EVAN CHACE

Core Commitments for Children in Humanitarian Action John Wiley & Sons
Covering the management of critically ill newborns from the first minute of life through the first 72 hours, this practical, evidence-based and clinically-informed guide will provide all members of the pediatric care team with the essential information to save lives and prevent disability. With chapters on neonatal

transport, resuscitation, ventilation and ethical issues, the content is further illustrated with case studies illustrating the real-world aspects of identifying critical signs and symptoms, diagnostics and treatment in multiple settings. As well as including numerous clear diagrams and summary tables, the text includes algorithms based on international guidelines to help navigate the reader through the delivery of care, and a comprehensive listing of drugs and dosages, serving as a quick reference guide when making treatment decisions.

This is essential reading for pediatric residents, fellows and junior faculty, neonatal intensive care nurses, paramedics, obstetricians, midwives, anesthesiologists and emergency medicine physicians.

Harrison's Manual of Oncology

Springer

The S.T.A.B.L.E. Program is a neonatal education program that focuses on the post-resuscitation/pre-transport stabilization care of sick newborns. S.T.A.B.L.E. stands for the 6 assessment parameters covered in the program:

Sugar, Temperature, Airway, Blood pressure, Lab work, and Emotional support for the family. The S.T.A.B.L.E. Program is designed to provide important information about neonatal stabilization for maternal/infant healthcare providers in all settings - from community hospitals and birth centers, to emergency rooms and hospital environments.

Chronic disease management programme (PROLANIS) in Indonesia PT. Sonpedia Publishing Indonesia

This edited volume sets the stage for discussion on Education 4.0, with a focus on applied degree education and the future of work. Education 4.0 refers to the shifts in the education sector in response to Industry 4.0 where digital transformation is impacting the ways in which the world of work and our everyday lives are becoming increasingly automated. In the applied degree sector, significant change and transformation is

occurring as leaders, educators and partners evolve smart campus environments to include blended learning, artificial intelligence, data analytics, BYOD devices, process automation and engage in curriculum renewal for and with industries and professions. This volume aims to profile and enhance the contribution of applied educational practice and research particularly in the applied degree sector and includes contributions that show case real world outcomes with students and industry as partners. This edited volume includes a wide range of topics, such as rethinking the role of education and educators; curriculum and the future of work; industrial partnership, collaboration and work integrated learning; vocational and professional practices; students, industry and professions as partners; employability skills and qualities for the 21st century world of work; innovative pedagogy and instructional design; adaptive learning technologies; and data analytics, assessment and feedback. The contributors come from different parts of the world in higher education, including, Canada, China, Finland, Germany, Hong

Kong, Italy, Macau, Singapore and the United Kingdom.

Rudolph's Pediatrics Penerbit Adab Kepaniteraan di IKM-KP Fakultas Kedokteran diberikan dalam bentuk pembekalan dan mengasah keterampilan di wahana pembelajaran, salah satunya adalah Puskesmas. Sebelum dokter muda terjun ke Puskesmas diberikan pembekalan terkait Puskesmas di era Jaminan Kesehatan Nasional, menyusun perencanaan di Puskesmas dalam kegiatan Miniproject, mahasiswa juga memberikan penyuluhan kesehatan kepada masyarakat, salah satunya berupa penyuluhan terkait masalah gizi.

Neonatal Emergencies McGraw-Hill Education / Medical

Providing a solid foundation in the normal development of functional movement, Functional Movement Development Across the Life Span, 3rd Edition helps you recognize and understand movement disorders and effectively manage patients with abnormal motor function. It begins with coverage of basic theory, motor development and motor control, and evaluation of function, then discusses the body systems contributing to functional

movement, and defines functional movement outcomes in terms of age, vital functions, posture and balance, locomotion, prehension, and health and illness. This edition includes more clinical examples and applications, and updates data relating to typical performance on standardized tests of balance. Written by physical therapy experts Donna J. Cech and Suzanne "Tink" Martin, this book provides evidence-based information and tools you need to understand functional movement and manage patients' functional skills throughout the life span. - Over 200 illustrations, tables, and special features clarify developmental concepts, address clinical implications, and summarize key points relating to clinical practice. - A focus on evidence-based information covers development changes across the life span and how they impact function. - A logical, easy-to-read format includes 15 chapters organized into three units covering basics, body systems, and age-related functional outcomes respectively. - Expanded integration of ICF (International Classification of Function) aligns learning and critical thinking with current health care models. - Additional

clinical examples help you apply developmental information to clinical practice. - Expanded content on assessment of function now includes discussion of participation level standardized assessments and assessments of quality-of-life scales. - More concise information on the normal anatomy and physiology of each body system allows a sharper focus on development changes across the lifespan and how they impact function. Protein-Calorie Malnutrition Pergamon An authority in crisis management outlines seven distinct competencies an organization needs to handle crises effectively in order to come through the event with strength and confidence. **Applied Degree Education and the Future of Work** Notion Press This book includes many new, enhanced features and content. Overall, the text integrates two success stories of practicing instructional designers with a focus on the process of instructional design. The text includes stories of a relatively new designer and another with eight to ten years of experience, weaving their scenarios into the chapter narrative.

Throughout the book, there are updated citations, content, and information, as well as more discussions on learning styles, examples of cognitive procedure, and explanations on sequencing from cognitive load theory.

Buku Ajar Keperawatan Gerontik

McGraw Hill Professional

This volume presents a systematic review of interprofessional education in health and social care. This is accompanied by a wider-ranging critique of interprofessional education, grounded by experience, and informed by sources beyond the evaluations that qualified for inclusion in the review. Synthesising the evidence base for interprofessional education nevertheless remains central, with 353 studies surveyed in the first instance, from which 107 studies form the basis for the final analysis. The book does much more than amass evidence. It revisits conventional wisdom; setting an agenda to help interested parties perform better by applying lessons learned, remedying weaknesses and renewing efforts to address unanswered questions. The first three chapters set the scene for the systematic review and its findings. The

middle section of the book articulates the findings of the review. Finally, the closing chapters consider values and attitudes, theoretical perspectives and offer conclusions. Arguments, assumptions and evidence in this publication are presented to inform policy making, programme planning, teaching and research.

The Story of Yoga AMACOM/American Management Association

Delve into the mind of a fraudster to beat them at their own game Corporate Fraud Handbook details the many forms of fraud to help you identify red flags and prevent fraud before it occurs. Written by the founder and chairman of the Association of Certified Fraud Examiners (ACFE), this book provides indispensable guidance for auditors, examiners, managers, and criminal investigators: from asset misappropriation, to corruption, to financial statement fraud, the most common schemes are dissected to show you where to look and what to look for. This new fifth edition includes the all-new statistics from the ACFE 2016 Report to the Nations on Occupational Fraud and Abuse, providing a current look at the impact of and trends in fraud. Real-world

case studies submitted to the ACFE by actual fraud examiners show how different scenarios play out in practice, to help you build an effective anti-fraud program within your own organization. This systematic examination into the mind of a fraudster is backed by practical guidance for before, during, and after fraud has been committed; you'll learn how to stop various schemes in their tracks, where to find evidence, and how to quantify financial losses after the fact. Fraud continues to be a serious problem for businesses and government agencies, and can manifest in myriad ways. This book walks you through detection, prevention, and aftermath to help you shore up your defenses and effectively manage fraud risk. Understand the most common fraud schemes and identify red flags Learn from illustrative case studies submitted by anti-fraud professionals Ensure compliance with Sarbanes-Oxley and other regulations Develop and implement effective anti-fraud measures at multiple levels Fraud can be committed by anyone at any level—employees, managers, owners, and executives—and no organization is immune. Anti-fraud regulations are

continually evolving, but the magnitude of fraud's impact has yet to be fully realized. Corporate Fraud Handbook provides exceptional coverage of schemes and effective defense to help you keep your organization secure.

the tools you need to speak up with confidence, to charm and persuade, and to talk your way through any situation-- successfully.

Interest Group Politics Oxford University Press, USA

This practical text addresses a gap in the literature by mapping the links between philosophy, research method and practice in an accessible, readable way. It offers guidance to allied health professionals – increasingly involved in research as the emphasis grows on evidence-based practice – on how to engage in meaningful, good quality qualitative research. To help researchers take on this challenge, the book: highlights some of the choices involved in carrying out qualitative research offers a wide range of practical examples to show how different ways of doing qualitative research can be managed critically examines a variety of qualitative research methodologies of particular interest to allied health professionals clarifies the links between epistemology, methodology and method. The book is structured in three parts. Part I sensitises readers to the complex issues which challenge qualitative researchers at

the planning stage of their projects. In Part II, the challenge of using different methodologies is critically explored by fifteen authors, who describe their individual research experiences. Part III examines the choices researchers make when they evaluate and present research.

The Definitive Guide to Communicating in Any Crisis “When facing an already difficult crisis, the last thing a company needs is to make it worse through its own communications – or lack thereof. As one who has lived through a number of [business] crises and served as an independent investigator of the crises of others, I consider Steven Fink’s book to be an excellent guide to avoiding collecting scar tissue of your own by learning from the scar tissue painfully collected by others.”—Norman R. Augustine, former Chairman and Chief Executive Officer,

Lockheed Martin There are few guarantees in business today. Unfortunately, one of them is the inevitability of a crisis having a potentially major effect on your business and your reputation. When your company finds itself in the midst of a crisis, the ripple effects can disrupt lives and business for the foreseeable future if public opinion is not properly shaped and managed. Skillfully managing the perception of the crisis determines the difference between a company’s life or death. Because in the pitched battle between perception and reality, perception always wins. Fortunately, there is a solution. Crisis communications and crisis management legend Steven Fink gives you everything you need to prepare for the inevitable—whether it’s in the form of human error, industrial accidents, criminal behavior, or natural disasters. In this groundbreaking guide, Fink provides a complete toolkit for ensuring smooth communications and lasting business success through any crisis. Crisis Communications offers proactive and preventive methods for preempting potential crises. The book reveals proven strategies for recognizing and averting

damaging crisis communications issues before it's too late. The book also offers ways to deal with mainstream and social media, use them to your advantage, and neutralize and turn around a hostile media environment. Steven Fink uses his decades of expertise and experience in crisis communications to help you:

UNDERSTAND AND MANAGE THE RELATIONSHIP BETWEEN PUBLIC PERCEPTION AND REALITY
 CHOOSE THE BEST SPOKESPERSON FOR THE CRISIS
 PROTECT YOUR BRAND AND REPUTATION THROUGH CRISES LARGE AND SMALL
 MAKE WISE, VIGILANT, AND DEFENSIBLE DECISIONS UNDER EXTREME CRISIS-INDUCED STRESS
 TELL THE TRUTH NO MATTER HOW TEMPTING IT MAY BE TO MISLEAD
 USE SOCIAL MEDIA OUTLETS TO COMMUNICATE DIRECTLY TO THE PUBLIC ABOUT A CRISIS

The explosion of the Internet and, especially, social media, has added a new layer to the business leader's skill set: the ability to handle a crisis quickly and professionally within moments of its occurrence. Livelihoods depend upon it. With in-depth case studies of Toyota, BP, and Penn State, *Crisis Communications* provides everything you need to

successfully lead your company through today's rocky landscape of business—where crises large and small loom around every corner, and the lives of businesses and management teams hang in the balance. PRAISE FOR STEVEN FINK'S CRISIS MANAGEMENT "Every major executive in America ought to read at least one book on crisis management. In this way, he or she might be better prepared to deal with the disasters striking organizations at an ever-increasing rate ... The question is: 'Is Steven Fink's book one that busy executives ought to read?' The answer is a resounding yes."—LOS ANGELES TIMES, FRONT PAGE SUNDAY BOOK REVIEW

Corporate Fraud Handbook Airlangga University Press

"UNICEF's 2009 report *Tracking Progress on Child and Maternal Nutrition* drew attention to the impact of high levels of undernutrition on child survival, growth and development and their social and economic toll on nations. It described the state of nutrition programmes worldwide and argued for improving and expanding delivery of key nutrition interventions during the critical 1,000-day window

covering a woman's pregnancy and the first two years of her child's life, when rapid physical and mental development occurs. This report builds on those earlier findings by highlighting new developments and demonstrating that efforts to scale up nutrition programmes are working, benefiting children in many countries."-- Page 1.

Crisis Communication (PB) Elsevier Health Sciences

How did an ancient Indian spiritual discipline turn into a \$20+ billion-a-year mainstay of the global wellness industry? What happened along yoga's winding path from the caves and forests of the sages to the gyms, hospitals and village halls of the modern West? This comprehensive history sets yoga in its global cultural context for the first time. It leads us on a fascinating journey across the world, from arcane religious rituals and medieval body-magic, through muscular Christianity and the British Raj, to the Indian nationalist movement and the arrival of yoga in the twentieth-century West. We discover how the practice reached its present-day ubiquity and how it became embedded in powerful social currents shaping the

world's future, such as feminism, digital media, celebrity culture, the stress pandemic and the quest for an authentic identity in the face of unprecedented change. Shearer's revealing history boasts a colorful cast of characters past and present, who tell an engaging tale of scholars and scandal, science and spirit, wisdom and waywardness. This is the untold story of yoga, warts and all.

PCET CQ Press

Judul : HUBUNGAN PENGETAHUAN TERHADAP KEPATUHAN PENGGUNAAN OBAT PADA PASIEN DIABETES MELITUS TIPE 2 Penulis : HANSEN NASIF, dan NURSYAFNI Ukuran : 15,5 x 23 cm Tebal : 93 Halaman Cover : Soft Cover No. ISBN : 978-623-162-184-9 SINOPSIS Diabetes Melitus hingga saat ini masih merupakan penyebab mortalitas dan morbiditas yang tinggi di Indonesia. Kepatuhan penggunaan obat merupakan faktor yang menentukan keberhasilan dalam pengobatan dan mencegah berkembangnya penyakit ini ke arah yang lebih berbahaya. Pengetahuan merupakan salah satu faktor yang mempengaruhi kepatuhan, dimana dengan tingkat pengetahuan yang baik akan membuat

pasien mengerti mengenai penyakitnya dan mengerti bagaimana harus mengubah perilakunya dalam menghadapi penyakit tersebut. Hal inilah yang dikaji dalam buku ini, apakah teori yang mengatakan makin tinggi tingkat pengetahuan akan makin patuh seorang pasien dalam mengkonsumsi obatnya.

& prasarananya.

Harrison's Principles of Internal Medicine, Twentieth Edition (Vol.1 & Vol.2) McGraw Hill Professional

This volume examines the important question of whether or not international human rights and Islamic law are compatible. It asks whether Muslim States can comply with international human rights law whilst adhering to Islamic law. The traditional arguments on this subject are examined and responded to from both international human rights and Islamic legal perspectives. The volume engages international human rights law in theoretical dialogue with Islamic law, facilitating an evaluation of the human rights policy of modern Muslim States. *International Human Rights and Islamic Law* formulates a synthesis between these two extremes, and argues that although there are differences of scope and application, there is no fundamental incompatibility between these two bodies of law. Baderin argues that their differences could be better addressed if the concept of human rights were positively established from within the themes of Islamic law, rather than by

imposing it upon Islamic law as an alien concept. Each article of the International Covenant on Civil and Political Rights, and the International Covenant on Economic, Social and Cultural Rights, as well as relevant articles of the Convention on the Elimination of All Forms of Discrimination against Women are analysed in the light of

Islamic law. The volume concludes that it is possible to harmonise the differences between international human rights law and Islamic law through the adoption of the 'margin of appreciation' doctrine by international human rights treaty bodies and the utilization of the Islamic law doctrines of 'maqâsid al-sharî'ah' (the overall objective of Sharî'ah) and

'maslahah' (welfare) by Muslim States in their interpretation and application of Islamic law respectively. Baderin asserts that Islamic law can serve as an important vehicle for the guarantee and enforcement of international human rights law in the Muslim world, and the volume concludes with recommendations to that effect.
