the inclusion of subjects like Physics, Chemistry and mathematics, the book shown in the right side is of great help to cope up its difficulty level this year. Titled '17 Years' JEE MAIN Chapterwise Chemistry' the book is a revised version and provides the detailed solutions on 20 chapters of Chemistry from 2002 to 2018. The manner in which the solutions have been made is easy to grasp. For self-evaluation, 10 Mock Tests is attached in the book along with free Online Practice as well to suit the students' comfortability. Also, Solved Papers of Previous Years' Questions (2015-2018) is charted along the book to familiarize students with the exam pattern. Designed as per the students' perspective, it is a premium book to support the dream of leading success in the upcoming JEE MAIN. Table of

Content Some Basic Concepts of Chemistry, States of Matter, Atomic Structure, chemical Bonding, Thermodynamics, Solutions, Equilibrium, Redox Reactions and Electrochemistry, Chemical Kinetics and Surface Chemistry, Periodicity of Elements, Principles and Processes of Metallurgy, Hydrogen, s and p Block Elements, d and f Block Elements and Coordination Chemistry, Environmental Chemistry, General Organic Chemistry, Hydrocarbons and their Halogen Derivatives, Organic Compounds Containing Oxygen (Alcohols, Ethers, Aldehydes, Ketones, Carboxylic Acids and their Derivatives), Organic Compounds Containing Nitrogen (Amines and Diazonium Salts), Polymers and Biomolecules, Analytical Chemistry and Chemistry in Everyday Life, Practice Sets and Solved Papers for JEE MAIN. this book includes different aspects of verbal and non verbal communication for honing these skills in the students. The theoretical and practical treatment given to developing listening, speaking, reading and writing skills has been presented in the most simple way, which the learners will be able to appreciate and assimilate with ease. The reading sections have been enriched by some of the greatest short stories, essays and poems from the vast ocean of english literature. They are importal pieces and continue to haunt generations. Such delicious and delectable gems cannot but spellbind us. The sheer joy of communicating with the great masters is ineffable. They both instruct and entertain. Above all, they will elevate mind and spirit. the other essential elements such as essentials for effective communication and grammar at have

been explained with facility and felicity.

Math 1 B Amsterdam University Press

This book constitutes the refereed proceedings of the Second International Conference on Smart Trends in Information Technology and Computer Communications, SmartCom 2017, held in Pune, India, in August 2017. The 38 revised papers presented were carefully reviewed and selected from 310 submissions. The papers address issues on smart and secure systems; smart and service computing; smart data and IT innovations.

Smart Trends in Information Technology and Computer Communications Springer Nature

Math 1 B

Electrical Machines - I

The book presents high-quality research papers from the Seventh International Conference on Solid Waste Management (IconSWM 2017), held at Professor Jayashankar Telangana State Agricultural University, Hyderabad on December 15-17, 2017. The conference, an official side event of the high-level Intergovernmental Eighth Regional 3R Forum in Asia and the Pacific, aimed to generate scientific inputs into the policy consultation of the Forum co-organized by the UNCRD/UNDESA, MoEFCC India, MOUD India and MOEJ, Japan. Presenting research on solid waste management from more than 30 countries, the book is divided into three volumes and addresses various issues related to innovation and implementation in sustainable waste management, segregation, collection, transportation of waste, treatment technology, policy and strategies, energy recovery, life cycle analysis, climate change, research and business opportunities.

A Textbook of Manufacturing Technology

A biographical record of contemporary

achievement together with a key to the location of the original biographical notes.

The Big Heart

This two-volume set constitutes the refereed proceedings of the Third International Conference on Recent Trends in Image Processing and Pattern Recognition (RTIP2R) 2020, held in Aurangabad, India, in January 2020. The 78 revised full papers presented were carefully reviewed and selected from 329 submissions. The papers are organized in topical sections in the two volumes. Part I: Computer vision and applications; Data science and machine learning; Document understanding and Recognition. Part II: Healthcare informatics and medical imaging; Image analysis and recognition; Signal processing and pattern recognition; Image and signal processing in Agriculture.

New Serial Titles

Sparkling stories of love, longing and heartbreak in the city by Ravish Kumar, journalist, TV anchor and bestselling author of *The Free Voice* A boy from

Bihar living in Lajpat Nagar likes a momo-seller from the Northeast; she likes him too, but when he gifts her a token from his village, his dreams come crashing down. Samar travels with his beloved in a DTC bus in Delhi, the only space in the city where they can meet, but he's afraid to call out her name for fear it will be recognized. A couple shelters from rain underneath a flyover, hoping for a moment of seclusion, but staring eyes pour water on their dreams. And a girl lets herself into her lover's rented room, finds a bunch of letters from his past flames, and leaves him an unusual farewell note. In these crisp, powerful, micro stories, the celebrated journalist, TV anchor and writer Ravish Kumar brings alive the love, longing and heartbreak which flourish in the city's spaces. And even as lovers find the niches they need, the city itself shapes their relationships. Brilliantly translated from the bestselling Hindi original *Ishq Mein Shahar Hona, A City Happens in Love* is a tribute to the modern Indian city, its capaciousness, and to the power of love.
