ROBINSON CANTU

Westermanns Monatshefte transcript
Verlag

No one in their right mind travels across Siberia in the middle of winter in a modified Russian jeep, with only a CD player (which breaks on the first day) for company. But Jacek Hugo-Bader is no ordinary traveler. As a fiftieth birthday

present to himself, Jacek Hugo-Bader sets out to drive from Moscow to Vladivostok, traversing a continent that is two and a half times bigger than America, awash with bandits, and not always fully equipped with roads. But if his mission sounds deranged it is in keeping with the land he is visiting. For Siberia is slowly dying — or, more accurately, killing itself. This is a traumatized post-Communist landscape peopled by the homeless and the hopeless: alcoholism is endemic, as are suicides, murders, and deaths from

AIDS. As he gets to know these communities and speaks to the people, Hugo-Bader discovers a great deal of tragedy, but also dark humor to be shared amongst the reindeer shepherds, the former hippies, the modern-day rappers, the homeless and the sick, the shamans, and the followers of 'one of the six Russian Christs,' just one of the many arcane religions that flourish in this isolated, impossible region.

Verzeichnis lieferbarer Bücher Routledge
Ausgehend von einer kritischen

Bestandsaufnahme der Lehr- und Lernsituation an koreanischen und taiwanesischen Germanistik-Abteilungen wird im vorliegenden Buch eine DaF-Unterrichtskonzeption vorgeschlagen, die das Lernen in einer interkulturellen germanistischen Lerngemeinschaft als dreifache Brechung einer ‚interkulturellen Linguistik‘ bestimmt: als ‚interkulturelle Semantik‘, als ‚interkulturelle Landeskunde‘ und als ‚interkulturelle Kommunikation‘. Es wird dafür argumentiert, dass der akademische Deutschunterricht in zielsprachenfernen Ländern nur über ernsthafte semantische, landeskundliche und kommunikative Lehrinhalte, die sowohl die Lernerseite als auch die Lehrerseite berücksichtigen, ein sinnvolles Unterfangen darstellt, von dem beide Seiten der Lerngemeinschaft intellektuell profitieren können.

Gendered Encounters between Germany and Asia Random House

This volume summarizes recent scholarship on German-American relations in the field of education until World War I. The articles prove the various influences of German scholarship and institutions on the development of the American system of

education from kindergarten to university. The book provides an overview for the benefit of scholars, students and the interested general reader. As a cooperative effort of German and American scholars the volume is intended to stimulate further exploration of these themes on both continents.

The Call of Korea Springer

How ideas, individuals, and political traditions from Weimar Germany molded the global postwar order The Weimar Century reveals the origins of two dramatic events: Germany's post-World War II transformation from a racist dictatorship to a liberal democracy, and the ideological genesis of the Cold War. Blending intellectual, political, and international histories, Udi Greenberg shows that the foundations of Germany's reconstruction lay in the country's first democratic experiment, the Weimar Republic (1918-33). He traces the paths of five crucial German émigrés who participated in Weimar's intense political debates, spent the Nazi era in the United States, and then rebuilt Europe after a devastating war. Examining the unexpected stories of these diverse

individuals—Protestant political thinker Carl J. Friedrich, Socialist theorist Ernst Fraenkel, Catholic publicist Waldemar Gurian, liberal lawyer Karl Loewenstein, and international relations theorist Hans Morgenthau—Greenberg uncovers the intellectual and political forces that forged Germany's democracy after dictatorship, war, and occupation. In restructuring German thought and politics, these émigrés also shaped the currents of the early Cold War. Having borne witness to Weimar's political clashes and violent upheavals, they called on democratic regimes to permanently mobilize their citizens and resources in global struggle against their Communist enemies. In the process, they gained entry to the highest levels of American power, serving as top-level advisors to American occupation authorities in Germany and Korea, consultants for the State Department in Latin America, and leaders in universities and philanthropic foundations across Europe and the United States. Their ideas became integral to American global hegemony. From interwar Germany to the dawn of the American century, The Weimar Century sheds light on the crucial

ideas, individuals, and politics that made the trans-Atlantic postwar order.

Korea Princeton University Press

There is no shortage of politicians who make a habit of shooting from the hip, but it is much rarer to find one who speaks from the heart. Vaclav Havel knows no other way to speak, or to write. Both as a dissident and as a playwright it was his sworn purpose for many years to combat evil with nothing but truth. As president of Czechoslovakia, and now of the Czech Republic, he has clung to that habit, refusing to turn over either his conscience or his voice to political handlers and professional speechwriters. Instead he assumes the additional burden--for him, it is a distinct pleasure--of composing all of his oratory. Audiences from New York to New Delhi, Oslo to Tokyo, have been the luckier for his decision. This volume consists of thirty-five of these essays, written between the years 1990 and 1996, that manage to be both profoundly personal and profoundly political. Havel writes of totalitarianism, its miseries and the nonetheless difficult emergence from it. He describes how his country and the other postcommunist countries are

learning democracy from scratch and are encountering obstacles from inside and out. He marvels at the single technology-driven civilization that envelops the globe, and the challenges this presents to multicultural realities. He invokes the duty of every person alive to prevent hatred and fear from derailing history ever again. He acknowledges "the advantage it is for doing a good job as president to know that I do not belong in the position and that I can at any moment, and justifiably, be removed from it." And he reminds us that--contrary to all appearances--common sense, moderation, responsibility, good taste, feeling, instinct, and conscience are not alien to politics, but are the very key to its long-term success.

The history of German medicine has undergone intense scrutiny because of its

indelible connection to Nazi crimes. What is less well known is that Meiji Japan adopted German medicine as its official model in 1869. In *Doctors of Empire*, Hoi-eun Kim recounts the story of the almost 1,200 Japanese medical students who rushed to German universities to learn cutting-edge knowledge from the world leaders in medicine, and of the dozen German physicians who were invited to Japan to transform the country's medical institutions and education. Shifting fluently between German, English, and Japanese sources, Kim's book uses the colourful lives of these men to examine the impact of German medicine in Japan from its arrival to the pinnacle of its influence and its abrupt but temporary collapse at the outbreak of the First World War.

Transnational history at its finest, *Doctors of Empire* not only illuminates the German origins of modern medical science in Japan but also reinterprets the nature of German imperialism in East Asia.

MATLAB Springer

As a world economy emerged from the 16th-17th centuries onwards, a global cashless payment system arose. This had

its base in Europe, first in Italy, then in the rising regions of the north-west, with Amsterdam and then London as the central financial market. The mutual quotation of exchange rates, which provide the data tabulated and analysed here, mark the integration into a global network of all areas with significant economic potential. The primary aim of this book is to provide a compact account of the exchange rates in all these financial markets, from the late 16th century up to the First World War. This makes possible an instant conversion between the major world currencies at nearly any date within that period, while the important introduction provides the explanation and context of developments. The present handbook therefore serves as an invaluable resource for those concerned with all aspects of commercial and financial history.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain

in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Literatur, Universalie und Kulturenspezifikum Routledge

This fictionalized account imagines the life of Sir Richard Francis Burton--a 19th-century British colonial officer and translator with a rare ability to assimilate into indigenous cultures.

Korean Tales; Being a Collection of Stories Translated from the Korean Folk Lore, Together with Introductory Chapters Descriptive of Korea New Directions Publishing Corporation

This book examines the history of the German-Korean relationship from the late nineteenth to the twenty-first century, focusing on the nations' varied encounters

with each other during the last years of the Yi dynasty, the Japanese occupation of Korea, the Cold War, and the post-Cold War era. With essays from a range of internationally respected scholars, this collection moves between history, diplomacy, politics, education, migration, literature, cinema, and architecture to uncover historical and cultural intersections between Germany and Korea. Each nation has navigated the challenges of modernity in different ways, and yet traditional East-West dichotomies belie the deeper affinities between them.

This book points to those affinities, focusing in particular on the past and present internal divisions that perhaps make Germany and Korea as similar as Germany and Japan.

Neuaufbau der Demokratie in Deutschland und Korea Legare Street Press

"A collection of seventeen 'microepics' written by Peter Handke on trips around the world, from the Balkans to the Pyrenees, from Salzburg to the Sea of Hokkaido in Japan."--P. [4] of cover.

A Gamut of Games CRC Press

This volume contributes to an emerging field of Asian German Studies by bringing

together cutting-edge scholarship from international scholars working in a variety of disciplines. The chapters survey transnational encounters between Germany and East Asia since 1900. By rejecting traditional dichotomies between the East and the West or the colonizer and the colonized, these essays highlight connectedness and hybridity. They show how closely Germany and East Asia cooperated and negotiated the challenges of modernity in a range of topics, such as politics, history, literature, religion, environment, architecture, sexology, migration, and sports.

Wöchentliches Verzeichnis der erschienenen und der vorbereiteten Neuigkeiten des deutschen Buchhandels
Iudicium

Dieses Buch versammelt internationale Beiträge, die verschiedene theoretische Modelle von Kulturkontakten vorstellen sowie historische und aktuelle Kulturkontakte - in erster Linie aus dem Bereich der deutsch-japanischen Beziehungen - behandeln. Hier geht es z.B. um japanische »Selbstvorstellungsdiskurse«, um die Übernahme westlicher Musik in Asien, um

den »Proletkult« im Japan der 1920er Jahre und um westliche literarische Japan-Wahrnehmungen. Auch aktuelle Fragen des Kulturkontaktes werden thematisiert - etwa hinsichtlich der Japan-Thematik bei Elfriede Jelinek oder ob das Gegenwartstheater als ein sich von Kulturen überhaupt ablösender postkultureller »Transitraum« zu begreifen ist.

A Cat, a Man, and Two Women Harper Collins

After the early death of her philandering husband, Etsuko moves into her father-in-law's house, where she numbly submits to the old man's advances. But soon she finds herself in love with the young servant Saburo. Tormented by his indifference, yet invigorated by her desire, she makes her move, with catastrophic consequences.

New Frontiers Courier Corporation
This volume provides new insights into gendered interactions over the past two centuries between Germany and Asia, including India, China, Japan, and previously overlooked Asian countries including Vietnam, the Philippines, Thailand, and Korea. This volume presents

scholarship from academics working in the field of German-Asian Studies as it relates to gender across transnational encounters in the nineteenth and twentieth centuries. Gender has been a lens of analysis in isolated published chapters in previous edited volumes on German-Asian connections, but nowhere has there been a volume specifically dedicated to the analysis of gender in this field. Rejecting traditional notions of West and East as seeming polar opposites, their contributions to this volume attempts to reconstruct the ways in which German and Asian men and women have cooperated and negotiated the challenge of modernity in various fields.

A novella and two short stories reveal Tanizaki at his best and most bizarre
Doctors of Empire University of Toronto Press

The Ottoman Army had a significant effect on the history of the modern world and particularly on that of the Middle East and Europe. This study, written by a Turkish and an American scholar, is a revision and corrective to western accounts because it is based on Turkish interpretations, rather than European interpretations, of events. As the world's dominant military machine from 1300 to the mid-1700's, the Ottoman Army led the way in military institutions, organizational structures, technology, and tactics. In decline thereafter, it nevertheless remained a considerable force to be counted in the balance of power through 1918. From its nomadic origins, it underwent revolutions in military affairs as well as several transformations which enabled it to compete on favorable terms with the best of armies of the day. This study tracks the growth of the Ottoman Army as a professional institution

from the perspective of the Ottomans themselves, by using previously untapped Ottoman source materials. Additionally, the impact of important commanders and the role of politics, as these affected the army, are examined. The study concludes with the Ottoman legacy and its effect on the Republic and modern Turkish Army. This is a study survey that combines an introductory view of this subject with fresh and original reference-level information. Divided into distinct periods, Uyar and Erickson open with a brief overview of the establishment of the Ottoman Empire and the military systems that shaped the early military patterns. The Ottoman army emerged forcefully in 1453 during the siege of Constantinople and became a dominant social and political force for nearly two hundred years following Mehmed's capture of the city. When the army began to show signs of decay during the mid-seventeenth century, successive Sultans actively sought to transform the institution that protected their power. The reforms and transformations that began in 1606 successfully preserved the army until the outbreak of the Ottoman-Russian War in 1876. Though the war was

brief, its impact was enormous as nationalistic and republican strains placed increasing pressure on the Sultan and his army until, finally, in 1918, those strains proved too great to overcome. By 1923, Mustafa Kemal Atatürk emerged as the leader of a unified national state ruled by a new National Parliament. As Uyar and Erickson demonstrate, the old army of the Sultan had become the army of the Republic, symbolizing the transformation of a dying empire to the new Turkish state make clear that throughout much of its existence, the Ottoman Army was an effective fighting force with professional military institutions and organizational structures.

Globetrotter, Abenteurer, Goldgräber
Manchester University Press

Die Kultur- und Geisteswissenschaften haben in jüngster Zeit die Debatte um sogenannte "Universalien" neu angeregt: Betrachten wir auch Literatur als "Universalie", die in jeder Kultur anzutreffen ist, so können wir uns fragen: a) was zeichnet Literatur als anthropologische Konstante aus; b) welche spezifischen Prägungen von "Literatur" sind in den verschiedenen Sprach-, Zeit-

und Kulturräumen anzutreffen – und wie lassen sie sich vergleichen; c) wie ist es der Literatur im Verlauf der Kontaktgeschichte menschlicher Kulturen gelungen, zwischen verschiedenen, oft divergierenden Auffassungen zu vermitteln? Dabei wird auch das weite Feld literarischer Grenzenüberschreitungen und Brückengänge angeschnitten:

Übersetzungen, polyglotte oder "interkulturelle" Literaturen, Reise- und ethnographische Berichte. Der Hauptteil des Bandes widmet sich dem Wechselspiel von kultureller Geprägtheit und universalem literarischen Ausdruckswillen – theoretisch fundiert; in Beispielanalysen mit Blick von außen auf die deutschsprachige Literatur sowie in der Frage nach der Repräsentation von Welt in Texten der

deutschsprachigen Literatur. Das Schlusskapitel "Interkulturelle Textwerkstatt" gibt Einblick in einen zunehmend zentral werdenden Aspekt der Gegenwartsliteratur: Vorgestellt werden Gedichte und Erzählungen von Autorinnen und Autoren, die sich bewusst für Deutsch als ihre Schreibsprache entschieden haben - Marica Bodrožić, Tzveta Sofronieva, Yoko Tawada, José F.A. Oliver und Ilija Trojanow.
